ECS to Grade 12
Guide to Education
2018–2019
All changes to Alberta Education requirements contained in this document are effective the first day of the school year as defined by the school authority.

This Guide to Education: ECS to Grade 12 is authorized in accordance with section 39 of the School Act, Revised Statutes of Alberta 2000, Chapter S-3, as amended, for use in Alberta schools.

[Original Signed]  
Deputy Minister of Education
Available in electronic format on the Alberta Education website.

The electronic version of the Guide includes many links. To use the links most efficiently, readers are encouraged to download and save a copy of the Guide to their computer.

**Note:** The Alberta Education website has recently undergone a major redesign and continues to be updated. Links in the Guide were checked for accuracy before publication but are subject to change. To report broken links, contact Alberta Education as indicated below.

For suggested changes or questions regarding content, contact the Policy Development and Coordination Branch, Alberta Education, at 780-643-0844 or email EDC.PolicyBranch@gov.ab.ca. To be connected toll-free in Alberta, dial 310-0000.

All references to the *School Act* are to the Revised Statutes of Alberta 2000, Chapter S-3, as amended.

The primary intended audience for the Guide is

</table>
The education of our students is fundamental to shaping a preferred provincial, national and global future. It is also essential in maintaining Alberta’s standard of living and ensuring our global competitiveness. Our education system must simultaneously prepare the citizens of tomorrow while equipping our students with the knowledge and skills they need to be successful in a rapidly changing economy and society.

Alberta Education’s business plan describes directions that will help our young people get the education they need. The outcomes, key strategies and performance measures in the plan reflect Alberta Education’s leadership role in developing programs for students, setting standards for education, communicating these expectations to our stakeholders and supporting improvements to meet student needs.

Schools have the responsibility to provide instructional programs that ensure students will meet the provincial high school completion requirements and are prepared for entry into the workplace or post-secondary studies. As well, schools are to ensure that students understand the rights and responsibilities of citizenship and have the skills and attitudes to pursue learning throughout their lives.

The Guide is developed by Alberta Education for the use of administrators, counsellors, teachers and other parties engaged in the delivery of quality basic education. It is consistent with the objectives and underlying principles of the School Act and contains key requirements and other information for the implementation of education programming and the operation of schools.

**Purposes of the Guide**

The Guide serves the following purposes:

- to support Alberta Education’s objective of providing consistent direction while encouraging flexibility and discretion at the local level
- to provide information about ECS to Grade 12 programs, education delivery and achievement standards for students enrolled in Alberta schools
- to communicate information useful in organizing and operating Alberta schools to meet the needs of children/students
- to serve as the key policy repository for the ministry

In school, students should be encouraged to challenge themselves at new levels and in new experiences, as well as to prepare themselves for future choices in their lives and in their communities. The Program Foundations section of the Guide describes Kindergarten to Grade 12 education in Alberta and outlines the learning outcomes for students and schools. A focus on students is integral to all school programming and reflects the emphasis of the School Act.

**Definitions**

The terms “board” and “school” in this document are in accordance with the definitions used in the School Act. In the Guide, the term “school jurisdiction” refers to an Alberta public or separate school division, Francophone Regional authority, or charter school. The term “school authority” includes school jurisdictions, accredited-funded private schools and private early childhood services (ECS) operators.
Document Availability

The Guide is available on the Alberta Education website.

The French version of the Guide to Education: ECS to Grade 12, entitled Guide de l’éducation: Préscolaire à 12e année, can also be accessed on the Alberta Education website.

Current versions of the complete statutes and regulations can be accessed via the Queen’s Printer website.

Provincial Approach to Student Information (PASI)

The Provincial Approach to Student Information (PASI) is a strategic, multi-faceted system, including business processes, information systems and technologies, to support a collaborative enterprise for education that allows schools, school authorities and the ministry to share student information in real-time. PASI provides the right information to the right people at the right time, supporting schools and school authorities with student information as students move from school to school and transition from grade to grade and teacher to teacher.

Alberta Student Number (ASN)

Alberta Education assigns every student a unique nine-digit Alberta Student Number (ASN). The ASN is required for students to receive services from Alberta Education.

It is the responsibility of each school to ensure that students are aware of their ASN. To assist in this awareness it is recommended that a student’s ASN be incorporated into any official documentation produced by a school or school authority and be included in the official student record. Some examples of official documentation include student identification cards, report cards and progress reports.

myPass

myPass is an Alberta Education self-service website for students to

- order high school transcripts in English or French
- view diploma examination marks
- register to write or rewrite diploma examinations with online payment
- view and print Detailed Academic Reports (DAR)
- view progress toward a credential (diploma or certificate)
- order additional copies of an awarded credential in English or French
- receive notifications for important messages

Visit myPass for more information.

Identification of Content Changes

A Summary of Key Changes, which identifies significant updates since the previous edition of the Guide, is posted on the Alberta Education website. However, readers are encouraged to familiarize themselves with the Guide in its entirety.
Alberta Education Mission

The ministry ensures that inclusive learning opportunities enable students to achieve success as engaged thinkers and ethical citizens with an entrepreneurial spirit. Key outcomes are focused on providing policy direction, funding and assurance to the Kindergarten to Grade 12 education system so that all students are successful at learning.

Ministerial Order on Student Learning

Ministerial Order (#001/2013)
School Act, Section 39(1)

This ministerial order sets the goals and standards for student learning outcomes.

WHEREAS the fundamental goal of education in Alberta is to inspire all students to achieve success and fulfillment, and reach their full potential by developing the competencies of Engaged Thinkers and Ethical Citizens with an Entrepreneurial Spirit, who contribute to a strong and prosperous economy and society.

WHEREAS education in Alberta is based on the values of opportunity, fairness, citizenship, choice, diversity, and excellence.

WHEREAS the educational best interest of the child is the paramount consideration in making decisions about a child’s education.

WHEREAS education in Alberta will be shaped by a greater emphasis on education than on the school; on the learner than on the system; on competencies than on content; on inquiry, discovery and the application of knowledge than on the dissemination of information; and on technology to support the creation and sharing of knowledge than on technology to support teaching.

WHEREAS competencies are interrelated sets of attitudes, skills and knowledge that are drawn upon and applied to a particular context for successful learning and living, are developed over time and through a set of related learner outcomes.

WHEREAS students will study subjects; learn reading, writing and mathematics; and focus more deeply on a curriculum that allows for more interdisciplinary learning through competencies that are explicit in all subjects.

WHEREAS an Engaged Thinker knows how to think critically and creatively and make discoveries through inquiry, reflection, exploration, experimentation and trial and error; is competent in the arts and sciences including languages; uses technology to learn, innovate, collaborate, communicate and discover; has developed a wide range of competencies in many areas, including gathering, analysis and evaluation of information; is familiar with multiple perspectives and disciplines and can identify problems and then find the best solutions; as a team member, integrates ideas from a variety of sources into a coherent whole and communicates these ideas to others; adapts to the many changes in society and the economy with an attitude of optimism and hope for the future; as a lifelong learner, believes there is no limit to what knowledge may be gleaned, what skills may be accumulated, and what may be achieved in cooperation with others; and always keeps growing and learning.
WHEREAS an Ethical Citizen understands that it is not all about them, has learned about and is appreciative of the effort and sacrifice that built this province and country and sees beyond self-interests to the needs of the community; is committed to democratic ideals; contributes fully to the world economically, culturally, socially and politically; as a steward of the earth, minimizes environmental impacts; builds relationships through fairness, humility and open mindedness, with teamwork, collaboration and communication; engages with many cultures, religions and languages, values diversity in all people and adapts to any situation; demonstrates respect, empathy and compassion for all people; cares for themselves physically, emotionally, intellectually, socially and spiritually; is able to ask for help, when needed, from others, and also for others; and assumes the responsibilities of life in a variety of roles.

WHEREAS an individual with an Entrepreneurial Spirit is motivated, resourceful, self-reliant and tenacious; continuously sets goals and works with perseverance and discipline to achieve them; through hard work, earns achievements and the respect of others; strives for excellence and personal, family and community success; is competitive and ready to challenge the status quo; explores ideas and technologies alone or as part of diverse teams; is resilient, adaptable, able and determined to transform discoveries into products or services that benefit the community and, by extension, the world; develops opportunities where others only see adversity; has the confidence to take risks and make bold decisions in the face of adversity, recognizing that to hold back is to be held back; and has the courage to dream.

WHEREAS graduation requirements, education delivery and standards for student learning are set out in other legislative and policy instruments.

1 Ministerial Order No. 004/98, dated February 10, 1998, is hereby repealed by this order.

2 The goal of this Student Learning Ministerial Order for an inclusive Kindergarten to Grade 12 education is to enable all students to achieve the following outcomes:

(1) be Engaged Thinkers and Ethical Citizens with an Entrepreneurial Spirit;
(2) strive for engagement and personal excellence in their learning journey;
(3) employ literacy and numeracy to construct and communicate meaning; and
(4) discover, develop and apply competencies across subject and discipline areas for learning, work and life to enable students to:
   (a) know how to learn: to gain knowledge, understanding or skills through experience, study, and interaction with others;
   (b) think critically: conceptualize, apply, analyze, synthesize, and evaluate to construct knowledge;
   (c) identify and solve complex problems;
   (d) manage information: access, interpret, evaluate and use information effectively, efficiently, and ethically;
   (e) innovate: create, generate and apply new ideas or concepts;
   (f) create opportunities through play, imagination, reflection, negotiation, and competition, with an entrepreneurial spirit;
   (g) apply multiple literacies: reading, writing, mathematics, technology, languages, media, and personal finance;
   (h) demonstrate good communication skills and the ability to work cooperatively with others;
   (i) demonstrate global and cultural understanding, considering the economy and sustainable development; and
   (j) identify and apply career and life skills through personal growth and well-being.
Programming Principles

The development of programs to meet the educational needs of students involves multiple levels of planning and decision making. At the provincial level, in accordance with section 39(1) of the *School Act*, planning takes place through the development of programs of study. Programs of study identify the learning outcomes for all subject-area courses and programs. Alberta Education seeks broad input from educators, business, industry and the community in planning programs of study. Programs of study are established at the provincial level and apply to all students.

At the local level, planning involves decisions about how programs of study can best be implemented with particular groups of students and with individual students. This type of planning is referred to as programming.

Programming takes place at the local level and is concerned with effective delivery of the programs of study to the students enrolled. Programming decisions are made by school authorities, schools, teachers and students. Programming involves a variety of processes for ensuring effective program implementation. These processes include:

- identifying outcomes for learning (based on programs of study and student progress)
- organizing for instruction (including the grade configuration of schools)
- selecting learning activities
- selecting learning resources
- assessing student progress
- evaluating student progress
- providing time for learning based on student progress

Programming decisions are best made at the local level to ensure that the scope of the programs offered and the delivery of those programs are responsive to the learning needs of all students. Decision making at the local level also provides the opportunity for effective use of local resources and for local guidelines to be recognized. This is done in many different ways (e.g., by introducing enrichment activities, optional courses, alternative programs, work experience, mentoring and adjustments in instructional time).

**General Principles for Effective Programming**

The following principles provide a general guide for programming:

**Outcomes are clearly defined.**

Progress in learning is enhanced when the student, the parents and the teacher have a clear understanding of what is to be achieved. A shared understanding of what is expected enables the student, the parents and the teacher to work together.

The selection of outcomes for student learning must be based on the programs of study. These outcomes should be linked to specific ways in which students can demonstrate their learning.

Outcomes are most clear when the means of determining student progress are identified and exemplars are provided and communicated to all involved.
Planning is based on assessments of student progress.

Ongoing assessment of student progress informs the student, parents and teacher of what has been achieved and what is yet to be achieved. Learning and instruction should be consistent with student abilities and should set appropriate levels of challenge.

Learning experiences are connected.

Student learning is cumulative and takes place in a variety of formal and informal settings. Learning is enhanced when what is learned in one setting reinforces and extends what has been and is being learned in others.

- **Communication Between School and Home**
  Parents are the first and ongoing educators of their children. Schools should enable families to continue their involvement in their children’s education. The linkage between school and home enables teachers and parents to exchange information, jointly support student learning and ensure the continuity of learning experiences.

- **Connections Across Subject Areas**
  There are many opportunities to connect and apply what students learn in one subject area with what they learn in other subject areas. By making these connections, student learning in each subject area is enhanced and the ability to apply learning in new situations is improved. This helps students see the world as a connected whole instead of in a fragmented way.

- **Partnerships Between School and Community**
  What students learn in school is enhanced when applied and extended in the community. Involvement in projects, community service activities, mentorship programs and job shadowing makes learning more relevant. Involvement in these activities also may provide significant role models for students and an opportunity for them to explore future career possibilities.

- **Consistency Between Programs of Study and Assessment**
  Student learning is reinforced when what is taught is reflected in what is assessed. The methods used in assessing student progress, as well as mastery of the subject matter, should be consistent with the outcomes that have been communicated to students.

- **Coordination Between Schools**
  When students change schools, the coordination of programming and assessment practices between schools can help achieve a smooth transition. Disruptions can be minimized when the receiving school is provided with full information on student attainment and learning characteristics. Information on student progress should be referenced directly to the programs of study.

Programming responds to the learning progress of students.

Programming involves decisions about time, resources, instructional approaches, assessment and organization for instruction. To maximize student learning, programming needs to be flexible and responsive to the learning progress of students.

Flexible programming involves

- using time as a resource, recognizing that students learn at different rates
- grouping students according to educational needs and according to the characteristics of the learning activity
- using a broad range of learning resources, with the selection of particular resources according to learner needs and learning traits
• using a broad range of instructional strategies to provide a variety of ways for viewing subject matter as well as an opportunity for individual students to learn in their preferred modes

• using a wide variety of examples and applications of the subject matter to provide students with an opportunity to explore and discover areas of relevance and interest

• using a wide variety of assessment strategies to monitor student progress in all areas of the programs of study

• decision making about future programming based upon assessment of students

**Programming responds to the developmental stages of students.**

During their school years, students go through many developmental stages in their intellectual, physical, emotional and social growth. The stage of student growth in each of these areas is an important consideration in developing and implementing school programs.

**Indicators of Effective Programming**

School programming is effective when it responds to the learning needs and progress of students. The following characteristics and indicators provide a description of programming that recognizes and responds to students’ learning needs:

<table>
<thead>
<tr>
<th>INDICATORS OF EFFECTIVE PROGRAMMING</th>
</tr>
</thead>
<tbody>
<tr>
<td>Characteristics</td>
</tr>
</tbody>
</table>
| The learning needs and progress of each student are known. | • Parents are aware of the learning needs and educational progress of their children.  
• Teachers are aware of the characteristics and learning needs of individual students.  
• Teachers are aware of student progress in previous years.  
• Teachers are aware of student progress in other program areas.  
• Students are able to describe their learning progress, can identify what they are currently studying and can identify what they will be working on next. |
| Instruction is based on the student’s current level of achievement. | • Students are able to successfully complete the learning activities they are assigned.  
• Students show continuous growth in their learning. |
| Connections are made between what the student already knows and what the student learns next. | • Students can describe the relationship between what they are currently studying and what they have previously studied.  
• Students are able to apply learning in situations that require a combination of knowledge, skills and attitudes from different parts of their programs. |
| School learning experiences provide challenge. | • Students show interest in their studies.  
• Parents comment on student interest and achievement.  
• Students experience a wide range of approaches to learning.  
• At any given time, different students can be observed working on different tasks.  
• Students use a variety of sources to complete their work.  
• Students take initiative in and show responsibility for their learning. |
Introduction

School Act, RSA 2000, c. S-3

The School Act sets out the legal parameters that govern the education of students in Alberta. This section contains extracts from the School Act that highlight the roles and responsibilities of parents, students, teachers, principals and school councils.

Extracts from the School Act regarding student attendance, suspension and expulsion have been included so that they may be related to the role of the parent, student, teacher and principal. References are also made to the sections of the School Act that highlight the importance of providing students and board staff with a welcoming, caring, respectful and safe learning environment; Bullying Awareness and Prevention Week; support for student organizations; religious and patriotic instruction; notice to parents; student records; and fees and costs.

Readers are advised to access the complete statute on the Queen's Printer website.

The Parent

School Act, Preamble and Sections 1(1)(q), 1(2), 16.2

The preamble of the School Act states that parents have a right and responsibility to make decisions respecting the education of their children. The definition of parent is set out in section 1 of the School Act and includes:

- the guardian as set out in section 20 of the Family Law Act,
- the guardian appointed under Part 1, Division 5 of the Child, Youth and Family Enhancement Act or section 23 of the Family Law Act if the guardian notifies the board in writing of the guardian’s appointment,
- the guardian appointed under a will or document referred to in section 22 of the Family Law Act whose appointment has taken effect, if the guardian notifies the board in writing of the guardian’s appointment,
- the individual who has care and control of the student as a result of the change if the student’s guardian resided in Alberta and has changed the guardian’s residence so that it is outside Alberta or unknown,
- the guardian of a student appointed under a temporary or permanent guardianship order or a permanent guardianship agreement under the Child, Youth and Family Enhancement Act if the guardian notifies the board in writing of the guardian’s appointment, or
- the Minister of Justice and Solicitor General if the student is in custody under the Corrections Act, the Corrections and Conditional Release Act (Canada) or the Youth Criminal Justice Act (Canada).

Section 16.2 of the School Act states that a parent of a student has the responsibility:

(a) to take an active role in the student’s educational success, including assisting the student in complying with section 12,
(b) to ensure that the parent’s conduct contributes to a welcoming, caring, respectful and safe learning environment,
(c) to co-operate and collaborate with school staff to support the delivery of supports and services to the student,
(d) to encourage, foster and advance collaborative, positive and respectful relationships with teachers, principals, other school staff and professionals providing supports and services in the school, and
(e) to engage in the student’s school community.
The Student

*School Act*, Sections 1(1)(gg), 12

Section 1(1)(gg) of the *School Act* defines a “student” as an individual who is

(i) enrolled in a school, or  
(ii) required under section 13 to attend school.

Section 12 of the *School Act* states that a student shall conduct himself or herself so as to reasonably comply with the following code of conduct:

(a) be diligent in pursuing the student’s studies;  
(b) attend school regularly and punctually;  
(c) co-operate fully with everyone authorized by the board to provide education programs and other services;  
(d) comply with the rules of the school;  
(e) account to the student’s teachers for the student's conduct;  
(f) respect the rights of others;  
(g) ensure that the student’s conduct contributes to a welcoming, caring, respectful and safe learning environment that respects diversity and fosters a sense of belonging;  
(h) refrain from, report and not tolerate bullying or bullying behaviour directed toward others in the school, whether or not it occurs within the school building, during the school day or by electronic means;  
(i) positively contribute to the student’s school and community.

Independent Student

*School Act*, Section 1(1)(m)

Section 1(1)(m) of the *School Act* defines an “independent student” as a student who is

(i) 18 years of age or older, or  
(ii) 16 years of age or older and

(A) who is living independently, or  
(B) who is a party to an agreement under section 57.2 of the *Child, Youth and Family Enhancement Act*.

Resident Student

*School Act*, Sections 1(1)(x), 4(4), 6(3), 44, 45, 273

Section 1(1)(x) of the *School Act* defines a “resident student” as an individual who is entitled to have access to an education program under section 8 and who is a resident student as determined under section 44.

Section 44 of the *School Act* contains the general provisions that can be used to determine whether a student is a “resident student.” Section 273 of the *School Act* is used to determine a person’s residence. Section 45 of the *School Act* sets out the responsibilities of boards in relation to a “resident student.”
Although Francophone Education Regions and their Regional Authorities do not have “resident students,” section 4(4) and section 6(3) of the School Act state the following:

4 (4) If a provision of this Act applies to a Region, a reference to a resident student in the provision as it applies to the Region is deemed to be a reference to a student enrolled in a school operated by the Regional authority, if any.

6 (3) If a student is the child of a Francophone and is enrolled in a school operated by a Regional authority, the student continues to be a resident student of a board of a district, of a division or, if section 44(7) applies to the student, of the Government, but section 45 does not apply to that board or the Minister, as the case may be, with respect to that student while the student is enrolled in a school operated by a Regional authority.

**Student Attendance**

School Act, Sections 12(b), 13, 14, 60(3)(b)

Section 13 of the School Act states that an individual who

(a) is eligible to be enrolled in a school,
(b) at September 1 in a year is 6 years of age or older, and
(c) is younger than 16 years of age,

shall attend school.

School jurisdictions may make rules regarding school attendance under section 60(3)(b). Expectations for student conduct regarding school attendance are set out under section 12(b). Students may be excused from attending school for reasons described under section 13(5). Enforcing school attendance is described under section 14.

**Attendance Board**

School Act, Sections 13, 14, 15, 126–130

The Attendance Board provides a means to address and seek solutions to issues or problems regarding attendance at school. School jurisdictions and private schools may make referrals to the Attendance Board, under section 15, when a student who is required to attend school under section 13 does not attend school. Under section 126, before referring a matter to the Attendance Board, the student must be advised of the student’s duty to attend school under section 13 and all reasonable efforts must be made to enforce the student’s attendance at school.

Upon hearing a matter, the Attendance Board may issue an order under section 128 directing the student and/or the parent to do a number of things, including

- directing the student to attend school
- directing the parent to send the student to school
- directing the student to take a program or course
- reporting the matter to a director under the Child, Youth and Family Enhancement Act
- imposing a monetary penalty on the parent for each day the student does not attend school and/or
- giving any other direction that the Attendance Board considers appropriate based on the circumstances

An order of the Attendance Board, when filed with the Court of Queen’s Bench, has the same force and effect as if the order were an order of that Court. Failure to comply with a filed order of the Attendance Board may lead to civil contempt proceedings before the Court of Queen’s Bench.
Suspension

School Act, Sections 1(1)(hh), 24

The School Act outlines the requirements related to the suspension of students.

Suspension is defined in the School Act by section 1(1)(hh):

“suspend” means to remove a student

(i) from school,
(ii) from one or more class periods, courses or education programs, or
(iii) from riding in a school bus

for a period of 10 school days or less in accordance with section 24.

24 (1) A teacher or a principal may suspend a student in accordance with subsection (2) or (3) if in the opinion of the teacher or principal

(a) the student has failed to comply with section 12,
(b) the student has failed to comply with the code of conduct established under section 45.1(2),
(c) the student’s conduct, whether or not the conduct occurs within the school building or during the school day, is injurious to the physical or mental well-being of others in the school, or
(d) the student has distributed an intimate image of another person in the circumstances described in section 1(1.1).

(2) A teacher may suspend a student from one class period.

(3) A principal may suspend a student

(a) from school,
(b) from one or more class periods, courses or education programs, or
(c) from riding in a school bus.

(4) A principal may reinstate a student suspended under subsection (2) or (3).

(5) When a student is suspended under subsection (3), the principal shall

(a) forthwith inform the student’s parent of the suspension,
(b) report in writing to the student’s parent all the circumstances respecting the suspension, and
(c) if requested, provide an opportunity to meet with the student’s parent, and the student if the student is 16 years of age or older, to discuss the reasonableness of the suspension.

(6) If the student is not to be reinstated within 5 school days after the date of the suspension, the principal shall

(a) forthwith inform the board of the suspension, and
(b) report in writing to the board all the circumstances respecting the suspension and the principal’s recommendations,

and the student remains suspended until the board has made a decision under subsection (8).
(7) The principal may recommend that the board expel the student if
   (a) the student has displayed an attitude of wilful, blatant and repeated refusal to comply with section 12,
   (b) the student has displayed an attitude of wilful, blatant and repeated refusal to comply with the
code of conduct established under section 45.1(2),
   (c) the student's conduct, whether or not the conduct occurs within the school building or during the
school day, is injurious to the physical or mental well-being of others in the school, or
   (d) the student has distributed an intimate image of another person in the circumstances described in
section 1(1.1).

(8) The board shall within 10 school days after the date of the suspension
   (a) reinstate the student, or
   (b) expel the student from school in accordance with section 25.

(9) Before the board makes a decision under subsection (8), the student and the student’s parent may
    make representations to the board with respect to the principal’s recommendation to expel the
    student.

Expulsion

School Act, Sections 1(1)(j), 25

The School Act outlines requirements related to the expulsion of students. Expulsion is defined in the School Act
by section 1(1)(j):

“expel” means to remove a student

   (i) from school
   (ii) from one or more courses or education programs, or
   (iii) from riding in a school bus

for a period of more than 10 school days in accordance with section 25.

Section 25 of the School Act outlines the expulsion process:

25 (1) On considering the report provided to it under section 24(6)(b) and any representations made to it
   under section 24(9), the board may expel the student if
   (a) the principal has recommended that the board expel the student, and
   (b) the student has been offered another education program by the board.

(2) An expulsion must be for a period of more than 10 school days.

(3) When a student is expelled under this section, the board shall forthwith notify, in writing, the student’s
   parent, and the student if the student is 16 years of age or older,
   (a) of the expulsion, and
   (b) of the right to request a review under section 124.

(4) The board may re-enrol a student who has been expelled.

For further clarification or information regarding the student suspension and expulsion processes, contact
Learner Services Branch.
Review by the Minister

Section 124(1) of the School Act states that if a board makes a decision on an appeal to it or otherwise with respect to certain specific matters, the parent of a student affected by the decision or the student, if the student is 16 years of age or older, may request in writing that the Minister review the decision of the board.

Section 124 of the School Act states the specific matters that the Minister may review. They include:

- the placement of a student in a special education program
- a matter related to an individual’s entitlement under section 23 of the Canadian Charter of Rights and Freedoms regarding minority language education rights
- a home education program
- the expulsion of a student
- the amount and payment of fees and costs
- access to or accuracy or completeness of a student record

The Minister may also review matters related to:

- a decision made by a Special Needs Tribunal (see section 48 of the School Act)
- an individual’s eligibility to be enrolled in a charter school (see section 14 of the Charter Schools Regulation)

The Teacher

Section 1(1)(ii) of the School Act defines a teacher as an individual who holds a certificate of qualification as a teacher issued under this Act.

Section 18(1) of the School Act states that a teacher, while providing instruction or supervision, must:

(a) provide instruction competently to students;
(b) teach the courses of study and education programs that are prescribed, approved or authorized pursuant to this Act;
(c) promote goals and standards applicable to the provision of education adopted or approved pursuant to this Act;
(d) encourage and foster learning in students;
(e) regularly evaluate students and periodically report the results of the evaluation to the students, the students’ parents and the board;
(f) maintain, under the direction of the principal, order and discipline among the students while they are in the school or on the school grounds and while they are attending or participating in activities sponsored or approved by the board;
(g) subject to any applicable collective agreement and the teacher’s contract of employment, carry out those duties that are assigned to the teacher by the principal or the board.
Section 18(2) of the \textit{School Act} states that at any time during the period of time that a teacher is under an obligation to the board to provide instruction or supervision or to carry out duties assigned to the teacher by a principal or the board, a teacher must, at the request of the board,

(a) participate in curriculum development and field testing of new curriculum;
(b) develop, field test and mark provincial achievement tests and diploma examinations;
(c) supervise student teachers.

\textbf{The Principal}

\textit{School Act}, Sections 1(1)(r), 20

Section 1(1)(r) of the \textit{School Act} defines a principal as a teacher designated as a principal or acting principal under this Act.

Section 20 of the \textit{School Act} states that a principal of a school must

(a) provide a welcoming, caring, respectful and safe learning environment that respects diversity and fosters a sense of belonging;

(a.1) provide instructional leadership in the school;

(b) ensure that the instruction provided by the teachers employed in the school is consistent with the courses of study and education programs prescribed, approved or authorized pursuant to this Act;

(c) evaluate or provide for the evaluation of programs offered in the school;

(d) ensure that students in the school have the opportunity to meet the standards of education set by the Minister;

(e) direct the management of the school;

(f) maintain order and discipline in the school and on the school grounds and during activities sponsored or approved by the board;

(g) promote co-operation between the school and the community that it serves;

(h) supervise the evaluation and advancement of students;

(i) evaluate the teachers employed in the school;

(j) subject to any applicable collective agreement and the principal’s contract of employment, carry out those duties that are assigned to the principal by the board in accordance with the regulations and the requirements of the school council and the board.

\textbf{The School Council}

\textit{School Act}, Section 22

\textit{School Councils Regulation}, AR 113/2007

Section 22 of the \textit{School Act} states that

(1) A school council shall be established in accordance with the regulations for each school operated by a board.

(2) The majority of the members of a school council shall be parents of students enrolled in the school.
(3) A board of a separate school district or a division made up only of separate school districts, by resolution, may require that the parents of students enrolled in a school operated by the board who are members of the school council must also be of the same faith as those who established the separate school districts, whether Protestant or Roman Catholic.

(4) A school council may, at its discretion,

(a) advise the principal and the board respecting any matter relating to the school,
(b) perform any duty or function delegated to it by the board in accordance with the delegation,
(c) consult with the principal so that the principal may ensure that students in the school have the opportunity to meet the standards of education set by the Minister,
(d) consult with the principal so that the principal may ensure that the fiscal management of the school is in accordance with the requirements of the board and the superintendent, and
(e) do anything it is authorized under the regulations to do.

(5) Subject to the regulations, a school council may make and implement policies in the school that the council considers necessary to carry out its functions.

(6) A school council may make bylaws governing its meetings and the conduct of its affairs.

(7) Subject to the regulations, a board may develop and implement policies respecting school councils.

(8) A board shall establish an appeal process or conflict resolution procedure under which the principal or the school council may apply respecting disputes on policies proposed or adopted for a school.

(9) The Minister, on the request of the board, may dissolve a school council without notice at any time if the Minister is of the opinion that the school council is not carrying out its responsibilities in accordance with this Act and the regulations.

(10) The Minister may make regulations

(a) respecting the election or appointment of the members of a school council and the term or other conditions of election or appointment and the dissolution of a school council;
(b) respecting the roles of the principal and the school council of a school and their respective powers, duties and responsibilities;
(c) respecting any other matter the Minister considers necessary respecting school councils;
(d) exempting a school or class of schools from the application of this section.

The Alberta School Council Resource Manual provides information on the operation of school councils and is available on the Alberta Education website.

**Welcoming, Caring, Respectful and Safe Learning Environments**

*School Act*, Sections 1(1)(b.1), 12, 16.2, 45.1

Students are entitled to welcoming, caring, respectful and safe learning environments that respect diversity and nurture a sense of belonging and a positive sense of self.
Section 1(1)(b.1) of the *School Act* states that

“bullying” means repeated and hostile or demeaning behaviour by an individual in the school community where the behaviour is intended to cause harm, fear or distress to one or more other individuals in the school community, including psychological harm or harm to an individual’s reputation.

Bullying also includes “the distribution of an intimate image of another person knowing that the person depicted in the image did not consent to the distribution, or being reckless as to whether or not that person consented to the distribution.”

**Students**

Section 12 of the *School Act* states that a student shall conduct himself or herself so as to reasonably comply with the following code of conduct:

(f) respect the rights of others;

(g) ensure that the student’s conduct contributes to a welcoming, caring, respectful and safe learning environment that respects diversity and fosters a sense of belonging;

(h) refrain from, report and not tolerate bullying or bullying behaviour directed toward others in the school, whether or not it occurs within the school building, during the school day or by electronic means.

**Parents**

Section 16.2 of the *School Act* states that a parent of a student has the responsibility

(b) to ensure that the parent’s conduct contributes to a welcoming, caring, respectful and safe learning environment.

**Board responsibility**

Section 45.1 of the *School Act* states that

(1) A board has the responsibility to ensure that each student enrolled in a school operated by the board and each staff member employed by the board is provided with a welcoming, caring, respectful and safe learning environment that respects diversity and fosters a sense of belonging.

(2) A board shall establish, implement and maintain a policy respecting the board’s obligation under subsection (1) to provide a welcoming, caring, respectful and safe learning environment that includes the establishment of a code of conduct for students that addresses bullying behaviour.

(3) A policy established under subsection (2) and a code of conduct established under subsection (2) must

(a) affirm the rights, as provided for in the *Alberta Human Rights Act* and the *Canadian Charter of Rights and Freedoms*, of each staff member employed by the board and each student enrolled in a school operated by the board, and

(b) contain one or more statements that staff members employed by the board and students enrolled in a school operated by the board will not be discriminated against as provided for in the *Alberta Human Rights Act* or the *Canadian Charter of Rights and Freedoms*. 
(4) A policy established under subsection (2) must contain a distinct portion that addresses the board’s responsibilities under section 16.1, and the distinct portion of the policy

(a) must not contain provisions that conflict with or are inconsistent with this section or section 16.1, and in particular must not contain provisions that would

(i) undermine the promotion of a welcoming, caring, respectful and safe learning environment that respects diversity and fosters a sense of belonging, or

(ii) require a principal to obtain the approval of the superintendent or board or to follow other administrative processes before carrying out functions under section 16.1,

(b) must include the text of section 16.1(1), (3), (3.1), (4) and (6),

(c) must provide that the principal is responsible for ensuring that notification, if any, respecting a voluntary student organization or an activity referred to in section 16.1(1)

(i) is limited to the fact of the establishment of the organization or the holding of the activity, and

(ii) is otherwise consistent with the usual practices relating to notifications of other student organizations and activities, and

(d) must set out the name of the legislation that governs the disclosure of personal information by the board.

(5) A code of conduct established under subsection (2) must contain the following elements:

(a) a statement of purpose that provides a rationale for the code of conduct, with a focus on welcoming, caring, respectful and safe learning environments;

(b) one or more statements about what is acceptable behaviour and what is unacceptable behaviour, whether or not it occurs within the school building, during the school day or by electronic means;

(c) one or more statements about the consequences of unacceptable behaviour, which must take account of the student’s age, maturity and individual circumstances, and which must ensure that support is provided for students who are impacted by inappropriate behaviour, as well as for students who engage in inappropriate behaviour.

(6) In addition to meeting the requirements under subsections (3), (4) and (5), a board shall do the following:

(a) make the policy and code of conduct available throughout the year in a prominent location on a publicly accessible website maintained by or on behalf of the board;

(b) display in a place clearly visible to students in each school the Uniform Resource Locator of the policy and code of conduct on the publicly accessible website;

(c) on request, provide a copy of the policy or code of conduct to an individual;

(d) by June 30 of each year, review the policy and code of conduct, confirm the review by a board resolution and post or repost the policy and code of conduct on the publicly accessible website after review;

(e) comply with any further requirements respecting a policy or code of conduct established by the Minister by order.

For more information, see Safe and Caring Schools on the Alberta Education website.
Bullying Awareness and Prevention Week

*School Act*, Section 43.1

Section 43.1 of the *School Act* states that

1. The 3rd week in November in each year is Bullying Awareness and Prevention Week.

2. The purpose of subsection (1) is to promote awareness and understanding of bullying and its consequences in the school community.

Support for Student Organizations

*School Act*, Section 16.1

Section 16.1 of the *School Act* states that

1. If one or more students attending a school operated by a board request a staff member employed by the board for support to establish a voluntary student organization, or to lead an activity intended to promote a welcoming, caring, respectful and safe learning environment that respects diversity and fosters a sense of belonging, the principal of the school shall

   a. immediately grant permission for the establishment of the student organization or the holding of the activity at the school, and

   b. subject to subsection (4), within a reasonable time from the date that the principal receives the request designate a staff member to serve as the staff liaison to facilitate the establishment, and the ongoing operation, of the student organization or to assist in organizing the activity.

2. For the purposes of subsection (1), an organization or activity includes an organization or activity that promotes equality and non-discrimination with respect to, without limitation, race, religious belief, colour, gender, gender identity, gender expression, physical disability, mental disability, family status or sexual orientation, including but not limited to organizations such as gay-straight alliances, diversity clubs, anti-racism clubs and anti-bullying clubs.

3. The students may select a respectful and inclusive name for the organization or activity, including the name “gay-straight alliance” or “queer-straight alliance”, after consulting with the principal.

   3.1 For greater certainty, the principal shall not prohibit or discourage students from choosing a name that includes “gay-straight alliance” or “queer-straight alliance”.

4. The principal shall immediately inform the board and the Minister if no staff member is available to serve as a staff liaison referred to in subsection (1), and if so informed, the Minister shall appoint a responsible adult to work with the requesting students in organizing the activity or to facilitate the establishment, and the ongoing operation, of the student organization at the school.

5. If a staff member indicates to a principal a willingness to act as a staff liaison under subsection (1),

   a. a principal shall not inform a board or the Minister under subsection (4) that no staff member is available to serve as a staff liaison, and

   b. that staff member shall be deemed to be available to serve as the staff liaison.

6. The principal is responsible for ensuring that notification, if any, respecting a voluntary student organization or an activity referred to in subsection (1) is limited to the fact of the establishment of the organization or the holding of the activity.
Religious and Patriotic Instruction

**School Act**, Section 50

Section 50 of the *School Act* states that

1. A board may
   
   (a) prescribe religious instruction to be offered to its students;
   (b) prescribe religious exercises for its students;
   (c) prescribe patriotic instruction to be offered to its students;
   (d) prescribe patriotic exercises for its students;
   (e) permit persons other than teachers to provide religious instruction or exercises to its students.

2. Where a teacher or other person providing religious instruction or exercises or a teacher providing patriotic instruction or exercises receives a written request signed by a parent of a student that the student be excluded from religious instruction or exercises or patriotic instruction or exercises, or both, the teacher or other person shall, in accordance with the request of the parent, permit the student
   
   (a) to leave the classroom or place where the instruction or exercises are taking place for the duration of the instruction or exercises, or
   (b) to remain in the classroom or place without taking part in the instruction or exercises.

Notice to Parent

**School Act**, Sections 50.1, 50.2

Section 50.1 of the *School Act* states that

1. A board shall provide notice to a parent of a student where courses of study, educational programs or instructional materials, or instruction or exercises, include subject-matter that deals primarily and explicitly with religion or human sexuality.

2. Where a teacher or other person providing instruction, teaching a course of study or educational program or using the instructional materials referred to in subsection (1) receives a written request signed by a parent of a student that the student be excluded from the instruction, course of study, educational program or use of instructional materials, the teacher or other person shall in accordance with the request of the parent permit the student, without academic penalty,
   
   (a) to leave the classroom or place where the instruction, course of study or educational program is taking place or the instructional materials are being used for the duration of the part of the instruction, course of study or educational program, or the use of the instructional materials, that includes the subject-matter referred to in subsection (1), or
   (b) to remain in the classroom or place without taking part in the instruction, course of study or educational program or using the instructional materials.

3. This section does not apply to incidental or indirect references to religion, religious themes or human sexuality in a course of study, educational program, instruction or exercises or in the use of instructional materials.

4. For greater certainty, this section does not apply with respect to the establishment or operation of a voluntary student organization referred to in section 16.1 or the organizing or holding of an activity referred to in section 16.1.
Complaint process

Section 50.2 of the School Act states that

(1) If a board, teacher or other person fails to comply with section 50 or 50.1, that failure to comply is deemed to be a decision that may be appealed in accordance with section 123.

(2) A decision of the board under section 123 with respect to an appeal relating to subsection (1) is final.

Student Records

Section 38.1 of the School Act states that a board, an operator of a private school and an early childhood services program private operator shall establish and maintain a student record for each student enrolled in its schools.

The following persons may review a student record:

- the student, except where the student is a child referred to in section 30(1)(a) of the School Act;
- the student’s parent, except where the student is an independent student; and
- a person who has access to the student under a separation agreement dated before October 1, 2005 or an access order under section 18 or 19 of the Provincial Court Act or under similar legislation, but not under a contact order under Part 2, Division 3, of the Family Law Act.

When requested by a person who is entitled to review a student record, a board, operator of a private school or early childhood services program private operator will provide the person with access to the student record. A board or operator may charge a fee to provide access to or send a copy of a student record.

A person eligible to review a student record is entitled to review any test, test result, information or evaluation contained in a student record. That person is also allowed to request an explanation and interpretation of that test, test result, evaluation or information from a person who is competent to explain and interpret the test or evaluation.

A person who contributes information to a student record is exempt from any liability respecting the provision of that information if that person, in providing that information,

- acted in good faith,
- acted within the scope of that person’s duties and responsibilities, and
- did not act in a negligent manner.

If, on examining a student record, a person is of the opinion that the student record contains inaccurate or incomplete information, that person may request that the board, operator of the private school or early childhood services program private operator rectify the matter.

Section 38.1(9) states that the rights and benefits pertaining to a student under this section apply with respect to a child who is enrolled in an early childhood services program.
Fees and Costs

School Act, Section 39.1

Section 39.1(1) of the School Act states that fees or costs charged to a parent may only be used for the purposes for which they are collected.

For more information, see the School Fees and Costs Regulation.
**Children First Act**

*Children First Act, SA 2013, c. C-12.5*

The *Children First Act* (CFA) supports the health, safety, education, security and well-being of children by providing collection, use and disclosure authorities in addition to those that are currently in the *Freedom of Information and Protection of Privacy Act* (FOIP Act) and the *Health Information Act* (HIA). For more information, visit the [Children First Act](#) web page.

**Child, Youth and Family Enhancement Act**

*Child, Youth and Family Enhancement Act, RSA 2000, c. C-12*

The *Child, Youth and Family Enhancement Act* imposes the duty to report on a person who believes a child is in need of intervention. Section 4 of the *Child, Youth and Family Enhancement Act* states the following:

**Reporting child in need**

4 (1) Any person who has reasonable and probable grounds to believe that a child is in need of intervention shall forthwith report the matter to a director.

(1.1) A referral received pursuant to section 35 of the *Youth Criminal Justice Act* (Canada) is deemed to be a report made under subsection (1).

(2) Subsection (1) applies notwithstanding that the information on which the belief is founded is confidential and its disclosure is prohibited under any other Act.

(3) This section does not apply to information that is privileged as a result of a solicitor-client relationship.

(4) No action lies against a person reporting pursuant to this section, including a person who reports information referred to in subsection (3), unless the reporting is done maliciously or without reasonable and probable grounds for the belief.

(5) Notwithstanding and in addition to any other penalty provided by this Act, if a director has reasonable and probable grounds to believe that a person has not complied with subsection (1) and that person is registered under an Act regulating a profession or occupation prescribed in the regulations, the director shall advise the appropriate governing body of that profession or occupation of the failure to comply.

(6) Any person who fails to comply with subsection (1) is guilty of an offence and liable to a fine of not more than $2000 and in default of payment to imprisonment for a term of not more than 6 months.

For more information, see the [Duty to Report](#) section or contact [School and Community Supports](#).

**Freedom of Information and Protection of Privacy Act**

*Freedom of Information and Protection of Privacy Act, RSA 2000, c. F-25*

The *Freedom of Information and Protection of Privacy Act* (FOIP) sets out the requirements that school jurisdictions must follow to provide a right of access to records and to protect the privacy of individuals by controlling the manner in which personal information is collected, used and disclosed. For more information, visit the [FOIP](#) website.
Personal Information Protection Act

*Personal Information Protection Act, SA 2003, c. P-6.5*

The Personal Information Protection Act (PIPA) governs the collection, use and disclosure of personal information by private schools and private ECS operators and the right of an individual to have access to their own personal information. For more information, visit the PIPA website.

Public Health Act

*Public Health Act, RSA 2000, c. P-37*

The Public Health Act regulates Alberta’s public health policy practices.

**Provision of information by Minister of Education**

18.2 (1) The Minister may require the Minister of Education to provide to the Minister, in the form and manner and within the time specified, the information set out in subsection (2) that is in the custody or under the control of the Department of Education, for the purpose of contacting a parent or guardian of a student, or contacting an independent student, respecting voluntary health programs, including immunization, hearing, vision, speech and dental health programs, and for the purpose of communicable diseases control.

(2) For the purposes of subsection (1), the Minister may require the following information to be provided:

(a) a student’s name, address, postal code, date of birth, sex, grade level and school;

(b) the name, address, postal code, telephone number and electronic address
   (i) of the parent or guardian of a student other than an independent student, or
   (ii) of an independent student;

(c) any other information prescribed in the regulations.

Public Interest Disclosure (Whistleblower Protection) Act

*Public Interest Disclosure (Whistleblower Protection) Act, SA 2012, c. P-39.5*

The Public Interest Disclosure Act (PIDA) facilitates the disclosure of wrongdoing and protects those who make disclosures from reprisals. The Act applies to public entities in Alberta, including public, separate, Francophone, charter and accredited-funded private school authorities. For more information, visit Alberta’s Public Interest Commissioner website.
Remembrance Day Act

Remembrance Day Act, RSA 2000, c. R-16

The Remembrance Day Act outlines the requirements for the observance of Remembrance Day in schools.

School remembrance ceremony

1 (1) A board, as defined in the School Act, shall on Remembrance Day, with respect to each of its schools,

(a) arrange for a remembrance ceremony that will encompass at least the time period from 11:00 a.m. to 11:05 a.m., or

(b) ensure the observance of 2 minutes’ silence from 11:00 a.m. to 11:02 a.m.

(2) If a ceremony referred to in subsection (1)(a) is held at a school, all pupils shall either attend the ceremony or remain in the school, silent, during the ceremony.

(3) If Remembrance Day falls on a day on which the school is not open, the board shall comply with subsection (1) on the school day immediately preceding Remembrance Day.

Teaching Profession Act

Teaching Profession Act, RSA 2000, c. T-2

The Teaching Profession Act creates the Alberta Teachers’ Association (ATA) as the teachers’ professional organization in Alberta and sets out provisions governing membership and the discipline of members.

Sections 16 to 60 of the Teaching Profession Act outline the process for addressing complaints regarding alleged unprofessional conduct of teachers who are active members of the ATA.

The Practice Review Bylaws, enacted pursuant to section 8(1)(g.1) of the Teaching Profession Act, provide a process for addressing complaints regarding alleged incompetent teaching practices of teachers who are active members of the ATA.
Introduction

Regulations are legal requirements. The following subsections provide a synopsis of selected regulations that are relevant to the operation of schools. The regulation number and the relevant sections of the School Act are also noted.

All regulations are available on the Queen's Printer website.

Charter Schools Regulation
Charter Schools Regulation, AR 212/2002
School Act, Sections 31–38

This regulation addresses the establishment of charter schools and the maximum number of charter schools in the province. It also outlines the application for and approval or rejection of charter school status, contents of a proposed charter, charter renewal, charter amendment and charter repeal. For more information, see the Charter Schools section.

Early Childhood Services Regulation
Early Childhood Services Regulation, AR 31/2002
School Act, Section 30

This regulation sets out the requirements for the operation of early childhood services programs, including safety standards, programs, policies, record keeping, financial reporting and insurance. For more information, see the Early Childhood Services section.

Home Education Regulation
Home Education Regulation, AR 145/2006
School Act, Section 29

This regulation sets out the requirements for the operation of a home education program, including the requirement that the home education program be under the supervision of an associate board or an associate private school as defined in the regulation. For more information, see the Home Education section and the Home Education Handbook.

Practice Review of Teachers Regulation
Practice Review of Teachers Regulation, AR 11/2010
School Act, Section 94

This regulation provides a process for addressing complaints regarding alleged unprofessional conduct and/or the alleged incompetent teaching practices of teachers who are not active members of the ATA (teachers in private, charter and band-operated schools).

Private Schools Regulation
Private Schools Regulation, AR 190/2000
School Act, Section 28

This regulation addresses the application for registration and accreditation of private schools; the required programs for registered private schools, accredited private schools and accredited-funded private schools; the records to be kept by private schools; rules for discipline, suspension and expulsion; required notices; school policies; three-year education plans; annual reports; required insurance; and financial reporting.
The regulation also requires private schools, among other obligations, to complete an annual operating plan (Annual Operating Plan form), to keep student records and to ensure student records follow the student when the student changes schools.

**School Councils Regulation**

*School Councils Regulation, AR 113/2007*
*School Act, Section 22*

The *School Councils Regulation* governs the establishment and suspension of school councils.

Section 13 of the *School Councils Regulation* identifies responsibilities of school boards in relation to school councils. This includes providing the opportunity for school councils to be involved in the development of the school’s mission, vision and philosophy; policies; annual education plan and annual results report; and budget.

Additional information about the *School Councils Regulation* is available in the *Alberta School Council Resource Manual*. Also see *School Authority Planning Resources* on the Alberta Education website.

**School Fees and Costs Regulation**

*School Fees and Costs Regulation, AR 101/2017*
*School Act, Sections 30, 39, 39.1*

The *School Fees and Costs Regulation* sets out the requirements and limitations related to the fees and costs that a school board is authorized to charge parents of students. The regulation requires school boards that are charging school fees to report and submit fee schedules, create and publish fee policies, consult with parents, maintain financial statements and identify the need to charge the fees and the process to request a fee waiver or refund.

**School Transportation Regulation**

*School Transportation Regulation, AR 102/2017*
*School Act, Sections 30, 39, 39.1, 51*

The *School Transportation Regulation* sets out the requirements respecting student and early childhood services transportation and limits on transportation fees. The regulation requires school boards that are charging fees to report and submit fee schedules; to create fee policies that include the maintenance of financial statements, the need to charge the fees, dispute resolution and the process to request a fee waiver or fee refund; and to publish these policies on their website.

**Student Evaluation Regulation**

*Student Evaluation Regulation, AR 177/2003*
*School Act, Section 39(3)(c)*

This regulation describes how provincial tests, examinations or other methods of evaluating a student’s achievement are conducted. It provides for directives to be issued outlining Alberta Education’s administrative and procedural requirements for evaluating students.

The regulation also covers security of evaluation materials; eligibility of students to write provincial tests; student conduct resulting in eviction or invalidation and related objection and appeal procedures; review of evaluation results and an appeal process that may include a Special Cases Committee; ministerial determination of fees; and use of evaluation results. For more information, see the *Special Cases Committee* section.
Student Record Regulation

*Student Record Regulation, AR 225/2006*
*School Act, Section 38.1*

This regulation provides guidance with respect to the information that must be managed and maintained on the student record. It addresses retention periods, procedures for the transfer of student records when students change to schools within or outside of Alberta, the disposal and destruction of records and regulation compliance. It also addresses the right of access to a record and the various instances where a board may disclose information from the student record to third parties while ensuring that the disclosure of information is in accordance with the *Freedom of Information and Protection of Privacy Act* (FOIP). Private schools, which are subject to certain provisions of this regulation, are also referred to the *Personal Information Protection Act* (PIPA) for direction in addressing the disclosure of information in student records.
Introduction

The following policies, listed in alphabetical order, are mandatory; however, those responsible for implementing these policies have some flexibility in choosing the methods of implementation.

**Daily Physical Activity Policy**

To increase students' physical activity levels, school authorities shall ensure that all students in grades 1 to 9 are physically active for a minimum of 30 minutes a day through activities that are organized by the school. This policy is based on the belief that healthy students are better able to learn and that school communities provide supportive environments for students to develop positive habits needed for a healthy, active lifestyle. For more information, see the Daily Physical Activity section.

**English as a Second Language Policy**

To facilitate the integration of English language learners into regular school programming and to equip them with the necessary language skills and understanding of the Canadian way of life, school authorities shall provide appropriate English language instruction that meets students' needs. Such programming is critical in helping English language learners participate fully in Alberta's ECS to Grade 12 education system, complete high school and become productive and contributing members of Canadian society. For more information, see English as a Second Language (ESL) on the Alberta Education website.

**Human Sexuality Education Policy**

To ensure that students achieve learning outcomes prescribed by Alberta Education through the programs of study, school jurisdictions and accredited private schools in providing grades 4 to 9 Health and Life Skills, and Career and Life Management, shall ensure that the human sexuality component is offered to all students. Under section 50.1 of the School Act, parents must be provided with notice where courses of study, educational programs or instructional materials, or instruction or exercises, include subject matter that deals primarily and explicitly with religion or human sexuality. Where a parent makes a written request, a student shall be exempt, without academic penalty, from such instruction, course of study, educational program or use of instructional material. For more information, see Notice Under Section 50.1 of the School Act.

**Inclusive Education Policy**

Alberta’s education system is built on a values-based approach to accepting responsibility for all children and students. Inclusion is a way of thinking and acting that demonstrates universal acceptance of, and belonging for, all children and students.

To support children and students in attaining the goals as stated in the Ministerial Order on Student Learning, school authorities must ensure that all children and students (Kindergarten to Grade 12), regardless of race, religious belief, colour, gender, gender identity, gender expression, physical disability, mental disability, family status or sexual orientation, or any other factor(s), have access to meaningful and relevant learning experiences that include appropriate instructional supports.

For more information, see Inclusion on the Alberta Education website.

**Learning Commons Policy**

To support students in attaining the goals and standards as stated in the Ministerial Order on Student Learning, school authorities must ensure that students have access to a learning commons. A learning commons is an inclusive, flexible, learner-centred, physical and/or virtual space for collaboration, inquiry, imagination and play to expand and deepen learning.

For more information, see the Learning Commons section.
**Locally Developed Courses Policy**

School authorities offering locally developed courses must adhere to the approval processes and requirements contained in the Locally Developed Courses section of the Guide. School authorities offering locally developed religious studies courses must ensure that course content includes a comparative study of other major world religions.

For more information, see the Locally Developed Courses section of the Guide.

**Student Evaluation Policy**

To assist in improving programs, establishing and maintaining standards, and improving student achievement, school jurisdictions and accredited-funded private schools shall develop, document, keep current and implement student evaluation policies and procedures for conducting continuous assessments and evaluations of student learning in education programs that provide for

- accurate, fair and equitable student evaluation
- the student’s right of appeal and procedures for appeal
- the role of the student and the teacher in evaluations
- the use of evaluation information for the improvement of the quality of educational programs
- timely communication of evaluation information to students, parents and school councils

For more information, see the Student Assessment: Kindergarten to Grade 9 and Student Assessment in Senior High School sections.

**Teacher Growth, Supervision and Evaluation Policy**

School authorities, ECS operators, superintendents, principals and teachers must work together to develop and implement policy to ensure that all teachers practise consistently in keeping with the Teaching Quality Standard. For more information, see Teacher Growth, Supervision and Evaluation Policy on the Alberta Education website.

**Use and Reporting of Results on Provincial Assessments Policy**

School authorities shall analyze, interpret and report provincial grades 6 and 9 assessment results and Grade 12 diploma examination results, and use these assessment results to complement locally designed and administered student evaluation procedures that assess the quality and effectiveness of education provided to students and to improve student learning. For more information, see

- School Authority Planning Resources
- General Information Bulletin: Provincial Achievement Testing Program Grades 6 and 9
- Provincial achievement tests subject bulletins—subject bulletins for each subject in which a provincial achievement test is administered can be found on the subject-area web pages
- General Information Bulletin: Diploma Examinations Program
- Diploma examinations information bulletins—information bulletins for each course in which a diploma examination is administered can be found on the subject-area web pages.

For information regarding Grade 3 provincial assessments, visit the Student Learning Assessments web page.
Introduction

The following standards specify compulsory acceptable levels of educational program delivery.

**Ministerial Order on Student Learning**

Ministerial Order (#001/2013)

This ministerial order sets the goals and standards for student learning outcomes. See the Program Foundations section.

**Standards for the Provision of Early Childhood Special Education**

Standards for the Provision of Early Childhood Special Education outlines the requirements for school authorities regarding the delivery of high quality special education programming to children who are eligible for Alberta Education funding. For more information, see the Early Childhood Services section.

**Standards for Special Education, Amended June 2004**

Ministerial Order (#015/2004)

This ministerial order outlines the requirements for school boards regarding the delivery of education programming and services to students with special education needs in Grade 1 to Grade 12. For more information, see Diverse Learning Needs.

**Teaching Quality Standard Applicable to the Provision of Basic Education in Alberta**

Ministerial Order (#016/97)

This ministerial order applies to teacher certification, professional development, supervision and evaluation, and is supported by descriptions of selected knowledge, skills and attributes (KSAs) appropriate to teachers at different stages of their careers.

Please note that the current Teaching Quality Standard Applicable to the Provision of Basic Education in Alberta Ministerial Order (#016/97) remains in effect until September 2019.

In February 2018, the Minister signed a new Teaching Quality Standard (#001/2018) along with a Leadership Quality Standard (#002/2018) and Superintendent Leadership Quality Standard (#003/2018). These three standards come into effect in September 2019. During the 2018–2019 school year, implementation supports will be available.

The Leadership Quality Standard and Superintendent Leadership Quality Standard define the competencies of effective school and school authority leadership and superintendent leadership. Leadership certification will be required for principals and superintendents as of September 2019.

For more information, see Professional Practice Standards on the Alberta Education website.
Introduction

Those responsible for the implementation of education programs and the operation of schools must refer to the following documents that also contain requirements for schools. See the Alberta Education website for all documents referenced in this section.

Alberta Education Business Plan

The Alberta Education Business Plan identifies outcomes, key strategies and performance measures for improving the provincial education system.

Alberta Programs of Study

The Alberta programs of study are primarily descriptions of the expectations for student learning at the elementary, junior high and senior high school levels. The content of the programs of study is focused on what students are expected to know and be able to do in each course that has been developed for these levels.

Funding Manual for School Authorities

The Funding Manual for School Authorities defines the terms and criteria under which a school jurisdiction, accredited-funded private school or private ECS operator may obtain funding.

Policy and Requirements for Education Planning and Results Reporting

Section 10(2) of the Fiscal Planning and Transparency Act requires accountable organizations under the jurisdiction of government ministries, including school boards, to prepare business plans and annual reports for each fiscal year in the form, at a time and containing the information acceptable to the Minister.

Section 13(1) of the School Councils Regulation requires school boards to provide the school council with the opportunity to provide advice on the development of the school’s mission, vision and philosophy; annual education plan; annual results report; and budget. Section 13(2) requires school boards to provide the school council with the school’s provincial testing program results and other provincial measures and a reasonable interpretation of those results and measures. These requirements are incorporated into the Policy and Requirements for School Board Planning and Results Reporting and the Policy and Requirements for Charter School Planning and Results Reporting.

These planning and results reporting documents provide guidance on the legislative authority and requirements for school jurisdictions and accredited-funded private schools (see Policy and Requirements for Accredited Funded Private School Authority Planning and Results Reporting) in preparing, updating and reporting on their three-year education plans. The planning and results reporting documents also contain the School Authority Accountability Policy. Guidelines and advice to assist school authorities with planning and reporting are contained in a separate document: School Authority Planning and Reporting: Reference Guide (see Planning Cycle).
Programs of Study

School Act, Section 39(1)

Alberta Education develops programs of study in both English and French. The programs of study are prescribed by the Minister pursuant to section 39(1) of the School Act.

Mandatory requirements for programs and courses are outlined in the programs or courses of study, each of which contains the following components:

- Program Rationale and Philosophy
- Outcomes
  - General Outcomes
  - Specific Outcomes

See the Alberta Education website for all programs of study.

Inclusive Education

Inclusion is not just about learners with disabilities or exceptionalities. It is an attitude and approach that embraces diversity and learner differences, and promotes genuine equality of opportunities for all learners in Alberta.

Every learner has unique needs. Some learners have profound and ongoing needs; others have short-term and/or situation-based needs. This calls for flexible and responsive learning environments.

An inclusive education system that responds to the needs of all learners addresses factors that contribute to the achievement gap and other negative impacts that result from poverty, social exclusion, marginalization, underachievement and mental health issues.

Alberta Education has produced a number of resources that include information and strategies for addressing the diverse learning needs of children and students and that support the implementation of the Inclusive Education Policy.

Supports and Services for Children

School Act, Section 30

Early Childhood Services Regulation, AR 31/2002
Standards for the Provision of Early Childhood Special Education

Alberta Education supports the education of children with special needs. Section 30(1) of the School Act states that a board or, with the approval of the Minister, a person may provide an early childhood services program. A program may be provided to a child who, as of September 1, is younger than 6 years of age, if the parent of the child requests it.

A child attending an early childhood services (ECS) program is not considered a resident of the board, or entitled to any of the rights or benefits given to a student under the Act.

Standards for the Provision of Early Childhood Special Education outlines school authority program delivery requirements and expectations that support Alberta Education’s objective of providing consistent direction while supporting flexibility and discretion at the local school authority level.
As per the Funding Manual for School Authorities (Section 1.1), an approved ECS operator must be prepared to accept and organize programming for all funded children for whom programming is requested, including children with special needs. This programming

- is based on an individualized program plan (IPP); all children with special needs, including children who are gifted and talented, require IPPs
- provides parents with opportunities to participate in decisions affecting their children’s education
- may be provided in a variety of settings
- is based on the results of continuous assessment and evaluation
- is individually and developmentally appropriate
- includes a collaborative approach to ensure coordinated service delivery when other agencies and service providers are involved

Alberta Education has developed a set of Early Childhood Services Fact Sheets. For more information, contact School Accreditation and Standards.

**Supports and Services for Students**

School Act, Sections 16.2, 45, 47
Ministerial Order on Student Learning (#001/2013)

Alberta Education supports the education of students with special needs. Sections 45 and 47 of the School Act outline board responsibilities related to students, including the obligations to provide to each student enrolled in a school operated by the board an education program that will give the student the opportunity to meet the standards of education set by the Minister. School boards are responsible for assessing the learning needs of students and identifying appropriate strategies and supports. Parents have a right and responsibility to work with boards to ensure their children’s needs are met subject to limitations based upon reasonableness in each circumstance.

Standards for Special Education, Amended June 2004 is a ministerial order that applies to public and separate school boards and designated special education private schools. It outlines program delivery requirements and expectations that support Alberta’s objective of providing consistent direction while supporting flexibility and discretion at the local level.

In order to meet the needs of students, programming

- is based on an individualized program plan (IPP) or instructional support plan (ISP); all students with special needs, including students who are gifted and talented, require IPPs/ISPs
- may be provided in a variety of settings
- is based on information gathered, including the results of ongoing assessment, observation and evaluation
- provides access to an educational program that is relevant, meaningful and age-appropriate, using the programs of study as a starting point of instruction

Students with special needs taking courses for credit are expected to meet course requirements using the supports outlined in their IPPs/ISPs.

For more information, contact School Accreditation and Standards.
Francophone Education

School Act, Section 10

Alberta Education recognizes that English and French are the official languages of Canada. Canadian citizens belonging to the Francophone minority in Alberta have the right to have their children educated in Francophone schools according to section 23 of the Canadian Charter of Rights and Freedoms and section 10 of the School Act.

Section 23 right holders may exercise their rights under the Canadian Charter of Rights and Freedoms by enrolling their children in a Francophone school operated by a Francophone Regional authority.

To support the education of children and students eligible for Francophone education, the Francophone school provides appropriate programming that reflects the pillars of Francophone education: language, identity, culture and community integration. Francophone Regional authorities should consult Affirming Francophone Education: Foundations and Directions, A Framework for French First Language Education in Alberta, available on the Alberta Education website. Also see Francophone Education on the Alberta Education website.

Francisation (Francophone)

Francisation programming is composed of program planning and instructional supports to eligible children and students registered in a Francophone education program offered by Francophone Regional authorities, to assist children and students in developing the French language proficiency that will allow them to fully integrate socially, academically, culturally and at the community level as Francophones and in Canadian society in general.

Alberta Education’s Seuils repères pour la francisation, de la prématernelle à la 12e année (ECS to Grade 12 Francisation benchmarks) and other supports found in the digital resource La francisation: l’affaire de tout le monde have been developed in collaboration with Francophone Regional authorities to guide Francisation programming and support early learning educators and teachers in assessing and reporting progress of Francophone students with Francisation needs.

Refer to the Funding Manual for School Authorities for information on Francisation coding and funding.

For more information, see Francisation on the Alberta Education website or contact French Education Services.

Curriculum Implementation, Kindergarten to Grade 12

Provincial implementation dates for new programs of study are not yet determined. Dates will be determined in consultation with education partners based on readiness and supports for implementation. For more information, see Curriculum Development on the Alberta Education website.

Learning and Teaching Resources

School Act, Section 39(1)

Pursuant to section 39(1) of the School Act, the Minister may authorize instructional materials for use in schools.

For more information, see the Resources and Services section.
First Nations, Métis and Inuit Education

Alberta Education supports First Nations, Métis and Inuit student success with a number of key strategies, including establishing collaborative partnerships with First Nations and Métis communities; supporting school authorities to build relationships and engage with First Nations, Métis and Inuit parents and families; developing culturally relevant learning resources and program supports; increasing the number of First Nations, Métis and Inuit professionals in the education workforce; and providing professional learning in First Nations, Métis and Inuit education to ensure that all students, teachers and school leaders learn about First Nations, Métis and Inuit perspectives and experiences, treaties and the history and legacy of residential schools. The First Nations, Métis and Inuit Education Policy Framework provides a basis for the implementation of student-focused strategies that increase all Albertans’ understanding of First Nations, Métis and Inuit cultures, peoples and histories. Information about First Nations, Métis and Inuit education, the First Nations, Métis and Inuit collaborative framework model, partnerships with First Nations and Métis communities and other initiatives and resources is available on the Alberta Education website. For additional information, contact the First Nations, Métis and Inuit Education Directorate.

Alberta Education collaborates with education partners, including First Nations, Métis and Inuit Elders, Knowledge Keepers, teachers and representatives from stakeholder organizations to advance reconciliation and honour the government’s commitment to the Truth and Reconciliation Commission. Alberta is committed to supporting the advancement of Education for Reconciliation through the inclusion of First Nations, Métis and Inuit perspectives and experiences, in historical and contemporary contexts, throughout Alberta’s Kindergarten to Grade 12 (K–12) curriculum. Schools are encouraged to use learning and teaching resources that ensure Alberta students and teachers are knowledgeable, respectful and have understanding of the rich diversity of First Nations, Métis and Inuit experiences and perspectives, cultures and contributions in historical and contemporary contexts, including residential schools and their legacy, and treaties and agreements.

Alberta Education worked in partnership with First Nations, Métis and Inuit educators and Elders to develop the Aboriginal Studies 10–20–30 Program of Studies and published resources such as Walking Together: First Nations, Métis and Inuit Perspectives in Curriculum, Guiding Voices: A Curriculum Development Tool for Inclusion of First Nation, Métis and Inuit Perspectives Throughout Curriculum and Our Words, Our Ways to assist teachers and schools in deepening their understandings of First Nations, Métis and Inuit ways of knowing and perspectives and in improving education outcomes for First Nations, Métis and Inuit students. For more information, visit Education for Reconciliation.

Alberta Education works closely with First Nations, Métis and Inuit Elders, Knowledge Keepers, language holders and educators to enhance curriculum and support K–12 Indigenous language and culture programs. School authorities intending to offer Indigenous language and culture programs may choose from Alberta Education programs of study, including K–12 Blackfoot or Cree language and culture programs, or they may use locally developed courses such as Dene, Nakota/Nakoda or Tsuut’ina.

School authorities are required to include an Aboriginal self-identity question on student registration forms. The required wording for this question is listed in Aboriginal Student Self-identification Information for School Authorities. This document also provides advice about how schools should submit this information to Alberta Education. The data obtained under this initiative allows the ministry to monitor and report on education outcomes, such as achievement levels for First Nations, Métis and Inuit students, and to allocate differential First Nations, Métis and Inuit funding to school authorities.

Closing systemic gaps in First Nations, Métis and Inuit education is a priority for the province. First Nations, Métis and Inuit students will be supported by an education system that meets their programming and learning needs. Students will be engaged in relevant and meaningful learning experiences from Kindergarten to Grade 12.
Differential funding, based on the number of self-identified First Nations, Métis and Inuit students, is provided to assist school authorities in meeting local needs. For further information on funding for First Nations, Métis and Inuit students, see the Funding Manual for School Authorities.

**Adult Programming in the K–12 Education System**

Boards are required to concentrate their educational programming on students who are six years of age or older and younger than 19 years of age, as of September 1. Any and all adult programs offered by a board are subject to the following conditions:

- No public, post-secondary institutions offer similar programs within the board’s jurisdiction.
- No courses, programs or vocational training for adults are offered to students residing outside the province of Alberta.
- All adult programs are offered on a cost-recovery basis using full-cost accounting.
- Any adult programs are delivered through separate organizational units that include the maintenance of separate records and accountability information.
- All records and accountability information are available on demand for inspection by Alberta Education.
- Any adult vocational training is licensed through the Private Vocational Training Act.
- No board under the School Act may use the term “college” in connection with its educational or other activities.
- No funding provided to support ECS to Grade 12 programs is diverted to support any courses, programs or vocational training for adults.

The following definitions apply to the requirements for adult programming:

- “Adult” means an individual who on September 1 of the current school year is 19 years of age or older.
- “Adult program” means a set of courses offered to adults that may lead to a post-secondary credential such as, but not limited to, a diploma or certificate.
- “Adult vocational training” means a program of instruction provided to adults in a vocation.
- “Vocation” means a particular occupation, business, profession or calling.
- “Jurisdiction” means the geographical area in the province where education services are delivered by, and resident students are governed by, an operating school board.
- “Separate organizational unit” means an entity for program delivery for which there is a separate program code through which all expenses and revenues for the program are tracked.
- “Full-cost accounting” means a model that provides details on all the costs associated with producing a product or service.
Early Childhood Services

School Act, Section 30
Early Childhood Services Regulation, AR 31/2002

Early Childhood Services (ECS) refers to programming offered by school authorities prior to compulsory schooling that meets the diverse needs of young children and their families. Kindergarten is part of the ECS continuum of programs and refers specifically to the education program for children in the year prior to Grade 1.

In ECS programs, young children participate as active learners within developmentally appropriate learning experiences and develop knowledge, skills and attitudes that lay the foundation for subsequent learning.

ECS programs may be offered in accordance with section 30 of the School Act. As per the Funding Manual for School Authorities (Section 1.1), an approved ECS operator must be prepared to accept and organize programming for all funded children for whom programming is requested, including children with special needs.

Kindergarten

Kindergarten, as part of ECS programming, is intended for children in the year prior to entry into Grade 1 and shall be planned and implemented to help children achieve the learner expectations outlined in the Kindergarten Program Statement, the Programme d’éducation pour la maternelle – Français langue première or the Programme d’éducation pour la maternelle – Immersion.

The guiding principles within the Kindergarten Program Statement (English and French versions) are the basis of all ECS programs. Additionally, these program statements describe the learning that is foundational for future learning and development.

Access to Minimum Hours of Instruction: Early Childhood Services

As per the Funding Manual for School Authorities, ECS operators shall provide access to a minimum of 475 hours of instruction for each child during a school year.

For individual children, modification to these hours based on the child’s developmental level and educational needs is possible and should be recorded in the child’s individualized program plan.

Definition of Instruction: Early Childhood Services

Instruction is the process in which Alberta certificated teachers take responsibility for ensuring that learning activities for children are directed toward achieving the outcomes of approved programs of study and/or individualized program plans through

- face-to-face interaction with children for the purpose of teaching and assessing children’s achievement of outcomes, and/or
- interaction with children who are engaged in classroom learning in a Kindergarten, preschool, playschool, daycare or child-care setting, and/or family-oriented programming sessions

Instructional Time: Early Childhood Services

Instructional time includes time scheduled for the purposes of instruction and other activities for children where direct child–teacher interaction and supervision are maintained.
A school may use a maximum of 35 hours of instructional time for activities such as

- visits to the child’s home
- staggered entry
- small group days
- demonstration of child learning in child–parent–teacher conferences (child must be in attendance)

that promote the transition of children from home to school and encourage communication and relationship building.

Instructional time does not include

- teacher convention days
- professional development days
- teacher planning days
- staff meetings
- statutory and school authority–declared holidays
- lunch breaks
- recesses
- time taken for the registration of children

Program Option for Remote Areas

A child who is eligible for ECS and who lives in a remote area that has no ECS program within a reasonable transportation distance may be served by an ECS home program. The ECS home program must be planned, delivered and evaluated by an Alberta certificated teacher, and must be composed of at least 22 visits to the home of one and a half hours or longer per visit.

For additional information, see the Funding Manual for School Authorities.

For individual children with disabilities who live in a remote area, the ECS operator should contact School Accreditation and Standards to discuss program options.

Grade 1 to Grade 9

Access to Minimum Hours of Instruction: Grade 1 to Grade 9

School Act, Section 39(1)(c)

To ensure equitable access for Grade 1 to Grade 9 students, a minimum number of instructional hours is specified. The organization of schools at these grade levels is the responsibility of the school authority.

In accordance with section 39(1)(c) of the School Act and as per the Funding Manual for School Authorities, and to allow for a balanced program that leads to the student learning outcomes outlined in the Ministerial Order on Student Learning, schools are required to ensure that Grade 1 to Grade 9 students have access to a minimum of 950 hours of instruction per year in each grade.

Note: For individual Grade 1 students, alternative minimum times are permissible to ensure a smooth transition from ECS.

These visits support the transition from home to school, including meeting the parents/guardians and providing orientation about the program or follow-up on the child’s progress. The time dedicated to these visits to the child’s home, of 30 to 60 minutes in duration, must be cumulative and contribute to the total number of hours of instruction.
Definition of Instruction: Grade 1 to Grade 9

Instruction is the process in which Alberta certificated teachers take responsibility for ensuring that learning activities for students are directed toward achieving the outcomes of approved programs of study and/or individualized program plans through

- interaction with students, either face-to-face or through technology, for the purpose of teaching and assessing student achievement of outcomes, and/or
- interaction with students who are engaged in classroom learning, independent study, online education and/or distance education, and/or
- supervision of student workplace learning

Instructional Time: Grade 1 to Grade 9

Instructional time includes time scheduled for purposes of instruction, examinations/testing and other student activities where direct student–teacher interaction and supervision are maintained.

Instructional time does not include

- teacher convention days
- professional development days
- parent–teacher interview days
- teacher planning days
- staff meetings
- statutory and school authority–declared holidays
- lunch breaks
- breaks between classes
- recesses
- time taken for the registration of students
- extracurricular activities

Organization of Instructional Time

The following requirements and considerations apply to the organization of instructional time:

- In accordance with section 39(1)(c) of the School Act and as per the Funding Manual for School Authorities, all students must be provided access to a minimum number of hours of instruction. See Access to Minimum Hours of Instruction: Early Childhood Services and Access to Minimum Hours of Instruction: Grade 1 to Grade 9 in this section.
- Subject to the above requirement, decisions on the organization and scheduling of instructional time are a school authority matter and should be flexible enough on a daily, weekly and yearly basis to meet the learning needs of students.
- Organization for instruction may be based on an integrated programming model in which the outcomes from two or more subject areas are addressed within a common time block.
- All students should be provided sufficient opportunity to achieve the outcomes outlined in the programs of study. To assist schools in planning, recommendations regarding the apportioning of instructional time for required and optional subjects are provided in the subsections that follow.
Information and Communication Technology

The Information and Communication Technology (ICT) Program of Studies identifies the technology outcomes that students should achieve by the end of grades 3, 6, 9 and 12 to ensure they are prepared for the workplace, further studies and lifelong learning. Proficiency with technology has become an essential skill in almost every area of human endeavour. Students need to have these basic skills along with the skills found in language arts, mathematics, science and social studies. Although the technology outcomes form a program of studies, they are not intended to be taught as a stand-alone course, but rather within the context of other subject areas.

Daily Physical Activity (Grade 1 to Grade 9)

The goal of daily physical activity (DPA) is to increase students’ physical activity levels. DPA is based on the belief that healthy students are better able to learn and that school communities provide supportive environments for students to develop positive habits needed for a healthy, active lifestyle. Daily Physical Activity: A Handbook for Grades 1–9 Schools supports the implementation of DPA. For more information, see the Daily Physical Activity Policy.

Schools have the responsibility of creating and nurturing a learning environment for students that supports the development of healthy lifestyles and a lifelong habit of daily physical activity.

School authorities are to monitor the implementation of DPA to ensure that all students are active for a minimum of 30 minutes daily. Exemptions from DPA may be granted by the principal under the following conditions:

- religious beliefs—upon written statement from the parent to the principal
- medical reasons—certification to principal by a medical practitioner indicating activities in which the student is not able to participate

Daily physical activities should vary in form and intensity and take into account each student’s ability. Teachers should consider resources available within the school and the larger community to allow for student choice.

School authorities have the flexibility to use instructional and/or non-instructional hours to implement DPA.

- Physical education classes are an appropriate strategy to meet the DPA requirement.
- DPA should be offered in as large a block of time as possible but can be offered in time segments adding up to the minimum 30 minutes per day (e.g., two 15-minute blocks of time for a total of 30 minutes).
- DPA can be incorporated throughout the day and integrated into other subject areas.

Safety Guidelines for Physical Activity in Alberta Schools has been developed to assist school authorities in their formulation of site-specific safety guidelines for physical activity in Alberta schools. Implementation of safety guidelines should in all cases be preceded by a close review of these guidelines and appropriate modification on the part of each school authority in order to meet the specific requirements and circumstances of their respective school programs.
English as a Second Language

Students who are English language learners may require English as a second language (ESL) program planning and instructional supports to achieve grade-level expectations and reach their full potential. For information on coding and funding for students who are English language learners, refer to the Funding Manual for School Authorities.

Kindergarten to Grade 9 schools with students who are English language learners should refer to the English as a Second Language Kindergarten to Grade 9 Guide to Implementation and Working with Young Children Who Are Learning English as a New Language.

The Alberta K–12 ESL Proficiency Benchmarks, located on the Supporting English Language Learners web page, have been developed to guide ESL programming and to support teachers in assessing and reporting the progress of English language learners.

For more information, see English as a Second Language on the Alberta Education website or contact the Early Years Curriculum Branch or Middle Years Curriculum Branch.

Elementary Program

In planning for instruction in the elementary grades, the following percentage of time allocations for the school year are recommended for required and optional subject areas. Individual students may require varying times to meet the learning outcomes in each subject area.

<table>
<thead>
<tr>
<th>Subject Areas</th>

1 French language arts is taught in alternative French language programs (including French immersion).
2 Français is taught in Francophone schools.
3 The recommended time is 10% for schools that implement provincial programs of study for French as a second language, First Nations, Métis and Inuit language and culture programs or international language and culture programs. 

Note: Information and Communication Technology (ICT) learning outcomes are infused within core curricula in language arts, mathematics, science and social studies at all grade levels.

**Elementary Program Optional Subjects**

*School Act*, Section 60(2)(a)

At the elementary level, programming may include one or more optional subjects. Optional subjects are those parts of the elementary school program that are based on outcomes other than those outlined for core subjects.

Optional subjects may be developed at the local level as locally developed courses. The following are optional subjects for which learning outcomes have been developed at the provincial level:

- Career and Technology Foundations (CTF)
- Drama (English program only)
- First Nations, Métis and Inuit languages programs (see the chart in the *Language Programs/Course Sequences/Courses* section)
- French as a second language (for more information, see the *Language Programs/Course Sequences/Courses* section)
- International languages programs (see the chart in the *Language Programs/Course Sequences/Courses* section)
Junior High Program

The primary consideration that schools need to take into account when organizing for instruction is to provide their students with an opportunity to meet all of the requirements of a basic education. The junior high school program should be organized within the context of the outcomes included in the Ministerial Order on Student Learning.

A course in junior high school represents a set of specific knowledge, skills and attitudes. Most students can achieve these outcomes in the recommended time; however, it is recognized that some students can acquire the knowledge, skills and attitudes specified in a course of studies in less than the recommended time, while others may require more time.

RECOMMENDED TIME ALLOTMENTS FOR REQUIRED SUBJECT AREAS

<table>

</tr>
</tbody>
</table>

François is taught in Francophone schools.
French language arts is taught in alternative French language programs (including French immersion).
The recommended time allocation is 95 hours for schools that implement provincial programs of study for French as a second language, First Nations, Métis and Inuit language and culture programs or international language and culture programs.
Programs of study for Fine Arts are designed as 75-hour courses at each level.

Note: Information and Communication Technology (ICT) learning outcomes are infused within core curricula in language arts, mathematics, science and social studies at all grade levels.

Recommended Time Allotments for Instruction in a Language Other than English or French

School Act, Section 11

For schools offering instruction in a language other than English or French, the junior high school time recommendations apply for core courses. In addition to English language arts, it is recommended there be a minimum of 150 hours of language arts instruction in the language of study.

Junior High Optional Courses

Schools shall offer two optional courses. Where instruction is offered in a language other than English, only one other optional course is required.

Optional courses help students achieve the outcomes outlined in the Program Foundations section. Optional courses also reinforce learnings in language arts, mathematics, science and social studies, as well as provide learning opportunities in other subject areas.
Sequencing

Students should be encouraged to continue in Grade 8 and Grade 9 with at least one of the optional courses selected in Grade 7.

Optional Courses

The optional courses are categorized as follows:

Career and Technology Foundations (CTF) / Career and Technology Studies (CTS)

Environmental and Outdoor Education

Ethics

- This course may be offered in Grade 7, Grade 8 or Grade 9.

Fine Arts

- Art
- Drama
- Music
  - Choral
  - General
  - Instrumental

First Nations, Métis and Inuit Languages

- Provincial programs for First Nations, Métis and Inuit languages are outlined in the chart in the Language Programs/Course Sequences/Courses section.
- Local language programs may be approved locally developed courses.

French as a Second Language

- For more information, see Language Programs/Course Sequences/Courses.

International Languages

- Provincial programs of study are available for bilingual as well as language and culture programming.
- Provincial programs for international languages available at the junior high school level are outlined in the chart in the Language Programs/Course Sequences/Courses section.
- Local language programs may be approved locally developed courses.

Locally Developed Courses

- For more information, see the Locally Developed Courses section.

Religious Studies

- Religious studies may be offered at the discretion of the local school board under section 50 of the School Act.
Junior High Course Selections

A student’s choice of courses is subject to the approval of the principal, except where a student (aged 16 or over) elects to take online learning or print-based distance education courses. Principals should ensure that students are made aware of programs available to meet their individual educational needs and that parents understand and concur with their children’s course selections.

Planning in Junior High for Senior High School Programs

Students should be provided with assistance in planning their senior high school programs while they are still in junior high school. Certain courses are required for an Alberta High School Diploma or a Certificate of High School Achievement. Some Grade 10 courses are prerequisites for more advanced senior high school courses. When junior high school students are planning their Grade 10 programs, all students and parents should become familiar with the prerequisites to avoid possible difficulties in the later senior high school years.

For example, in mathematics, students need to focus on their strengths and determine what they are likely to do after Grade 12. In Grade 10, students will take either Mathematics 10C or 10-3, with the 10C course leading to either the -1 or -2 course sequence. The -1 course sequence (20-1, 30-1) is designed for students whose post-secondary studies may require the study of calculus. The -2 course sequence (20-2, 30-2) is designed for students whose post-secondary studies do not require the study of calculus. The -3 course sequence (10-3, 20-3, 30-3) is designed for students pursuing apprenticeship programs or for those directly entering into the workforce. For students who meet the criteria, the Knowledge and Employability Mathematics 10-4 and 20-4 courses are also available. Also see Programming for High School Completion and Beyond under Senior High School in the Program Planning section.

When assisting students in planning their programs, junior high school staff should ensure that students discuss their proposed programs with their parents and keep in mind the specific requirements for high school completion.

Career Plans

Schools are encouraged to require students to develop a program and career plan when beginning junior high school. The plan should be updated annually and signed off annually by the parents and the principal.

For more information about career planning, see the ALIS website.
Access to Minimum Hours of Instruction: Grade 10 to Grade 12

School Act, Section 39(1)(c)

In accordance with section 39(1)(c) of the School Act and as per the Funding Manual for School Authorities, all schools, those participating in High School Redesign and those not participating in High School Redesign, must ensure that students have access to a minimum of 1000 hours of instruction per school year.

Access to instruction means

- Alberta certificated teachers are assigned to deliver or supervise the instruction
- the instruction and evaluation of performance are based on the outcomes in an approved program of studies
- there are designated times when teachers are available to students
- students know, prior to enrolling in courses, how and when they will be able to access the instructional expertise of teachers

Definition of Instruction: Grade 10 to Grade 12

Instruction is the process in which Alberta certificated teachers take responsibility for ensuring that learning activities for students are directed toward achieving the outcomes of approved programs of study and/or individualized program plans/instructional support plans through

- interaction with students, either face-to-face or through technology, for the purpose of teaching and assessing student achievement of outcomes, and/or
- interaction with students who are engaged in classroom learning, independent study, online education and/or distance education, and/or
- supervision of student workplace learning

Instructional Time: Grade 10 to Grade 12

Instructional time includes time scheduled for purposes of instruction, examinations/testing and other student activities where direct student–teacher interaction and supervision are maintained.

Instructional time does not include

- teacher convention days
- professional development days
- parent–teacher interview days
- teacher planning days
- staff meetings
- statutory and school authority–declared holidays
- lunch breaks
- breaks between classes
- supervised study halls
- time taken for the registration of students
- extracurricular activities
- graduation/commencement rehearsals and ceremonies
Program Planning

School Organization

School authorities are to develop methods of school organization and instructional delivery that best meet the needs and interests of individual students. An intentional focus on creating student-centred approaches to high school completion is essential to improving student engagement and student achievement. The High School Completion Strategic Framework is designed around core strategies that support this focus, including tracking progress, student engagement, successful transitions, collaborative partnerships and positive connections. These strategies offer a systemic and coordinated approach to addressing the challenges students face in preparing for, entering and completing high school.

For more information on the framework and other resources that support student-centred approaches to success, see Strategic Framework, Foundational Principles and the Ministerial Order on Student Learning on the Alberta Education website.

Student-centred organization, programming and planning enables school authorities and schools to be responsive to the diverse needs and interests of all students and can include whole-school and/or whole-jurisdiction decisions related to:

- assessment and evaluation practices (see Moving Forward with High School Redesign)
- expectations for attendance and re-engagement practices (see Office of Student Attendance and Re-engagement)
- intervention practices and supports for at-risk students (see Supporting High School Completion: A Tool Kit for Success)
- embedded and targeted professional learning opportunities (see Moving Forward with High School Redesign)
- monitoring student, school and school authority data and activities related to early identification of trends and factors that may contribute to student success in high school (see Moving Forward with High School Redesign)

In establishing student-centred organization, programming and planning, schools and school authorities should consider:

- supporting students during various transitions through learning and life
- engaging students in career and personal planning
- providing students with personalized learning opportunities such as dual credit and off-campus education programs, as well as optional courses
- creating opportunities for students to have input into their learning and school environment
- demonstrating connections within and across subjects/disciplines by leveraging learning outcomes from across course sequences or through cross-curricular opportunities
- offering opportunities for flexible pacing that is responsive to diverse learning needs
Schools participating in High School Redesign are exempted from the 25 hours of instruction per high school credit requirement; this allows schools to have increased flexibility in programming for student needs. For more information, see Moving Forward with High School Redesign or email EDC.highschoolcompletion@gov.ab.ca.

Schools not participating in High School Redesign must meet the 25 hours of instruction per high school credit requirement. If a course is delivered in a face-to-face, classroom-based setting, the course must be timetabled for both students and teachers for 25 hours per high school credit. The exceptions to this requirement are given below:

- All 3-credit courses require a minimum of 62.5 hours of instruction for each course.
- Schools can deliver a block of three, 1-credit CTS courses for 62.5 hours; however, schools must ensure that students meet all of the outcomes of each 1-credit course.
- Summer break, evening (6 p.m. or later) and weekend programs for senior high school students may be offered by boards, accredited private schools and other accredited high schools; e.g., private and public colleges. The program requirements noted in the Guide apply to all schools offering senior high school summer, evening and weekend programs for credit, except that, for these programs, instructional time may vary (access to instruction of at least 16 hours per credit must be provided).

For detailed credit enrolment unit (CEU) funding information, see the Funding Manual for School Authorities.

Programming can be provided

- in a classroom setting
- in an online setting
- in an outreach setting
- at a distance

or any combination thereof.

Subject to the approval of the principal, students under age 16 may take online learning or print-based distance education courses. These are offered through a number of school authorities in the province. Students aged 16 or over do not require approval of the principal to take online learning or print-based distance education courses. For more information about online learning or print-based distance education courses, see the Program Delivery Options section under Program Administration and Delivery.

Whatever methods of school organization are adopted, students must have access to instruction that is focused on the outcomes of the courses they have chosen and be evaluated on that basis. Whatever the method(s) of programming, the certificated teacher is responsible for the student-centred planning and implementation of instruction, as well as the assessment of student learning in relation to the outcomes from the Alberta programs of study. The school authority is responsible for ensuring that teachers are meeting the requirements of the Teaching Quality Standard through the Teacher Growth, Supervision and Evaluation Policy.

The following courses must always be offered at 25 hours per credit and there are no exceptions to this regardless of when the course is offered:

- Green Certificate Program courses
- Registered Apprenticeship Program (RAP) courses
- Work Experience 15, 25 and 35
- Workplace Practicum 20-4 and 30-4
PROGRAM PLANNING

Senior High School

Programming for High School Completion and Beyond

Planning to Meet the High School Diploma and Certificate Requirements

Certain courses are mandatory to meet Alberta High School Diploma and Certificate of High School Achievement requirements. Some Grade 10 courses are prerequisites for more advanced senior high school courses. To avoid possible difficulties in later senior high school years, principals should ensure that students planning their Grade 10 programs are familiar with the prerequisites.

For example, a student must successfully complete a Social Studies course at the 30 level (30-1 or 30-2) to qualify for an Alberta High School Diploma. A Grade 9 student wishing to obtain an Alberta High School Diploma should enrol in Social Studies 10-1 or 10-2 to ensure completion of the necessary courses by the end of Grade 12. For more information, see Transfer Points (Recommended) and Course Sequences for Senior High School.

Students with a significant cognitive disability can achieve the Certificate of School Completion. For more information on graduation requirements, credentials and credits, see the Diploma and Certificate Requirements section.

In addition to diploma and certificate requirements, a student’s choice of subjects in senior high school may be governed by requirements adopted by the school authority that has jurisdiction over the student, provided that these requirements do not contravene the provisions in the Guide.

Students eligible under section 10 of the School Act have the opportunity to complete all of their core and optional coursework in French, with the exception of English language arts requirements.

For more information, see Planning in Junior High for Senior High School Programs.

Planning for After High School

To enhance student learning and engagement, senior high school programming and course timetabling should provide students with relevant opportunities to make connections beyond the classroom and in the community, for career exploration, to develop competencies and to transfer learning to other areas of their lives.

School authorities are encouraged to strengthen partnerships with relevant business, community and post-secondary partners to develop high school programming that is articulated with a variety of programs in colleges and technical institutes and that meets diploma or certificate requirements.

For more information, contact the High School Social Studies and Career Pathways Branch.

Scholarships

All students should be made aware of the requirements for the Alexander Rutherford High School Achievement Scholarship.

Students should also be made aware of the Registered Apprenticeship Program (RAP) and Career and Technology Studies (CTS) Scholarships.

For more information on scholarships and bursaries, see the ALIS website.
General Requirements for Admission to Post-secondary Educational Institutions

Possession of an Alberta High School Diploma or Certificate of High School Achievement does not guarantee admission to a post-secondary institution. Students who intend to enter a post-secondary institution should be advised, as early as Grade 10, to check the calendars of these institutions for admission requirements, and they should plan their senior high school programs accordingly. Information about post-secondary institutions can be found on the ALIS website.

For information on planning high school occupational and Career and Technology Studies programs that are articulated with Apprenticeship and Industry Training programs, see Apprenticeship Articulation under Career and Technology Studies in the Courses and Programs section as well as the Diploma and Certificate Requirements section.

Mark Submission

Unless otherwise indicated, marks are to be submitted to Alberta Education in percentages. All marks are to be submitted into PASI.
Introduction

This section provides information primarily about senior high school courses and programs. In several instances, however, references are made to courses and programs for elementary (Kindergarten to Grade 6) and for junior high school (Grade 7 to Grade 9).

Career and Life Management (CALM)

Career and Life Management (CALM) may be taken by senior high school students in their Grade 10, Grade 11 or Grade 12 year. Principals may wish to consider the option of having students take CALM in either their Grade 10 or Grade 12 year, if students plan to take three sciences as well as a Fine Arts or Career and Technology Studies (CTS) course in Grade 11.

Partial Exemption from CALM

Section 50.1 of the School Act requires boards (including charter schools) and private schools to provide parents with notice where courses of study, educational programs or instructional materials, or instruction or exercises, include subject matter that deals primarily and explicitly with religion or human sexuality. Where a parent makes a written request, a student shall be exempt, without academic penalty, from such instruction, course of study, educational program or use of instructional materials. See Notice Under Section 50.1 of the School Act.

Exemption from CALM

Principals can exempt students from CALM when students transfer from out-of-province into Alberta schools in Grade 12. For the purpose of this exemption, a Grade 12 student is defined as one who is expected to graduate in the school year the student transfers into an Alberta school. In this case, the principal exempts the student and submits the exemption into PASI. The exemption should be submitted at the time it is granted. If the student does not graduate, the exemption is not removed automatically. It is at the principal’s discretion whether to remove the exemption or allow it to remain.

For more information, see Grade 12 Exemptions for Transfer-in Students, Mature Students or the Career and Life Management Program of Studies.

Students can also be exempted completely from CALM because of religious beliefs. In this case, parents must write to the Minister of Education to request the exemption. It is essential to the processing of the request to include the following information about the student in the letter to the Minister of Education:

- complete surname and given names
- date of birth
- school currently attending
- Alberta Student Number

If the Minister approves the exemption based on religious beliefs, Field Services will write a letter to the parents on the Minister’s behalf. A copy of this letter is sent to the school principal and Student Records. Upon receipt of this letter, Student Records will submit the exemption into PASI.

For further information, contact Field Services.
Career and Technology Studies (CTS)

Career and Technology Studies (CTS) is a high school program designed around a career pathways model to offer flexible programming.

CTS is organized into five clusters:

- Business, Administration, Finance & Information Technology (BIT)
- Health, Recreation & Human Services (HRH)
- Media, Design & Communication Arts (MDC)
- Natural Resources (NAT)
- Trades, Manufacturing & Transportation (TMT)

A cluster is a grouping of CTS courses that represent occupations and broad industry commonalities. Clusters in CTS are aligned with the National Occupational Classification system and function as an organizing tool.

Some students may successfully complete all the learning outcomes for individual introductory-level (1000 series) CTS courses offered in grades 7 to 9. Upon recommendation of the junior high school principal, a student who successfully completes all of the learning outcomes for an introductory-level (1000 series) CTS course may be granted credits associated with that CTS course by a senior high school principal. Such recommendations should be made on an individual, case-by-case basis. A mark of “P” for pass or a percentage grade may be assigned to the student by the senior high school principal.

Apprenticeship Articulation

Admission into apprenticeship programs may not require a senior high school diploma, though attaining one is often desirable for admission. Articulation agreements have been established with Alberta Apprenticeship and Industry Training for several trades. The programs of study for apprenticeships are available at Career and Technology Studies: Apprenticeship.

Information regarding apprenticeship programs is available at Apprenticeship and Industry Training.

English as a Second Language

Students who are English language learners may require English as a second language (ESL) program planning and instructional supports to achieve grade-level expectations and reach their full potential. For information on coding and funding for students who are English language learners, refer to the Funding Manual for School Authorities.

Senior high schools with students who are English language learners should refer to the ESL Senior High School Program of Studies, the English as a Second Language Senior High School Guide to Implementation and the English as a Second Language Alberta Authorized Resource List, Grades 10–12. School authorities may also offer locally developed courses to address the needs of English language learners.

The Alberta K–12 ESL Proficiency Benchmarks, located on the Supporting English Language Learners web page, have been developed to guide ESL programming and to support teachers in assessing and reporting the progress of English language learners.

For more information, see the English as a Second Language Policy or contact the High School Languages, Arts and Wellness Branch.
Francophone Education

School Act, Section 10

Rooted in the constitutional rights established by section 23 of the Canadian Charter of Rights and Freedoms, Francophone education provides students with programming that fosters personal, intellectual and social development while enabling them to master the French language and to build a sense of belonging to and identification with the Francophone culture, community and language. Thus, the program goal is two-fold: French language proficiency and identity development.

For information on Federal French Language Funding managed by Official Languages in Education Programs (Alberta Education), see Part 4 of the Funding Manual for School Authorities.

Green Certificate Program

The Green Certificate Program is administered by the Government of Alberta (Alberta Agriculture and Forestry). The program is delivered off campus and students may earn credits for successfully completing a Green Certificate Program. Alberta senior high school students 15 years of age or older can register in any one of the specializations available. Each specialization can be studied at three levels of increasing knowledge and proficiency. Courses in these specializations are listed in Provincially Authorized Senior High School Courses and Course Codes on the Alberta Education website. Additional information on the Green Certificate is available from Alberta Agriculture and Forestry.

International Baccalaureate and Advanced Placement

Schools can offer programming for students in addition to the 10–20–30 course sequences through International Baccalaureate (IB) and Advanced Placement (AP) courses. Schools should inform students of the acceptability of IB and AP courses for credit and/or advanced placement by post-secondary institutions. Schools also should inform students that these programs do not replace the diploma requirements outlined in the Diploma and Certificate Requirements section.

School authorities offering IB or AP courses as locally developed courses must receive authorization from Alberta Education and approval by board motion.

For more information on locally developed courses, see the Locally Developed Courses section.

Further information may also be obtained on the International Baccalaureate Organization or Advanced Placement websites.

Knowledge and Employability Courses

Knowledge and Employability (K&E) courses are designed for students in grades 8 to 12 who demonstrate reading, writing, mathematical and/or other levels of achievement two to three grade levels below their age-appropriate grade. School authorities may offer Knowledge and Employability courses to provide students with opportunities to experience success and become well prepared for employment, further studies, citizenship and lifelong learning.
Students may combine K&E courses with other junior–senior high school courses or transition in and out of K&E courses throughout grades 8 to 12.

K&E courses replace the former Integrated Occupational Program (IOP), which was phased out in 2006. Further information about the former IOP and its related Certificate of Achievement can be found in Appendix 3.

Further information about K&E programming may be found in the Knowledge and Employability Courses Handbook, Grades 8–12.

Junior High Knowledge and Employability Courses

Junior high K&E courses for grades 8 and 9 include four academic courses (five for the Francophone program) and nine occupational areas.

**K&E academic courses** comprise

- K&E English Language Arts
- K&E Français (for the Francophone program)
- K&E Mathematics
- K&E Science
- K&E Social Studies

K&E achievement tests for Grade 9 students reflect the Grade 9 outcomes in the academic courses noted above. All of the K&E achievement tests are administered according to the same schedule as other Grade 9 achievement tests. Grade 9 students who are receiving instruction from a K&E program of studies are expected to write the achievement test for that K&E course. Further information on Knowledge and Employability achievement tests can be found on the Alberta Education website.

The junior high K&E **occupational courses** consist of the following nine occupational areas:

- Art/Design and Communication
- Auto Mechanics
- Business Services
- Construction
- Fabrics
- Foods
- Horticulture
- Human Care
- Workplace Readiness

The K&E occupational courses for junior high school are separated into various units of instruction. The units in each course can be combined in any order to make up the junior high occupational program based on student interest and available facilities and equipment.

Senior High Knowledge and Employability Courses

Students choosing senior high Knowledge and Employability (K&E) courses typically wish to enhance their academic and occupational competencies and transition into employment and/or continuing education and training opportunities. All K&E courses are designated 5-credit courses and are identified with the -4 suffix.

Students taking K&E courses may qualify for a Certificate of High School Achievement or they may continue their studies to qualify for an Alberta High School Diploma. To qualify for a Certificate of High School Achievement, students must successfully complete a minimum of **one academic** K&E course.
Senior high K&E academic courses comprise

- K&E English Language Arts 10-4, 20-4, 30-4
- K&E Français 10-4, 20-4, 30-4 (for the Francophone program)
- K&E Mathematics 10-4, 20-4
- K&E Science 10-4, 20-4
- K&E Social Studies 10-4, 20-4

The senior high K&E occupational courses are available in the following 12 occupational areas:

- Art/Design and Communication
- Auto Mechanics
- Business Services
- Construction: Building
- Construction: Metal Fabrication
- Cosmetology
- Fabrics
- Foods
- Horticulture
- Human Care
- Natural Resources
- Workplace Readiness

Note: Workplace Readiness 10-4 may be used by students enrolled in Knowledge and Employability courses in lieu of HCS3000 (Workplace Safety Systems) as the prerequisite for the first off-campus education learning experience, with the exception of the Registered Apprenticeship Program (RAP). Any student engaging in RAP must take HCS3000 as the required prerequisite.

All courses are offered for 5 credits; however, courses may be combined to allow for further instruction or off-campus education learning experiences, such as workplace safety courses. Marks and credits must be reported separately for each course that has been combined. For more information, contact the High School Social Studies and Career Pathways Branch. Information is also provided in the Knowledge and Employability Courses Handbook, Grades 8–12 and in the Funding Manual for School Authorities.

**Language Programs/Course Sequences/Courses**

**Alternative French Language Programs (including French Immersion)**

School Act, Sections 11, 21

According to section 11 of the School Act, a board may authorize the use of French or any other language as a language of instruction. Since French is one of Canada’s two official languages, learning French is considered important to enhance opportunities for living and working throughout Canada and the world, as well as to foster a greater understanding between French-speaking and English-speaking Canadians. Alberta Education encourages opportunities for all Alberta students to learn French by making available alternative French language programs (including French immersion) and related services, under section 21 of the School Act.

Boards offering alternative French language programs (including French immersion and French as a second language course sequences) shall implement these programs and courses in a manner consistent with provincial requirements.

For information on Federal French Language Funding managed by Official Languages in Education Programs (Alberta Education), see Part 4 of the Funding Manual for School Authorities.
Hours of Instruction for French Immersion Programs

Research and experience have clearly demonstrated that student proficiency in the French language is strongly correlated to the amount of time during which French is used as the language of instruction. Recognizing that many local factors may determine the time allocated to instruction in the French language, Alberta Education recommends the following ranges as supportive of the objectives of French immersion programming:

<table>
<thead>
<tr>
<th>Kindergarten</th>
<th>100%</th>
</tr>
</thead>
<tbody>
<tr>
<td>Grades 1 – 2</td>
<td>90% – 100%</td>
</tr>
<tr>
<td>Grades 3 – 6</td>
<td>70% – 80%</td>
</tr>
<tr>
<td>Grades 7 – 9</td>
<td>50% – 80%</td>
</tr>
<tr>
<td>Grades 10 – 12</td>
<td>40% – 80%</td>
</tr>
</tbody>
</table>

French as a Second Language Course Sequences

French as a second language (FSL) course sequences provide elementary, junior high and senior high students with the opportunity to learn French. At the elementary and junior high levels, French as a second language courses are often taught for 30 to 40 minutes a day. Senior high school FSL courses are 125 hours and students are awarded 5 credits per successfully completed course.

There are two course sequences available that allow students to begin their study of French: the nine-year French as a second language program of studies and the three-year French as a second language program of studies. The goal of the nine-year (9Y) FSL course sequence is to develop students’ communicative abilities and linguistic, cultural and strategic knowledge in French. Upon completion of the nine-year (9Y) course sequence in high school, students are able to communicate personal messages using a variety of language structures while demonstrating understanding of different Francophone cultures.

In the three-year (3Y) course sequence, students are able to communicate basic ideas in a number of situations and have a general understanding of different Francophone cultures.

For information on Federal French Language Funding managed by Official Languages in Education Programs (Alberta Education), see Part 4 of the Funding Manual for School Authorities.

Elementary and Junior High Schools

The nine-year (9Y) French as a second language program of studies begins in Grade 4 and continues through to Grade 9 and then on to senior high school. This program of studies is a grade-related course sequence and will improve the articulation between elementary and junior high schools. Elementary students entering junior high school should be encouraged to continue their study of French.

Junior high school principals may offer senior high school French 10-3Y as a second language course for credit to junior high school students who have no previous experience in French. For more information on offering French 10-3Y for credit at a junior high school, see Senior High School Courses and Credits for Junior High School Students in the Student Placement and Promotion section.

Senior High Schools

Both nine-year (9Y) and three-year (3Y) FSL course sequences are available. When students enter senior high school, they are to be placed in FSL courses that correspond to their levels of proficiency in FSL. Students who are coming from junior high school with the requisite skills, knowledge and attitudes outlined in the Grade 9 French course are to be registered in French 10-9Y; students with no prior experience in French are to be registered in French 10-3Y.
The following course sequence is still available:

- French 31a
- French 31b
- French 31c

Note that waived prerequisite credits for French 10, French 20 and French 30 are no longer available.

**Languages Other than French or English**

Provincial programs for First Nations, Métis and Inuit languages and international languages available from Kindergarten to Grade 12 are outlined in the following chart:

<p>| FIRST NATIONS, MÉTIS AND INUIT AND INTERNATIONAL LANGUAGES PROVINCIAL PROGRAMS AVAILABLE FROM KINDERGARTEN TO GRADE 12 |

**Note:** Locally developed courses are available for additional international language and culture, international bilingual, and First Nations, Métis and Inuit language and culture programs.

**Bilingual Programs**

*School Act*, Sections 11, 21

According to section 11 of the *School Act*, a board may authorize the use of a language other than English or French as a language of instruction.

Section 21 of the *School Act* allows a board to offer an alternative program that emphasizes a particular language and culture, if the board determines there is sufficient demand.
A bilingual program (partial immersion) means a program in which a language other than French or English is used as a language of instruction, to a maximum of 50% of the instructional day. In offering bilingual (partial immersion) programs, boards

- must ensure that students also have the opportunity to acquire competence in all English language arts skills to meet diploma or certificate requirements
- have the responsibility of deciding the amount of time needed in all subject areas from Kindergarten to Grade 12, provided the instructional time is consistent with the direction in the Guide

School authorities will determine the balance of subjects for bilingual programming. For more information, refer to the School Administrator’s Guide to Implementing Language Programming.

Arabic language arts (Kindergarten to Grade 12), Chinese language arts (Kindergarten to Grade 12), German language arts (Kindergarten to Grade 12), Spanish language arts (Kindergarten to Grade 12) and Ukrainian language arts (Kindergarten to Grade 12) programs of study are available provincially. School authorities wishing to develop a language arts program in a language other than English or French should consult The Common Curriculum Framework for Bilingual Programming in International Languages, Kindergarten to Grade 12: Western Canadian Protocol for Collaboration in Basic Education.

For more information, contact the High School Languages, Arts and Wellness Branch.

**First Nations, Métis and Inuit Language and Culture Courses**

A First Nations, Métis or Inuit language and culture course is one in which a First Nations, Métis or Inuit language is studied as a subject for the purpose of developing communication skills and cultural awareness. Alberta Education currently offers a variety of language and culture course sequences for Blackfoot and Cree, or school authorities may develop or acquire First Nations, Métis and Inuit language and culture courses as locally developed courses.

With the advice and input of First Nations and Métis Elders, community experts and teachers, Alberta Education has also developed a First Nations, Métis and Inuit Language and Culture Twelve-year (K–12) Program Template to assist school authorities in the development of course outlines for local language and culture course series.

Locally developed First Nations, Métis and Inuit language and culture courses must be consistent with The Common Curriculum Framework for Aboriginal Language and Culture Programs, Kindergarten to Grade 12: Western Canadian Protocol for Collaboration in Basic Education.

For more information on locally developed courses, see the Locally Developed Courses section.

**International Language and Culture Courses**

School authorities may choose to offer either a provincial language and culture program of studies or a locally developed language and culture course series. An international language and culture course is one in which an international language is studied as a subject for the purpose of developing communication skills and cultural awareness.

The most current information regarding provincial international language and culture programs of study and support resources is available on the Alberta Education website. For senior high school course sequences, refer to the international languages section of Provincially Authorized Senior High School Courses and Course Codes on the Alberta Education website.

For more information about guidelines and requirements regarding local language programming, contact the High School Languages, Arts and Wellness Branch. Further information on international language and culture courses is also available in the School Administrator’s Guide to Implementing Language Programming.
Locally Developed Language Courses

Locally developed international language courses (e.g., language arts and language and culture courses) must be consistent with the appropriate framework within The Common Curriculum Frameworks for International Languages (see the General folder). Locally developed First Nations, Métis and Inuit language and culture courses must be consistent with The Common Curriculum Framework for Aboriginal Language and Culture Programs, Kindergarten to Grade 12: Western Canadian Protocol for Collaboration in Basic Education.

For information on submitting locally developed courses to Alberta Education, see the Locally Developed Courses section below.

For more information, contact the High School Languages, Arts and Wellness Branch.

Locally Developed Courses

School Act, Sections 39(1), 60(2)

School authorities have the flexibility to develop or acquire locally developed courses (LDCs) to address particular student and/or community needs. These learning opportunities complement, extend and/or expand upon provincial programs of study. LDCs may be used to

- accommodate student needs and interests
- encourage and support innovative learning and teaching practices
- address unique community priorities; e.g., language, culture, labour market needs
- engage students who may be at risk of leaving school early
- promote successful transitions to further education by exposing students to advanced subject matter and learning environments; e.g., Advanced Placement, International Baccalaureate

Locally Developed Religious Studies Courses

Section 50 of the School Act allows boards to prescribe religious instruction to be offered to students. This instruction may be offered through locally developed religious studies courses, provided that such courses develop respect for and promote understanding of individual and minority group differences, and develop an understanding and appreciation of the beliefs, customs, practices, literature and traditions of other major world religions.

Locally developed religious studies courses must include 20% course content addressing a comparative study of other major world religions in addition to the religion of study.

Religious studies courses are required to meet the same course requirements and criteria as other LDCs.

School Authority Procedures

School authorities offering locally developed courses must develop, implement and maintain current written procedures consistent with the Guide.

School authorities must approve LDCs by a resolution or a motion of the board of a school authority or governing body of a private school prior to offering the LDCs.
Funding

Ministry authorization is required in order to obtain funding for senior high school LDCs and for students to receive credits.

Funding for senior high school LDCs is allocated as per the *Funding Manual for School Authorities*.

Ministry Authorization

All LDCs must be approved at the local level according to established procedures. Only senior high school LDCs require ministry authorization and must be submitted to the ministry.

Course Requirements

LDCs must align with the vision of an educated Albertan as an engaged thinker and ethical citizen with an entrepreneurial spirit.

LDCs must adhere to all applicable provincial education standards and guidelines; e.g., *Teaching Quality Standard*, *Recognizing Diversity and Promoting Respect*, *Off-campus Education*, *Guiding Voices: A Curriculum Development Tool for Inclusion of First Nation, Métis and Inuit Perspectives Throughout Curriculum*.

LDCs must also respect all relevant intellectual property law, and the entirety of the LDC content must be legally able to be shared with the public.

Submission Criteria

In addition to the above course requirements, proposals for senior high school LDCs will be evaluated according to the submission criteria outlined below:

Philosophy and Rationale

LDC proposals should provide a clear philosophy and rationale that is informed by student, school, parental and/or community input. Key considerations include

- relevance to the local context, including student and community needs, interests and goals
- whether or not existing LDCs or provincially authorized courses could be used to address the identified need

LDCs should emphasize the extension of learning being offered to students beyond the scope of existing LDCs or provincial programs of study. Proposals must also identify existing LDCs or provincial programs of study that may overlap with and/or are similar to the proposed LDC, and provide a rationale as to why a new LDC is needed.

LDCs shall not replace activities that are a normal part of

- extracurricular or cocurricular programs offered by a school
- community programs offered by individuals or organizations

Learning Outcomes

LDC proposals will include learning outcomes that

- develop the competencies described in the *Ministerial Order on Student Learning*
- describe sequenced expectations for learning
- provide coherence and rigour within the course and/or course series
Implementation

LDC proposals must include an implementation plan that addresses the following:

- clarification of overlap with existing courses and programs of study
- description of the facilities or equipment necessary
- safety components
- sensitive and/or controversial issues
- school authority monitoring and evaluation

Course Sharing

LDCs should be shared with other Alberta school authorities and Alberta Accredited International Schools at no cost upon request.

Authorization Periods

Senior high school LDCs will be authorized to a maximum duration of the four following school years, at which time the LDC will need to be revised and submitted for ministry authorization.

Funding is provided for locally developed senior high school credit courses where instruction is provided and the school authority is authorized to deliver the course.

Submission Dates

Proposals from school authorities developing senior high school LDCs must be submitted to the ministry according to the following dates:

- November 1 for Semester 2 of the same school year
- March 1 for Semester 1 of the following school year

Proposals from school authorities acquiring authorized LDCs must be submitted to the ministry according to the following dates:

- January 1 for Semester 2 of the same school year
- June 30 for Semester 1 of the following school year

Refer to Locally Developed Courses on the Alberta Education website for additional information on LDCs.
When a student requests music credits for private study, in voice or an instrument, a principal may grant 5 credits for each of:

- Choral Music 10 for voice or Instrumental Music 10 for an instrument
- Choral Music 20 for voice or Instrumental Music 20 for an instrument
- Choral Music 30 for voice or Instrumental Music 30 for an instrument

In addition to awarding course credit, principals will recommend a percentage mark earned by the student through private music study.

Principals are to recommend credits and a percentage mark only on the basis of official transcripts issued by Conservatory Canada or the Royal Conservatory of Music. Diplomas, photocopies of diplomas or photocopies of transcripts will not be accepted for evaluation purposes.

To obtain course credit and have the course mark reported, students are to have passed both the practical and theory components listed in the chart for that course level.

Marks submitted by schools to Alberta Education should be calculated for each course as follows:

- Practical Component – 70% of mark submitted
- Other Components (Theory) – 30% of mark submitted

A student may receive a maximum of 5 credits per course (or a maximum of 15 credits total in instrumental music and a maximum of 15 credits in choral music). Students may not receive credit for participation in private music study and Alberta coursework.

Upon entrance to senior high school, credits and percentage marks for work completed in previous years within private music study can be applied to Instrumental or Choral Music 10, 20 and/or 30 following prerequisite course procedures. For example, if a student provides transcripts with both practical and theory exam marks for the grades/levels specified in the chart, they will be awarded with credits as well as percentage marks based upon the 70%/30% calculation.

Students who present a transcript for Grade/Level 8 but not for previous grades will receive waived prerequisite credits for Instrumental Music (or Choral Music) 10 and 20 but will not receive percentage marks for these courses.

The mark determined by the principal for each music course is to be submitted into PASI.

1. All voice courses count as Choral Music 10–20–30 respectively for senior high school credits. All other courses are to be used for Instrumental Music 10–20–30 respectively.
2. Conservatory Canada has two syllabi for voice, piano and guitar that are recognized for senior high school credit—Classical and Contemporary Idioms. The Contemporary Idioms syllabus uses the term “Level” in place of “Grade.”
3. Royal Conservatory of Music strings includes violin, viola, violoncello and double bass only.
4. Royal Conservatory of Music piano syllabus uses the term “Level” in place of “Grade.”
5. Royal Conservatory of Music organ 10-level courses are not available.
6. Royal Conservatory of Music harpsichord 10-level and 20-level courses are not available.
7. Royal Conservatory of Music woodwind includes oboe and bassoon only.
8. Royal Conservatory of Music brass includes horn (French horn), trombone, euphonium and tuba only.

**Note:** Conservatory Canada and the Royal Conservatory of Music periodically review and update their syllabi. This chart reflects the syllabi available at the time of publication of the Guide.
Off-campus education learning experiences include Work Study, Workplace Readiness Grades 8 and 9, Workplace Readiness 10-4, Workplace Practicum 20-4 and 30-4, Work Experience 15, 25 and 35, Career Internship 10, and the Registered Apprenticeship and Green Certificate programs. For information on Workplace Readiness and Workplace Practicum courses, refer to Knowledge and Employability junior high occupational courses and senior high occupational courses.

Students gain practical workplace experience related to life skills and career opportunities and can grow in knowledge, skills and attitudes by participating in off-campus education learning experiences delivered through school-community partnerships. Off-campus education provides opportunities for

- community partnerships, job shadowing, mentorships and work study
- the use of off-campus initiatives to support the achievement of outcomes in provincial programs of study
- the issuing of senior high school credit for workplace learning that is approved by the school and by the employer

School authorities shall be responsible for ensuring that course content, where available, is followed and, where necessary, developed. School authorities shall also be responsible for the instructional practice and evaluation of all off-campus education learning experiences.

For specific procedural and legislative requirements regarding off-campus learning experiences, refer to Off-campus Education or contact the High School Social Studies and Career Pathways Branch.

Reporting Off-campus Education Learning Experience Credits

When schools report off-campus learning experience marks and credits in PASI, they are to report the marks and credits given for CTS courses separately. For example, a student who took work experience for a total of 6 credits, which included the required HCS3000: Workplace Safety Systems course, should be reported as having taken a 1-credit CTS course and a 5-credit Work Experience course.

Work Study/Community Partnerships

Work study and community partnerships are components of other courses and are integrated into the teaching and experiential learning activities under the cooperative supervision of off-campus coordinators and employers.

Work Study

Work study education provides an opportunity for junior and senior high school students to apply the knowledge, skills and attitudes they have acquired in coursework to real-life situations through a school-community partnership arrangement.

Work study includes experiential learning activities undertaken by a student as an integral part of an approved school course or program and under the cooperative supervision of the off-campus coordinator and the employer.

Community Partnerships

Community partnerships are based on the belief that educators can enhance student learning experiences by bringing the community into the school and by placing students out in the community.
Using the expertise, talent and resources of community-based service organizations and agencies, and of business, industry, citizen groups and parents, schools can enrich the educational experiences of students. School authorities are encouraged to develop guidelines regarding community partnerships and business involvement in education. For more information, see Partnerships Between School and Community under General Principles for Effective Programming in the Program Foundations section.

Students may be introduced to the concept of community partnerships through activities such as

- inviting members of the community into the school as guest speakers or to give demonstrations
- involving community members in special events, such as career days or education week
- touring local businesses and industries
- sharing resources, such as films, videos, booklets, pamphlets, equipment or specialized laboratory facilities
- participating in programs, such as work study, job shadowing or mentorships
- participating in community service activities

Community partnerships included in the Knowledge and Employability courses are addressed in the Knowledge and Employability Courses Handbook, Grades 8–12.

## Physical Education

### Exemptions

The aim of the Physical Education Kindergarten to Grade 12 Program is to enable individuals to develop the knowledge, skills and attitudes necessary to lead an active, healthy lifestyle.

To meet the aim of the physical education program, it is recommended that a variety of movement experiences be provided in all dimensions, including alternative environments (e.g., aquatics and outdoor pursuits), dance, games, gymnastics and individual activities. In the following specified circumstances, exemptions may be warranted from one or more dimensions and/or a physical education course:

<table>

<td></td>
</tr>
</tbody>
</table>

When a Grade 10 student is unable to meet the requirement for Physical Education 10 for medical reasons, every effort should be made to meet this requirement during the Grade 11 or Grade 12 year.
Notice of a student’s exemption from Physical Education 10 is to be reported by the principal in PASI at the time the exemption is granted.

Students exempted from the Physical Education 10 requirement are still to acquire the total number of credits required for high school completion.

**Physical Education Taken Through Home Education**

The results for Physical Education 10, taken through a home education program, may be submitted to Alberta Education as a pass or fail, in accordance with section 6 of the *Home Education Regulation*.

**Special Projects Credits**

Special projects credits are designed for work undertaken by students as individuals or in small groups (e.g., two to three students) and should not be used as a means of offering credits for programs or courses offered by organizations external to Alberta Education. Students may enrol in Special Projects 10, 20 or 30. Special Projects 20 and Special Projects 30 do not have prerequisites.

**Purpose**

Special projects serve two major functions:

- Students become involved in the selection, planning and organization of their own programs.
- Students pursue activities in which they have considerable interest or ability but which are not within the scope of the regular curriculum or the programs being offered in the school.

**Requirements**

The requirements for special projects credits are outlined below.

- Special projects credits are designed for work undertaken by students as individuals or in small groups to pursue personalized learning.
- Student participation in a program or course offered by organizations external to Alberta Education is not considered a special project.
- Each project shall be carried out under the supervision of a staff teacher in the school.
- Students are required to submit a clearly planned proposal to the principal for approval, which should include
  - description or outline of the project
  - number of hours of work expected to complete the project
  - method by which the project is to be carried out
  - description of expected learner outcomes
  - evaluation procedures as outlined by a teacher
  - expected completion date
  - name of the supervising teacher

---

1. 4-H projects may qualify as special projects as long as they meet the requirements indicated. A student may not present a 4-H finished project for credit without following the requirements indicated.
• The principal shall retain a copy of each special project proposal.

• The content of the special project need not be related to a specific school subject.

• If a special project is related to a specific school subject, the content of the project shall be distinct from, and in addition to, regular course requirements.

• Projects shall be completed and reported to the principal prior to the conclusion of the semester or full term.

• Where a project takes a student off campus, requirements in the *Off-campus Education Handbook* must be followed.

Students who successfully complete projects are granted 3 credits for 75 hours of work or 5 credits for 125 hours of work in any one semester, or full term, on the approval of the principal.

• Special projects may also be offered for 1, 2 or 4 credits, based on 25 hours of work per credit. Credits will be awarded for successful completion in any one semester, or full term, on approval of the principal.

• School authorities shall develop policies to ensure overall consistency and standardization of procedures governing special projects in their schools. Evaluation and reporting procedures should be included in the policy.

• Special projects credits may be applied toward the Alberta High School Diploma or the Certificate of High School Achievement.

A number of restrictions apply to special projects. Examples where special projects credits cannot be earned include

• student activities that would be considered a normal part of extracurricular or cocurricular activities generally offered by a school (e.g., school team sports, school newspaper, yearbook, field trips)

• in-school work experience

• teacher-developed projects

**Note:** In instances where a student enrolls in more than one special project, credits shall not be approved unless the projects vary substantially from year to year or demonstrate increased levels of proficiency.

**Transfer Points (Recommended) and Course Sequences for Senior High School**

In senior high school, provincially developed programs are designed to accommodate transfer between course sequences at particular points. Special circumstances may warrant student transfer at other points; however, the recommended transfer points are as follows for

• English Language Arts Program
• Français Program
• French Language Arts Program
• French as a Second Language Course Sequences
• Mathematics Program
• Science Program
• Social Studies Program
• Knowledge and Employability Occupational Courses to Career and Technology Studies Courses
English Language Arts (ELA) Program

Français Program
(Francophone Schools)

Note: Students generally take the prerequisite in a course sequence (e.g., English Language Arts 10-1, 20-1, 30-1). This route is designated by solid arrows. However, Alberta Education recognizes that students may transfer between course sequences and these recommended routes are designated by broken arrows.

The school authority shall have a policy that clearly states the criteria to be met by a student who wishes to change program routes.
French Language Arts Program
(French Immersion Schools)

French Language Arts 10-1 → French Language Arts 20-1 → French Language Arts 30-1
French Language Arts 10-2 → French Language Arts 20-2 → French Language Arts 30-2

(Each course is 5 credits.)

French as a Second Language Course Sequences
(Note: All courses in each sequence below are 5 credits.)

For students in senior high school with no previous knowledge of French:

French 10-3Y → French 20-3Y → French 30-3Y

For students studying French with the requisite skills from the Grade 9 nine-year (9Y) course sequence:

French 10-9Y → French 20-9Y → French 30-9Y

For students who possess a superior level of French prior to entering Grade 10:

French 31a → French 31b → French 31c

This course sequence is intended for students who demonstrate language skills that are equivalent or superior to those demonstrated by students who have successfully completed French 30-9Y, and who desire to continue to refine their skills in French. Note that waived prerequisite credits for French 10, French 20 and French 30 are no longer available.

Note: Students generally take the prerequisite in a course sequence (e.g., English Language Arts 10-1, 20-1, 30-1). This route is designated by solid arrows. However, Alberta Education recognizes that students may transfer between course sequences and these recommended routes are designated by broken arrows.

The school authority shall have a policy that clearly states the criteria to be met by a student who wishes to change program routes.
Mathematics Program

(Each course is 5 credits.)

Mathematics 30-1 is a prerequisite or corequisite for Mathematics 31.

Note: Students generally take the prerequisite in a course sequence (e.g., English Language Arts 10-1, 20-1, 30-1). This route is designated by solid arrows. However, Alberta Education recognizes that students may transfer between course sequences and these recommended routes are designated by broken arrows.

The school authority shall have a policy that clearly states the criteria to be met by a student who wishes to change program routes.
Science Program

Students who have achieved a final mark of 50% or greater in any one of Biology 20, Chemistry 20, Physics 20 or Science 20 may enrol in Science 30.

Although the recommended transfer point from Science 24 is to Science 10, in exceptional cases, students may be placed by the principal in 20-level courses, as serves the student’s best interests.

Social Studies Program

Note: Students generally take the prerequisite in a course sequence (e.g., English Language Arts 10-1, 20-1, 30-1). This route is designated by solid arrows. However, Alberta Education recognizes that students may transfer between course sequences and these recommended routes are designated by broken arrows.

The school authority shall have a policy that clearly states the criteria to be met by a student who wishes to change program routes.
Knowledge and Employability Occupational Courses to Career and Technology Studies (CTS) Courses

Transfer from a 10-4 Knowledge and Employability occupational course directly to an intermediate-level (2000 series) Career and Technology Studies course may be considered where there is content relevancy and prerequisite requirements are met.

For more information on Knowledge and Employability, see the Knowledge and Employability Courses section.

Note: Students generally take the prerequisite in a course sequence (e.g., English Language Arts 10-1, 20-1, 30-1). This route is designated by solid arrows. However, Alberta Education recognizes that students may transfer between course sequences and these recommended routes are designated by broken arrows.

The school authority shall have a policy that clearly states the criteria to be met by a student who wishes to change program routes.
Course Sequence Transfer

The provision for course sequence transfer enables students to change course sequences, when necessary, to more appropriate levels of challenge. The recommended transfer routes for each program area are given above under Transfer Points (Recommended) and Course Sequences for Senior High School.

Students may transfer from a lower-level sequence to a higher-level sequence. For example, in senior high school social studies, students may transfer from the 10-2, 20-2, 30-2 sequence to the 10-1, 20-1, 30-1 sequence. For specific course sequences, refer to the transfer sequence charts above. Students who transfer from a 10-1, 20-1, 30-1 sequence to a 10-2, 20-2, 30-2 sequence, or from a 10-2, 20-2, 30-2 sequence to a 10-4, 20-4 sequence, should transfer into the sequence at the next grade level (e.g., Social Studies 10-1 to Social Studies 20-2). Students will not receive waived credits for the lower-level course in the new sequence. For example, students who successfully complete Social Studies 10-1 and then transfer to Social Studies 20-2 will not receive credits for Social Studies 10-2.

When a student transfers into a less challenging academic sequence, the principal may admit the student with less than a 50% standing. See Retroactive Credits in the Awarding Course Credits section.

Students who successfully complete the first course in a sequence, and then transfer to another sequence and are waived to the highest level in that sequence, should receive credits for the middle course in the new sequence upon successful completion of the highest level course. For example, students who successfully complete Social Studies 10-1, then successfully complete Social Studies 30-2 should receive waived credits for Social Studies 20-2 and earned credits for Social Studies 30-2.

Circumstances that should be considered when counselling a student to use the course sequence transfer provision include

- language proficiency; as the student’s language proficiency increases, a more academic sequence may provide a more appropriate level of challenge
- the school’s ability to schedule the appropriate course route
- the student’s ability and motivation

The school authority shall clearly state the criteria to be met by a student who wishes to change program routes.

Course Level Transfer in Diploma Examination Courses

To ensure fairness, consistency and equity, school authorities and schools must have procedures in place to govern the assignment of school-awarded marks for students who transfer their diploma course level registration.

Students taking course instruction in diploma examination courses must be registered for their diploma examinations by the dates specified by Alberta Education. Students who choose to transfer from one level to another within a subject (for example, Social Studies 30-1 to Social Studies 30-2) must do so by the dates specified in the General Information Bulletin: Diploma Examinations Program. These deadlines have been established so that there is sufficient time for school staff to assess the student’s achievement in the course and adequate time for the student to prepare for the examination. Consultation among the school staff, student and, where applicable, parent or guardian is an important component of the course transfer process.

Students who transfer course level registration in diploma examination courses must receive a final school-awarded mark based on the knowledge, skills and attitudes of the course into which they transfer. The process of evaluation of a student’s achievement in this situation would be very similar to that used to evaluate a student’s achievement through the Course Challenge provision. For more information, see the General Information Bulletin: Diploma Examinations Program.
Program Delivery Options

Choice is an important principle in Alberta’s education system. School authorities have the flexibility to use resources and any method of delivery as long as Alberta Education requirements, including outcomes of the programs of study, are met. There are various program options for schools to respond to student learning needs. Alternative, print-based distance education, home education, online learning, outreach and shared responsibility programs are described in this section. For details regarding the funding rates for these various program options, see the Funding Manual for School Authorities.

For all programs other than home education, Alberta certificated teachers are responsible for instruction (as defined in the Definition of Instruction: Grade 1 to Grade 9 section and the Definition of Instruction: Grade 10 to Grade 12 section). The school authority is responsible for ensuring that teachers are meeting the requirements of the Teaching Quality Standard through the Teacher Growth, Supervision and Evaluation Policy.

**Alternative Programs**

School Act, Section 21

Alberta Education supports the establishment of alternative programs, and section 21 of the School Act sets out the rights of boards to provide alternative programs. The School Act defines an alternative program as an education program that

(a) emphasizes a particular language, culture, religion or subject-matter, or
(b) uses a particular teaching philosophy,

but that is not a special education program, a program referred to in section 10 or a program of religious education offered by a separate school board.

Section 21(4) of the School Act states that if a parent enrols a student in an alternative program, the board may charge that parent fees for the purpose of defraying all or a portion of any non-instructional costs that

(a) may be incurred by the board in offering the alternative program, and
(b) are in addition to the costs incurred by the board in providing its regular education program.

For more information and requirements related to alternative programs, see the Alternative Programs Handbook or contact Field Services.

**Print-based Distance Education Programs**

Print-based distance education programs refer to those programs where there is a separation of student and teacher in time and space, and where the majority of instruction and assessment takes place through print-based resources. Alberta certificated teachers employed by a school authority are responsible for instruction.

School authorities may offer their own print-based distance education programs or they may access the services of the Alberta Distance Learning Centre (ADLC). The ADLC is operated by Pembina Hills Regional Division No. 7. Information on programs and services may be obtained directly from the ADLC.
School authorities engaging in distance education programs must ensure that elementary and junior high school students have access to a minimum of 950 hours of instruction and senior high school students have access to a minimum of 1000 hours of instruction (as defined in the Access to Minimum Hours of Instruction: Grade 1 to Grade 9 section and the Access to Minimum Hours of Instruction: Grade 10 to Grade 12 section). In addition, the following apply:

- Alberta certificated teachers are assigned to deliver or supervise the instruction.
- The instruction and evaluation of performance are based on the outcomes in an approved program of studies.
- There are designated times when teachers are available to students.
- Students know, prior to enrolling in courses, how and when they will be able to access the instructional expertise of teachers.

Instructional time includes time scheduled for purposes of instruction, examinations/testing and other student activities where direct student–teacher interaction and supervision are maintained.

School authorities are responsible for maintaining accurate information on student participation (e.g., attendance, assignment submission, course completion). In addition, school authorities are responsible for ensuring the accurate assignment of course and student enrolment codes: a course section identified as “DSL: Distance Learning-print-based” must be created for students enrolling in print-based distance education courses.

Students registered in distance education programs must be given the same opportunity and necessary supports to write provincial assessments as students in a classroom-based setting.

When a school provides the opportunity for a student to access an online learning course from another school authority, the student’s primary school and school authority are responsible for registering the student and for the ongoing monitoring of that student’s overall education program. The school and school authority providing instruction in the online course are responsible for all aspects of instruction, as per the Guide to Education and the Teaching Quality Standard.

School authorities cannot enrol ECS children in distance education programs, and students under age 16 may only be enrolled in distance education programs with the approval of the principal.

**Home Education**

*School Act*, Section 29

*Home Education Regulation*, AR 145/2006

A parent who intends to provide a home education program must develop the program in accordance with the Home Education Regulation. If the parent develops a program that does not follow the Alberta programs of study, the parent must certify that the program is consistent with the student learning outcomes listed in the schedule in the Home Education Regulation. Parents may ask a school board or an accredited private school for assistance in developing a home education plan or program.

Home education is the only option in which parents are responsible for instruction and student learning activities, in accordance with the Home Education Regulation. A parent wishing to home educate their child must notify any school board or an accredited private school of their intent to home educate and request that the board or accredited private school supervise the home education program. Notification of the intent to home educate can be made at any time during a school year.
A board that consents to supervise a home education program is referred to as an associate board. An accredited private school that consents to supervise a home education program is referred to as an associate private school. An associate board or associate private school will review the completed notification form and the education plan developed by the parent and notify the parent within 15 school days.

Associate boards or associate private schools must notify parents of any implications that a home education program may have on a student’s eligibility to be granted high school credits. Associate boards and associate private schools must develop a policy for a home education student’s participation in school and extracurricular activities.

Teachers assigned to home education facilitate student learning by offering assistance and advice to the parent. Teachers are required to conduct at least two evaluations in each school year, including a review of the student portfolio with the parent at least twice a year. Associate boards and associate private schools are required to provide a written report of the student’s progress. This written report is included in the student’s record. Home education students must be offered the opportunity to participate in provincial assessments.

Funding is provided to associate boards or associate private schools supervising home education programs. Boards and accredited private schools must offer not less than 50% of the home education program funding received to parents who are providing a home education program to students in accordance with the Home Education Regulation. Standards for Home Education Reimbursement provides school authorities with information to meet their accountabilities regarding the use of home education funding.

An associate board or associate private school supervising a home education program must enter the student’s resident board into PASI for funding consideration. Refer to the Funding Manual for School Authorities for information on home education funding.

If an associate board or associate private school terminates a home education program, it is responsible for the student’s education program for the remainder of the school year and must ensure that the student has access to an education program for the remainder of the year.

For more information, see the Home Education Handbook or contact Field Services.

**Online Learning Programs**

An online learning program is a structured learning environment in which students engage with their teachers in one or more online courses. Alberta certificated teachers employed by a school authority are responsible for instruction.

An online course is one in which the majority of instruction and assessment takes place over the Internet, using a learning management system (LMS). The LMS provides students with access to course content, teachers and other students. Students may access the LMS from multiple settings (in school and/or out of school buildings) and engage in both synchronous and asynchronous instruction.

School authorities engaging in online learning programs must ensure that elementary and junior high school students have access to a minimum of 950 hours of instruction and senior high school students have access to a minimum of 1000 hours of instruction (as defined in the Access to Minimum Hours of Instruction: Grade 1 to Grade 9 section and the Access to Minimum Hours of Instruction: Grade 10 to Grade 12 section). In addition, the following apply:

- Alberta certificated teachers are assigned to deliver or supervise the instruction.
- The instruction and evaluation of performance are based on the outcomes in an approved program of studies.
• There are designated times when teachers are available to students.

• Students know, prior to enrolling in courses, how and when they will be able to access the instructional expertise of teachers.

Instructional time includes time scheduled for purposes of instruction, examinations/testing and other student activities where direct student–teacher interaction and supervision are maintained.

School authorities are responsible for maintaining accurate information on student participation (e.g., attendance, assignment submission, course completion). In addition, school authorities are responsible for ensuring the accurate assignment of course and student enrolment codes:

• A course section identified as “VTL: Distance Learning-Online” must be created for students enrolling in online courses.

• Students must be identified, through appropriate coding, as being enrolled in an online learning program when greater than 50 percent of their overall school program is deemed to be online.

Students registered in online learning programs must be given the same opportunity and necessary supports to write provincial assessments as students in a classroom-based setting.

When a school provides the opportunity for a student to access an online learning course from another school authority, the student’s primary school and school authority are responsible for registering the student and for the ongoing monitoring of that student’s overall education program. The school and school authority providing instruction in the online course are responsible for all aspects of instruction, as per the Guide to Education and the Teaching Quality Standard.

School authorities cannot enrol ECS children in online learning programs, and students under age 16 may only be enrolled in online learning programs with the approval of the principal.

Outreach Programs

An outreach program provides an educational alternative for students who, due to individual circumstances, find that the traditional school setting does not meet their needs. The program allows students to access resources that improve their ability to succeed academically and socially. A flexible approach is taken to teaching and learning in recognition of individual student needs. Outreach programs serve students of junior and senior high school age.

Outreach programs must be offered in a stand-alone facility, separate from a building already in use as a school. The facility must meet Alberta building, health and safety standards for school buildings. The school board must ensure that its liability insurance extends to the stand-alone facility for the outreach program.

A school board motion must grant approval to the school to offer the program. To support implementation, the school board must develop a written policy addressing, at a minimum, student eligibility, attendance requirements and performance expectations.

To support student success, the outreach program must provide students with access to educational services in addition to distance education courses and materials. Examples of such services are personal and career counselling, conflict resolution, anger management training, gifted and talented programs, time management training and study skills.
School authorities choosing to run their outreach program as a school will be required to meet legislative and other requirements associated with operating a school (e.g., designating a school principal, establishing a school council, annually preparing a school three-year education plan and a school annual results report, and following the School Act and regulations).

Applications for approval to begin new outreach programs must be submitted by March 31 to the appropriate Field Services Director, using the Application to Operate a New Outreach Program provided in the Outreach Programs Handbook. Alberta Education may not approve all applications.

For more information, see the Outreach Programs Handbook or contact Field Services.

**Shared Responsibility Programs**

*School Act*, Section 29  
*Home Education Regulation*, AR 145/2006

A parent of a student providing a home education program to the student and an Alberta funded school authority may agree to share responsibility for the student’s education. Two conditions must be met for this to occur:

1. The school authority portion of the agreement must consist of a program where an Alberta certificated teacher, employed by a school board or an accredited-funded private school, is responsible for planning, resource selection, instruction, assessment and evaluation of student progress in selected courses that follow the Alberta programs of study or locally developed courses. The school authority must be responsible for at least a minimum of
   - 50% of the student’s program in grades 1–9
   - 20% of the student’s program in grades 10–12

2. The home education portion of the agreement must consist of a program provided by a parent under the authority of the *School Act* and the *Home Education Regulation*. The parent is responsible for developing, administering and managing the home education program. The school authority is responsible for supervising the home education program.

For the 2018–2019 school year, school authorities with students in a shared responsibility program will be required to enter the school program percentage as part of enrolment information submitted into PASI.

An associate board or associate private school supervising the home education portion of the shared responsibility program **must** enter the authority code of the student’s resident board into PASI for funding consideration.

School boards or accredited-funded private schools are not required to offer shared responsibility programs.

For more information on home education funding and submission deadlines, see the Funding Manual for School Authorities.

For more information on the requirements for the home education portion of the program, see the Home Education section above.

For more information on shared responsibility programs, contact Field Services.
Schools of Choice

Alberta Accredited International Schools

An Alberta Accredited International School (AAIS) is an autonomous school that provides the Alberta curriculum to children and students outside of Alberta. The AAIS program works to

- increase international recognition of Alberta’s high-quality education
- enable international schools to provide the Alberta curriculum and credentials to their local students
- create sustainable and efficient opportunities for international schools to receive and maintain Alberta accreditation
- collaborate with government ministries and non-governmental organizations to link accredited schools, their teachers, students and community leaders with opportunities to study and work in Alberta

Alberta Accredited International Schools must meet the accreditation requirements, as outlined in an agreement signed with Alberta Education. In addition, these schools must hire teachers that meet the Alberta certification requirements to teach the Alberta programs of study and support the goals of the Ministerial Order on Student Learning. The Alberta Principal/Alberta Program Administrator must ensure that the school follows policies of Alberta Education, as outlined in the Guide to Education. Students must meet the requirements for graduation in order to obtain a credential from the Province of Alberta.

Alberta Accredited International Schools may charge tuition and other fees as required in order to fund operations, as they do not receive funding from the Province of Alberta.

For more information on the AAIS program, visit the Alberta Education website or email EDC.AAIS@gov.ab.ca.

Charter Schools

School Act, Sections 31–38
Charter Schools Regulation, AR 212/2002

A charter school is an autonomous public school that provides innovative or enhanced education programs that improve student learning. Charter schools have characteristics that set them apart from other public schools in meeting the needs of a particular group of students through a specific program or teaching/learning style, approach or pedagogy while following provincial programs of study. The proposed method of educational delivery that improves student learning must be supported by research.

The Minister may issue a charter to establish a charter school in accordance with the regulations if the Minister is of the opinion that the program to be offered by the charter school is not already being offered by the board of the school division in which the charter school is located.

A person or group interested in a charter school must first approach the local school board to determine if the board will establish an alternative program.

For information regarding the requirements for special education programming in charter schools, see Accommodating Students with Exceptional Needs in Charter Schools.

For more information on charter schools, see the Charter Schools Handbook or contact Field Services.
Heritage Language Schools

A heritage language school is a type of accredited private school that offers approved or authorized language and culture courses outside regular school hours to students who receive their basic education program at another school authority. While a heritage language school may also offer community language instruction, only the approved/authorized language and culture course series falls within the purview of Alberta Education.

As with other accredited private schools, heritage language schools must meet the requirements of section 28(2) of the **School Act** and the requirements in the **Private Schools Regulation**. They also may employ a competent individual to teach a language or culture under the supervision of a teacher who holds a certificate of qualification as a teacher issued under the **School Act** (section 92(2)).

A heritage language school must

- offer either
  - an authorized provincial language and culture program of studies or
  - an approved locally developed language and culture course, and

- ensure that the programs or courses offered and all instructional materials promote understanding and respect for others, honour and respect the common values and beliefs of Albertans, and reflect the diverse nature and heritage of society in Alberta (section 3 of the **School Act**)

A heritage language school may be funded or non-funded. If funded, a person who holds an Alberta teaching certificate must be designated as the principal.

Heritage language schools will use PASIprep directly or their local student information system (SIS) that is integrated with PASI to submit information regarding courses completed.

**Private Schools**

**School Act**, Section 28

**Private Schools Regulation**, AR 190/2000

Parents may choose to educate their children in a private school.

A private school provides an educational alternative for parents who wish to have their children taught in accordance with a particular focus. Private schools can be based on religious beliefs, athletics, academics or a particular philosophy of learning.

Private schools may charge tuition and other fees as required. In addition, private schools may select their students and are not required to enrol all students.

Private schools are operated by a society under the **Societies Act** or a company registered under Part 9 of the **Companies Act**. Private schools are governed by the Board of Directors of the society or company.

For information regarding the requirements for special education programming in accredited-funded private schools, see **Requirements for Special Education in Accredited-Funded Private Schools**.

For more information on private schools, see **Private Schools** on the Alberta Education website, or contact the Provincial Coordinator of Private Schools in **School Accreditation and Standards**.
Considerations for Program Delivery

A number of programs, supports and services exist in schools and communities to help children and students become engaged and successful learners. This section highlights the learning commons, learning and technology, guidance and counselling, and collaborative service delivery. Those responsible for the implementation of education programs and the operation of schools must consider a number of matters related to the provision of a welcoming, caring, respectful and safe learning environment for students. Information is given about the duty to report when it is believed that a child is in need of intervention, human sexuality education, the use of human tissue and fluid in educational programming, controversial issues, notice under section 50.1 of the School Act and student organizations and activities.

Learning Commons

The goal of the learning commons is to enable all students to be engaged thinkers and ethical citizens with an entrepreneurial spirit. The concept of a learning commons is a shift in thinking from a library as a physical space that is a repository of books, to an inclusive, flexible, learner-centred, physical and/or virtual space for collaboration, inquiry, imagination and play to expand and deepen learning. A learning commons is an agile and responsive learning and teaching environment available to individuals and groups to use for multiple, often simultaneous, purposes. It supports literacy, numeracy, competency development and student learning outcomes through access to and instruction in the effective use of print and digital resources. The learning commons approach functions best when learning experiences in the school community are coordinated to support student learning outcomes through collaborative planning, teaching and assessing.

The learning commons should

- support the development of competencies in many areas, including the gathering, analysis and evaluation of information
- provide support, space and resources for inquiry, play and imagination
- provide support, resources and opportunities for transferability of learning to support broad exploration and inquiry that leads to deeper learning
- provide and support technology for learning to enable creation, collaboration and communication
- provide student access to and guidance on the use of
  - online public access catalogues (OPAC)
  - online licensed and open access resources
  - quality print and digital learning resources in multiple formats that are reviewed to ensure they address a diverse range of student learning and developmental needs
- focus on quality learning resources in multiple formats and provide exposure to a wide variety of Canadian and international resources (fiction and non-fiction) which reflect multiple perspectives, promote literacy and numeracy, and develop students’ interests and competencies beyond the school setting. These resources should include those that
  - recognize and respect Indigenous knowledge and ways of knowing of the First Nations, Métis and Inuit peoples
  - reflect and support the cultural and linguistic perspectives of Francophone communities
• provide high quality learning resources in English, French and other languages, as applicable, in order to support instruction and self-directed reading

• be flexible enough to provide teacher support in person or via technology, in varied full-time equivalencies or shared among schools/districts

• continue to promote intellectual freedom

**Learning and Technology Policy Framework**

The *Learning and Technology Policy Framework* is a decision-making guide for government and school authorities to support effective, innovative integration of technology into the learning environment. The vision is student-centred and emphasizes the importance of supporting students in using technology to achieve the competencies identified in the *Ministerial Order on Student Learning* (#001/2013).

The policy framework is a roadmap—a set of principles, policy directions, outcomes and actions intended to guide decision makers at all levels, from government to the classroom. Making decisions that align with the common vision will help ensure those decisions complement each other and ensure the greatest benefits for students. The policy framework identifies five interdependent policy directions to achieve the vision: **Student-Centred Learning; Research and Innovation; Professional Learning; Leadership; and Access, Infrastructure and Digital Learning Environments**.

For more information, see the *Learning and Technology Policy Framework* on the Alberta Education website.

**School Guidance and Counselling**

School authorities have the responsibility to meet the needs of all students and enable their success. This is facilitated by the development of a continuum of supports and services. School-based supports, such as school guidance and counselling, address students’ educational, personal, social, emotional and career needs. Each school authority determines its approach based on its learners, resources and community context.

School guidance and counselling involves collaborative partnerships that support learner success. This may involve a school counsellor or other school staff and parents and/or guardians working together with community services and professionals. For more information regarding collaborative practices and partnerships, visit *Alberta’s Approach to Collaboration* on the Alberta Education website.

Through school guidance and counselling and other strategies focused on awareness, communication, prevention and intervention, school communities are able to build welcoming, caring, respectful and safe learning environments that support healthy relationships and facilitate student learning.

**Collaborating to Support Children, Youth and Their Families**

Alberta Education, school authority staff and partners engage in many collaborative practices, embedding the principles of a wraparound approach to support children, youth and families. **Regional Collaborative Service Delivery** (RCSD) is an example of a collaborative approach to ensure that children, youth and families have access to supports they need to be successful both at school and in the community. RCSD is a partnership among school authorities, Alberta Health Services, Community and Social Services, Children’s Services and other community stakeholders. These partners work together on a regional basis to meet the identified needs of children and youth. There are 17 RCSD regions across the province. Supports and services available in a particular region depend on what service priorities have been identified by the regional partners. Examples of other collaborative initiatives include **Success in School: Children and Youth in Care** and the **Alberta Mentoring Partnership**.
A variety of resources to support cross-sector collaboration and partnering have been developed through various cross-ministry initiatives. Some of these include the Working Together Toolkit, Alberta’s Approach to Collaboration and Alberta’s Information Sharing Strategy. For more information, see Collaborating to Support Students on the Alberta Education website.

Duty to Report

The Child, Youth and Family Enhancement Act imposes the duty to report on a person who believes a child is in need of intervention. School personnel have ongoing contact with children and youth and are often the first to notice changes in behaviour or appearance. Research indicates that the confidence of staff to detect indicators of abuse, respond supportively and report to authorities is enhanced with regular communication about warning signs and procedures for reporting. It is important to note the following:

- It is mandatory to report, and permission is not required.
- It is the responsibility of the person who has recognized issues of concern or received reports regarding the child to notify Child and Family Services, the Child Abuse Hotline or the police/RCMP. Notification must come from the person who received the information first hand and not from a third party.
- It is not the role of the school to investigate suspected abuse.
- It is important to be aware of board policies regarding sharing information with the principal.

For more information, see Preventing Child Abuse on the Alberta Education website or contact School and Community Supports.

Human Sexuality Education

Human sexuality education is mandated by the Human Sexuality Education Policy and is taught at several levels in Alberta, including the Grade 4 to Grade 9 Health and Life Skills program and the senior high school Career and Life Management (CALM) course.

Human sexuality education shall be taught within the normal school day and may be offered through different instructional structures. The learning outcomes outlined in current programs (Health and Life Skills and CALM) for human sexuality are prescribed, but they need not be offered exclusively through those courses. Many schools have developed programs through family life or religion classes.

Exemption from Human Sexuality Instruction

The School Act requires boards (including charter schools) and private schools to provide parents with notice where courses of study, educational programs or instructional materials, or instruction or exercises, include subject matter that deals primarily and explicitly with religion or human sexuality. Where a parent makes a written request, a student shall be exempt, without academic penalty, from such instruction, course of study, educational program or use of instructional material.

For more information, see the Human Sexuality Education Policy and Notice Under Section 50.1 of the School Act, or contact the Early Years Curriculum Branch, the Middle Years Curriculum Branch or the High School Languages, Arts and Wellness Branch.
Use of Human Tissue and Fluid in Educational Programs

Alberta Education firmly believes that the safety and well-being of students, teachers and other school staff should be a first consideration in the selection of materials for study. Therefore, all activities involving the extraction and analysis of samples of human fluid or tissue are prohibited in Alberta schools.

For more information, see Health and Safety in the Science Classroom: Kindergarten to Grade 12 on the Alberta Education website.

Controversial Issues

Controversial issues are those topics that are publicly sensitive and upon which there is no consensus of values or beliefs. They include topics on which reasonable people may sincerely disagree. Opportunities to deal with these issues are an integral part of student learning in Alberta.

Studying controversial issues is important in preparing students to participate responsibly in a democratic and pluralistic society. Such study provides opportunities to develop the ability to think clearly, to reason logically, to open-mindedly and respectfully examine different points of view and to make sound judgements.

Teachers, students and others participating in studies or discussions of controversial issues need to exercise sensitivity to ensure that students and others are not ridiculed, embarrassed or intimidated for positions that they hold on controversial issues.

Discussing or studying controversial issues provides opportunities to

- present alternative points of view, subject to the condition that information presented is not restricted by any federal or provincial law
- reflect the maturity, capabilities and educational needs of the students
- meet the requirements of provincially prescribed and approved courses and programs of study and education programs
- reflect the neighbourhood and community in which the school is located, as well as provincial, national and international contexts

Controversial issues that have been anticipated by the teacher, and those that may arise incidentally during instruction, should be used by the teacher to promote critical inquiry and/or to teach thinking skills.

The school plays a supportive role to parents in the areas of values and moral development and shall handle parental decisions in regard to controversial issues with respect and sensitivity.

Notice Under Section 50.1 of the School Act

Section 50.1 of the School Act requires boards (including charter schools) and private schools to provide parents with notice where courses of study, educational programs or instructional materials, or instruction or exercises, include subject matter that deals primarily and explicitly with religion or human sexuality. Where a parent makes a written request, a student shall be exempt, without academic penalty, from such instruction, course of study, educational program or use of instructional material. These requirements do not apply to incidental or indirect references to religion, religious themes or human sexuality.
The notice to parents required under section 50.1 of the School Act does not apply to the establishment of, or student membership or participation in, student-led organizations such as gay-straight alliances as per section 16.1 of the School Act. Section 50.1 applies to circumstances where courses of study, educational programs or instructional materials, or instruction or exercises, include subject matter that deals primarily and explicitly with religion or human sexuality. As peer-support groups, student-led organizations such as gay-straight alliances and other similar types of clubs fall outside of these parameters.

The requirements in this legislation are not intended to disrupt instruction or the discussion of controversial issues in the classroom. Teachers and school administrators should continue to respectfully handle the decisions and perspectives of parents when providing instruction and choosing instructional materials. Section 50.1 of the School Act continues to call on teachers and school administrators to exercise their professional judgement to determine when notice should be provided to parents and to handle complaints or concerns raised by parents.

**Determining When to Provide Notice to Parents**

The Alberta programs of study contain the provincially mandated learning outcomes for students, achieved through the instructional choices made by certificated teachers. In light of the requirements in section 50.1, Alberta Education has done a review of the programs of study to identify those courses that contain outcomes that deal primarily and explicitly with religion or human sexuality. The following courses have been identified as containing outcomes that require notification under section 50.1:

- Career and Life Management (CALM) → human sexuality
- Career and Technology Studies (CTS) → Reproduction & Readiness for Parenting (HCS3050) → human sexuality
- Career and Technology Studies (CTS) → Developing Maturity & Independence (HSS1040) → human sexuality
- Health and Life Skills (Grades 4, 5 and 6) → human sexuality
- Health and Life Skills (Grades 7, 8 and 9) → human sexuality
- Religious Ethics 20 → religion
- Religious Meanings 20 → religion
- World Religions 30 → religion

Notification under section 50.1 may also be required for locally developed courses that contain subject matter that deals primarily and explicitly with religion or human sexuality.
Depending upon the choices teachers make in how outcomes are taught and the instructional materials that will be used, other courses or programs of study may also require notification to parents under section 50.1. When determining whether notification is required, teachers or boards may wish to consider the following:

1. Notification is required where courses of study, educational programs or instructional materials, or instruction or exercises, contain subject matter that deals **primarily and explicitly** with religion or human sexuality.

   - For the course of study, educational program or instructional material, or instruction or exercise, to be considered to deal explicitly with religion or human sexuality, there must be no question that the subject matter is intended to be about religion or human sexuality. A religious interpretation of an otherwise non-religious subject matter would not be considered explicit. For example, the intent of including evolution in the science programs of study is to explore its foundation in scientific theory. Although there may be religious interpretations of the origin of life, the inclusion of evolution is not intended to be explicitly about religion. Similarly, in order to be considered explicitly about “human sexuality,” a course of study, educational program or instructional material, or instruction or exercise, must also address human sexual behaviours. Therefore, outcomes within the science programs of study that deal only with the anatomy and physiology of human reproduction are not explicitly about human sexuality; however, outcomes in CALM that examine aspects of healthy sexuality and responsible sexual behaviour are explicitly about human sexuality.

   - Even if the subject matter deals **explicitly** with religion or human sexuality, the course of study, educational program or instructional material, or instruction or exercises, must also **primarily** deal with religion or human sexuality. For example, even though various outcomes in the social studies programs of study include explicit references to “religion,” the outcomes are primarily about the core concepts of citizenship and identity. Similarly, notification is not required where instructional materials contain subject matter that explicitly deals with religion or human sexuality, unless those instructional materials are also primarily about one of these subjects.

2. Section 50.1 is clear that notification to parents is not required for indirect or incidental references to religion, religious themes or human sexuality in a course of study, educational program or instructional material, or instruction or exercise.

   - Where a reference to religion, religious themes or human sexuality occurs indirectly or in connection to another subject matter in classroom discussions, notification is not required. Therefore, teachers should not avoid topics where these subject matters may arise nor should they feel the need to stop classroom discussion.

   - Similarly, where a course of study, educational program or instructional material, or instruction or exercise, does not already deal primarily and explicitly with religion or human sexuality, references to these subject matters in student projects or presentations would be considered incidental and notification would not be required.

3. Section 50.1 does not apply to student behaviour or interactions that are not related to courses of study, educational programs or instructional materials, or instruction or exercises. Therefore, it does not affect the ability of boards and teachers to address bullying or disciplinary issues, including those related to religion or human sexuality.
How to Provide Notice to Parents

Notification to parents under section 50.1 should be in writing and allow the parent enough time to request that their child be exempted from the course of study, educational program or instructional materials, or instruction or exercises, at issue. Section 50.1 does not require teachers or boards to obtain parental consent before providing the course of study, educational program or instructional materials, or instruction or exercise. Notification procedures must include the following:

1. A notice must be provided to the parent indicating that a particular outcome or component of a course of study, educational program or instructional materials, or instruction or exercises, includes subject matter that deals primarily and explicitly with religion or human sexuality. A sample notice form can be found in Appendix 4.

2. In the circumstance where a student is registering for a specific course of study or educational program that deals primarily and explicitly with religion or human sexuality, notice may be given to the parent on the registration form for said course of study or educational program, identifying that the course of study or educational program, or a portion thereof, is primarily and explicitly about religion or human sexuality. A parent so notified is encouraged to give notice of their request for exemption at the time of registration.

3. A separate board, a board that offers an alternative program that emphasizes a particular religion, or a board that has the teaching of religion or faith-based education programs on its premises may wish to give notice of religious instruction by providing a clear statement on registration forms indicating to parents that they are enrolling their child in a school where religious courses of study, educational programs or instructional materials, or instruction or exercises, are used.

Exclusion from Instruction

Where a parent makes a written request, section 50.1 requires a teacher to exclude a student, without academic penalty, from the course of study, educational program or instructional material that includes subject matter that deals primarily and explicitly with religion or human sexuality. The parent should indicate in the written request whether they want the student to leave the classroom or place where the instruction or exercise is taking place or whether they want the student to remain in the classroom without taking part. A sample exemption form can be found in Appendix 4.

How to Address Concerns or Complaints from Parents

Boards (including charter schools) must ensure that concerns or complaints from parents are addressed in an open, fair, objective and timely manner, and in accordance with their appeal procedures as required by section 123 of the School Act. Private schools should address any concerns or complaints that arise via local school policies and procedures that have been established. All schools and teachers are encouraged to resolve concerns or complaints from parents regarding the requirements in section 50.1 at the local level.

Student Organizations and Activities

As stated in the School Act, every student is entitled to a welcoming, caring, respectful and safe learning environment that respects diversity and fosters a sense of belonging. Under section 20 of the School Act, a principal of a school has a legislated duty to provide this environment.

As per section 16.1 of the School Act, students are entitled to create or join a voluntary student organization or activity that promotes a welcoming, caring, respectful and safe learning environment that respects diversity and fosters a sense of belonging. Gay-straight alliances (GSAs) and queer-straight alliances (QSAs) are examples of such a student organization.
In handling student requests for such an organization or activity, principals must be mindful of the following:

- It is the responsibility of the principal to approve a student organization or activity.
- Permission by a principal for the establishment of the organization or activity must be granted immediately.
- The principal is responsible for ensuring that any notification regarding a student organization or activity is limited to the fact that the organization is being established or is holding an activity. Parental notification around courses of study does not apply to student participation in organizations and activities, including GSAs and QSAs.
- Students continue to have the right to name a student organization a gay-straight alliance (GSA) or a queer-straight alliance (QSA)—these names cannot be prohibited nor their use discouraged.
- Students will need a liaison to support their organization or activity—additional information on the steps for securing a liaison can be found at Setting-up a GSA – Info for Principals.

Principals must ensure that routine school and administrative practices related to student organizations and activities, such as charging and collecting school fees or distributing and collecting field trip consent forms, are done in a manner that respects the privacy and wishes of the individual students participating in a student organization or activity. School authorities should have a designated privacy (FOIP or PIPA) officer to provide advice on these matters and ensure that personal information is handled appropriately.

For more information, contact Alberta Education’s Field Services Sector at SafeCaring@gov.ab.ca.

### Appropriate Use of Copyrighted Materials in Schools

Copyright rules for educators have changed significantly in recent years. Both the Supreme Court of Canada and the Parliament of Canada have identified education as a stated purpose within the fair dealing provision of the Copyright Act. Although educators have new opportunities under the fair dealing provision of the Copyright Act to use copyright-protected materials in their lessons, there are limits as to what can be copied and shared in the classroom. It is, therefore, important that both school principals and teachers understand their responsibilities with respect to copyright.

To assist educators, the Copyright Consortium of the Council of Ministers of Education, Canada (CMEC) has developed the Teachers and Copyright website, an online resource pertaining to the appropriate use of copyright-protected materials in the classroom.

This website features a copyright decision tool that allows educators to quickly determine whether they can use specific materials in their lessons. This site also provides an overview of the Fair Dealing Guidelines and provides a link to Copyright Matters!, a publication that presents key questions and answers for teachers about copyright.

With respect to the playing of live or recorded copyright-protected music during non-instructional hours and the performance of music at a play that is non-curricular in nature, refer to the Copyright Matters! publication for further information.

For more information on copyright and the classroom, see Copyright Awareness for Teachers on the Alberta Education website.
Purpose of Assessment

The primary purpose of assessment is to improve student learning. Assessment information is also used to enhance instruction to students and assures Albertans that the education system is meeting the needs of students and achieving the outcomes of the Ministerial Order on Student Learning.

The assessment of student progress in relation to the outcomes outlined in programs of study is important for the following reasons:

- The information is essential so that teachers can assist in meeting the learning needs of students.
- The information is required for reporting student progress clearly to students and parents.
- The information is used in making decisions regarding student placement.
- The information is required for the evaluation of program effectiveness and for the revision of programs to improve student learning.

Assessment as a Guide for Learning and Instruction

The assessment of student progress serves as a guide for learning and instruction. Knowledge about each student’s current level of achievement is essential for planning learning activities to meet the student’s learning needs.

This information should be collected in a variety of ways to provide feedback that is useful to student and teacher alike. To be most useful, classroom assessment should have the following characteristics:

- It should be part of instruction and should clearly reveal to students what is expected of them.
- It should be an ongoing process rather than a set of isolated events, with the methods and instruments varied and used in a variety of contexts.
- It should focus on a broad range of outcomes, reflecting multiple dimensions of competency development.
- The measures should be appropriate to the student’s development and cultural background.
- It should be constructive. It should focus on what a student can do, clearly identifying both strengths and areas of difficulty. It should encourage improvement in areas of difficulty, linking new learning to what a student already knows and can do. Assessment information should be used by a student to be informed about, to reflect upon and to initiate activities that enhance their learning.
- It should involve students in their own assessment. This gives them responsibility for their own learning and fosters lifelong learning.

Diagnostic Approaches to Instruction

The terms “diagnostic instruction” and “diagnostic teaching cycle” are often used to refer to instruction that is closely linked to assessment. Diagnostic instruction provides a means to ensure that learning difficulties are recognized early and that students receive the help they need. It also provides a means of confirming student learning so that more challenging activities can be provided as students become ready.
Assessment as the Basis for Communicating Individual Student Achievement

When students are placed in age-appropriate groups for instruction, parents can become confused about the distinction between the grade in which their child is placed (the instructional group) and the grade level of the various subject areas at which their child is actually working (e.g., the child is placed in a Grade 4 class but is working at approximately the Grade 3 level in language arts). Where such confusion exists, parents can misinterpret information regarding their child’s progress. They may think that indications of satisfactory progress are made with reference to the instructional group the child is in rather than to the actual grade level at which the child is working. The Assessment as the Basis for Communicating Individual Student Achievement provision is intended to reduce this type of confusion and to support the professional responsibilities of teachers to provide clear communication in describing student progress.

Teachers shall ensure that information is effectively communicated to parents about

- their child’s attitudes, skills and knowledge developed through a set of learning outcomes as referenced in programs of study
- how well their child is doing in each subject
- the grade level(s) the child has achieved in relation to the grade levels of the provincial programs of study for language arts and mathematics

The provision does not restrict the communicating of student achievement to written reports, nor does it require schools to use a particular type of instructional grouping or placement policy.

Teachers should communicate the grade levels at which they judge a student to be working, in at least the two specified subject areas of the curriculum. The basis for their professional judgement in these matters also needs to be clear so that parents can readily understand how student learning has been assessed.

Principals determine how to implement this provision, in consultation with teachers, parents and school councils and in a manner consistent with any related school jurisdiction policies. The communication can take place in a wide variety of ways, including parent–teacher conferences, assessment portfolios, report cards or student work samples. Many methods can be chosen for implementing this provision, but often face-to-face methods are the most successful for achieving clear and open communication.

All of the assessment information should be shared, not only with parents, but also with students when it is in the students’ best interest to do so. Communicating with students about their levels of achievement is particularly important when students are planning their future courses and making program choices.

To assist teachers in assessing student achievement in relation to provincial achievement standards, Alberta Education has released samples of complete provincial achievement tests in all testing areas. These released provincial achievement tests contain the questions, key and other pertinent material about each test and are available on the Alberta Education website. Writing examples for Grade 6 and Grade 9 English language arts achievement tests are available on the Alberta Education website. Writing examples for Français 6 and Français 9 and for French Language Arts 6 and French Language Arts 9 are also available on the Alberta Education website.

Provincial Achievement Testing Program

The provincial achievement tests (PATs) measure knowledge and skills in language arts, mathematics, science and social studies. The tests reflect a common provincial achievement standard for students in a grade. They are based on what students are expected to know and be able to do as set out in the programs of study.

Students registered in grades 6 and 9 and ungraded students in their sixth and ninth years of schooling are expected to write provincial achievement tests.

Provincial achievement tests are administered annually in English language arts, Français, French language arts, mathematics, science and social studies in grades 6 and 9. Grade 9 achievement tests based on the Knowledge and Employability programs of study in English language arts, mathematics, science and social studies are also administered. French versions of all mathematics, science and social studies achievement tests are available for students in Francophone and French immersion programs. Accommodations are available for students with special needs writing achievement tests as specified in the General Information Bulletin: Provincial Achievement Testing Program Grades 6 and 9.

Results are reported in such a way as to encourage improved learning, while minimizing possible harmful effects of testing for individual students. The numbers of students who achieve the acceptable standard and the standard of excellence are reported to facilitate interpretation of local results and to enable comparisons of local results to provincial and local targets. Group results for fewer than six students are reported to the school authority and the school but are not reported publicly. Alberta Education encourages comparisons of local results with local targets, not comparisons of individual scores with other students’ scores.

Schedules for administering achievement tests are mandated by the province and communicated to schools in the General Information Bulletin: Provincial Achievement Testing Program Grades 6 and 9. Information about student achievement is provided to schools and school authorities, parents and the public so that they may know how well students in their schools are meeting local targets and provincial outcomes. Guidelines for Interpreting the Achievement Test Multiyear Reports is provided along with the results.

For more information on provincial achievement testing, see the following:

- General Information Bulletin: Provincial Achievement Testing Program Grades 6 and 9
- information about the tests on the Alberta Education website
- Parent Guide to Provincial Achievement Testing—Grade 6
- Parent Guide to Provincial Achievement Testing—Grade 9

Individual Student Profile

For each student who writes achievement tests, an Individual Student Profile for the student’s education record is provided electronically to the school through the secured Education site. The profile shows the student’s test results in relation to the standards in the courses tested. A second copy of the student’s profile is provided to the school for the student’s parent or guardian.
Student Learning Assessments

The Student Learning Assessments (SLAs) are a beginning of the year assessment that enables teachers and parents to be aware of a child’s strengths and areas for growth. Alberta Education’s goal is for the SLAs to be the trusted beginning of the year assessment tool for teachers, superintendents, principals, parents and students. For the 2018–2019 school year, the Grade 3 SLAs will be available to teachers in all school authorities as a tool to use at their discretion.

Literacy and Numeracy

The SLAs are provided digitally and assess students within the context of the definitions of literacy and numeracy that Alberta Education is currently using to guide its work:

- Literacy is the ability, confidence and willingness to engage with language to acquire, construct and communicate meaning in all aspects of daily living.

- Numeracy is the ability, confidence and willingness to engage with quantitative and spatial information to make informed decisions in all aspects of daily living.

Structure of the Grade 3 SLAs

The four components of the Grade 3 SLAs were determined in partnership with the Alberta School Boards Association, Alberta School Councils’ Association, Alberta Teachers’ Association, College of Alberta School Superintendents and Alberta Assessment Consortium. The four components of the Grade 3 SLAs are

- a digitally scored literacy component
- a literacy performance-task component
- a digitally scored numeracy component
- a numeracy performance-task component

The SLAs will reference the current provincial programs of study until the implementation of new programs of study.

English and French

The literacy components of the SLAs are developed independently for English, French immersion and Francophone students. The numeracy portions are developed in English, and the French immersion and Francophone versions are translations of the English version.

For more information on Student Learning Assessments, visit the Alberta Education website.

1 Language is a socially and culturally constructed system of communication.
2 Quantitative information is information that can be measured and expressed as an amount.
3 Spatial information is the physical location of objects or people, or the relationship between objects or people.
Introduction

Alberta Education diplomas and certificates certify that the holder has successfully completed a prescribed program of instruction. A student who is awarded a diploma or certificate from the list below is a graduate.

This section outlines the requirements for being awarded the

- Alberta High School Diploma (English and Francophone)
- Certificate of High School Achievement (English and Francophone)
- Certificate of Achievement
- Certificate of School Completion
- Alberta High School Diploma as a Mature Student
- High School Equivalency Diploma (by two options)

Note: The possession of a diploma or certificate does not necessarily guarantee admission to a post-secondary institution. Students should be advised to check the calendars of post-secondary institutions for admission requirements.

Alberta High School Diploma

Students who meet the requirements as outlined in this section of the Guide are awarded an Alberta High School Diploma. Students who satisfy these requirements and study in French and take Français 30-1 or Français 30-2 are awarded an Alberta High School Diploma (Francophone).

Certificate of High School Achievement

Students who are enrolled in Knowledge and Employability courses and who satisfy the requirements are awarded a Certificate of High School Achievement.

Certificate of Achievement

Students who were enrolled in the Integrated Occupational Program before January 2006 and meet the requirements outlined in Appendix 3 are awarded a Certificate of Achievement.

Certificate of School Completion

The Certificate of School Completion can be awarded to students with a significant cognitive disability who meet the qualification criteria listed below. Certificates will be generated using student information in PASI upon nomination by the principal/assistant principal of the school.

Qualification Criteria

- The student, due to a significant cognitive disability, is not able to achieve any of the following certificates or diplomas:
  - Alberta High School Diploma
  - Diplôme d’études secondaires de l’Alberta
  - High School Equivalency Diploma
  - Diplôme d’équivalence d’études secondaires
  - Certificate of High School Achievement (Knowledge and Employability)
  - Certificat de réussite d’études secondaires (Connaissances et employabilité)
• The student has worked toward goals and objectives in their individualized program plan/instructional support plan.

• By the end of the nomination school year, the nominee has been a student for at least 12 years (and is 17 years of age by March 1 of the nomination year).

• The school year in which the nomination is being submitted is the student’s last year of school programming.

• The student’s registration in PASI usually includes one of the following special education codes at the time of school completion: 41, 43, 44, 52.

For further information regarding student eligibility for the certificate, contact Learner Services.

In order for students who have achieved a Certificate of School Completion to receive their certificate at the end of their last school year, please submit nominations into PASI after March 31. If a student requires a certificate earlier, contact studentrecords@gov.ab.ca.

Mature Students

A mature student, for Alberta High School Diploma purposes, is one who, as of September 1 of the current school year, is

• 19 years of age or older; or

• the holder of a previously awarded high school diploma from the province of Alberta, or an equivalent high school diploma from a jurisdiction acceptable to the Minister

Mature student status is granted effective September 1 for the subsequent school year. The above criteria are to be satisfied prior to September 1.

The privileges afforded by the granting of mature student status are not applied retroactively to a student’s completed coursework on file with Alberta Education. The application of mature student status is conditional upon the completion of new coursework subsequent to September 1 of the school year in which the status becomes effective.

If a dispute or uncertainty as to whether or not a person qualifies for mature student status still exists after all avenues of appeal have been explored at the jurisdictional or school authority level, cases may be submitted, in writing, to the Special Cases and Accommodations Team. If the matter cannot be resolved by the Special Cases and Accommodations Team, the student may appeal to the Special Cases Committee by writing to the Executive Secretary, Special Cases Committee, Provincial Assessment Sector, Alberta Education.

A mature student is eligible to enrol in any course at the senior high school level or to write a diploma examination without having completed the required prerequisite courses.
A mature student may earn senior high school credits in non-diploma examination courses after successfully completing

- courses offered in a regular accredited school
- courses offered under extension programs
- courses offered by a school or school authority engaging in online learning or print-based distance education programs

A mature student may earn senior high school credits in diploma examination courses by successfully completing course instruction and the diploma examination, or by successfully challenging the diploma examination.

A mature student who has achieved a standing of 50% or higher in a senior high school course, by any of the alternatives noted above, will automatically be awarded credits by Alberta Education for the prerequisites in that course sequence. The credits awarded for each prerequisite course will be the same as the number of credits achieved for the course completed, unless otherwise specified by the principal. However, a mature student who completes a lower-level sequence and transfers to the highest course in a higher-level sequence will receive credits only for the courses completed. For example, a mature student completing Social Studies 10-2, 20-2, 30-2 and Social Studies 30-1 will receive 20 credits. See Waiver of Prerequisites and Credits for Waived Prerequisite Courses, second example, in the Awarding Course Credits section.

The provision to automatically award credits to mature students for prerequisite courses does not apply to

- Agriculture Safety (AGR3000)
- Career and Technology Studies (CTS) 1-credit courses
- courses in the post-secondary institution (PSI) occupational area
- English as a second language courses
- Green Certificate Program courses
- locally developed courses, with the exception of locally developed language courses
- Registered Apprenticeship Program (RAP) courses
- senior high K&E occupational courses, including Workplace Readiness 10-4, Workplace Practicum 20-4 and Workplace Practicum 30-4
- Special Projects 10–20–30
- Work Experience 15–25–35
- Workplace Safety Systems (HCS3000)

Mature students are eligible to receive the Alberta High School Diploma or the Certificate of High School Achievement upon completing the specified requirements. They are not, however, required to complete Physical Education 10 or Career and Life Management (CALM).
Many school authorities offer comprehensive programs for mature students in both credit and non-credit areas. Interested mature students should consult their school authority for details about such programs.

Mature students who enrol in senior high school courses may earn the Alberta High School Diploma under the current diploma requirements. See Alberta High School Diploma Requirements in this section.

Mature students who have not previously attended senior high school are expected to meet the current requirements, except for Physical Education 10 and CALM, to earn an Alberta High School Diploma.

Mature students who entered senior high school prior to 1994–1995 may meet the current requirements or the requirements that were in effect the year they entered high school. Appendix 2 contains a chart that outlines the requirements for years prior to 1994–1995.

Principals will contact Student Records when a student requests programming to meet requirements for years prior to 1994–1995.

For more information, see Grade 10 Students in the Student Placement and Promotion section.

---

**High School Equivalency Diploma**

There are two options for achieving a High School Equivalency Diploma.

**Option 1**

A person 18 years or older as of September 1 of the current school year who is deficient in the credits needed for an Alberta High School Diploma and who has been out of school for at least 10 consecutive months and who wishes to obtain a High School Equivalency Diploma should apply to the principal of a senior high school in the community. The principal will first confirm that the candidate has achieved 60 credits through classroom instruction in a school or other institution accredited by or acceptable to the Minister. For out-of-province students, refer to the Evaluation of Out-of-province/Out-of-country Educational Documents section. The 60 credits will include:

- a high school course in mathematics (5 credits)
- a high school course in science (3 credits)
- English Language Arts 30-1 or 30-2 (5 credits) or Français 30-1 or 30-2 (5 credits)
- one other 30-level course, other than English language arts (5 credits)
- additional high school courses (42 credits)

If the student has met all of the requirements above, the principal will apply additional credits. Additional credits can be awarded in PASI for the following:

- additional high school courses
- a maximum of 15 credits for approved adult education courses offered by recognized agencies (e.g., public colleges, institutes of technology, extension divisions of universities, adult evening classes)
- a maximum of 15 credits for age, according to the following scale:
  - age 21–24 (inclusive)  5 credits
  - age 25–29 (inclusive)  10 credits
  - age 30 and over 15 credits
• a maximum of 5 credits for extensive travel

• a maximum of 5 credits for extensive reading

The student will be awarded the credential if the number of additional credits added to the minimum 60 credits gained through classroom instruction totals at least 100.

Copies of all necessary documents should be retained by the principal in accordance with school authority requirements.

**Note**: The credits for adult education, age, extensive travel and extensive reading cannot be used toward meeting the 100-credit requirement for the Alberta High School Diploma.

For more information about Option 1, contact Student Records or the Special Cases and Accommodations Team.

**Option 2**

A person 18 years or older who has been out of school for at least 10 consecutive months and who passes all five tests in the General Educational Development (GED) test battery with a minimum standard score of 450 or better on each test will be granted a High School Equivalency Diploma.

For more information about Option 2 and the GED program, contact the Provincial Assessment Sector.

---

1 The GED standard has not changed. The reporting of the standard was changed from a 2-digit system to a 3-digit system effective January 2002.
### ALBERTA HIGH SCHOOL DIPLOMA: GRADUATION REQUIREMENTS (ENGLISH)

The requirements indicated in this chart are the minimum requirements for a student to attain an Alberta High School Diploma. The requirements for entry into post-secondary institutions and workplaces may require additional and/or specific courses.

</tbody>
</table>

(continued)
The science requirement—Science 20 or 24, Biology 20, Chemistry 20 or Physics 20—may also be met with the 10-credit combination of Science 14 and Science 10.

See information on exemption from the physical education requirement.

See information on exemption from the CALM requirement.

Integrated Occupational Program (IOP) occupational courses may be used in place of Knowledge and Employability occupational courses to fulfill this requirement.

30-level English language arts or 30-level social studies courses from a different course sequence may not be used to meet the 30-level course requirement.

Students may earn a maximum of 30 credits in Work Experience, but only 15 credits may be used to meet the 100-credit requirement for the Alberta High School Diploma.

Further Notes:

- Courses that are identified using a post-secondary institution (PSI) course code may be used to meet the diploma requirements of “10 credits in any combination from Career and Technology Studies (CTS) courses” and “10 credits in any 30-level course—Advanced level (3000 series) in Career and Technology Studies courses.”

- For 30-level courses that have a diploma examination, the final course mark consists of a blend of the school-awarded mark (70%) and the diploma examination mark (30%).

- For more information, students in Francophone programs should consult the Alberta High School Diploma Requirements (Francophone).

- Mature students should consult the Mature Students section for applicable requirements.
### ALBERTA HIGH SCHOOL DIPLOMA: GRADUATION REQUIREMENTS (FRANCOPHONE)

The requirements indicated in this chart are the **minimum** requirements for a student to attain an Alberta High School Diploma. The requirements for entry into post-secondary institutions and workplaces may require additional and/or specific courses.

#### 10 CREDITS IN ANY COMBINATION FROM

- Career and Technology Studies (CTS) courses
- Fine Arts courses
- Second Languages courses
- Physical Education 20 and/or 30
- Knowledge and Employability courses
- Registered Apprenticeship Program courses
- Locally developed courses in CTS, fine arts, second languages or Knowledge and Employability occupational courses

#### 5 CREDITS IN ANY 30-LEVEL COURSE

*(IN ADDITION TO A 30-LEVEL ENGLISH LANGUAGE ARTS, A 30-LEVEL FRANÇAIS AND A 30-LEVEL SOCIAL STUDIES COURSE AS SPECIFIED ABOVE)*

These courses may include

- 30-level locally developed courses
- Advanced level (3000 series) in Career and Technology Studies courses
- 30-level Work Experience courses
- 30-level Knowledge and Employability courses
- 30-level Registered Apprenticeship Program courses
- 30-level Green Certificate Specialization courses
- Special Projects 30

(continued)
There is an exception for Canadian and immigrant unilingual Francophone students who enter the Alberta school system within five years of their graduating year. For more information, see Alberta High School Diploma Requirements for Francophone Students – English Language Arts below.

The science requirement—Science 20 or 24, Biology 20, Chemistry 20 or Physics 20—may also be met with the 10-credit combination of Science 14 and Science 10.

See information on exemption from the physical education requirement.

See information on exemption from the CALM requirement.

Integrated Occupational Program (IOP) occupational courses may be used in place of Knowledge and Employability occupational courses to fulfill this requirement.

30-level English language arts, 30-level Français or 30-level social studies courses from a different course sequence may not be used to meet the 30-level course requirement.

Students may earn a maximum of 30 credits in Work Experience, but only 15 credits may be used to meet the 100-credit requirement for the Alberta High School Diploma.

Further Notes:

• Courses that are identified using a post-secondary institution (PSI) course code may be used to meet the diploma requirements of “10 credits in any combination from Career and Technology Studies (CTS) courses” and “5 credits in any 30-level course—Advanced level (3000 series) in Career and Technology Studies courses.”

• For 30-level courses that have a diploma examination, the final course mark consists of a blend of the school-awarded mark (70%) and the diploma examination mark (30%).

• Mature students should consult the Mature Students section for applicable requirements.

Alberta High School Diploma Requirements for Francophone Students – English Language Arts

Francophone students who use Français 30-1 or Français 30-2 to meet the language arts requirements for an Alberta High School Diploma must also complete English Language Arts 30-1 or 30-2. The principal of a Francophone school may exempt Canadian and immigrant unilingual Francophone students enrolled in a Francophone Regional authority from meeting the English Language Arts 30-1 or 30-2 Alberta High School Diploma requirement provided that

• the student entered the Alberta school system within five years of the anticipated completion year; and

• the principal deems the student does not demonstrate sufficient English language proficiency to successfully complete English Language Arts 30-1 or 30-2

The principal must report the exemption in PASI at the time it is granted. Note that the exempted student must still be enrolled in English as a second language or English language arts courses. The student is still required to achieve the necessary minimum requirement of 100 credits to earn an Alberta High School Diploma.

For more information, contact Francophone Field Services.
**CERTIFICATE OF HIGH SCHOOL ACHIEVEMENT REQUIREMENTS (ENGLISH)**

The requirements indicated in this chart are the minimum requirements for a student to attain a Certificate of High School Achievement. The requirements for entry into post-secondary institutions and workplaces may require additional and/or specific courses.

5. Courses that are identified using a post-secondary institution (PSI) course code may be used to meet the certificate requirement of “5 credits in Advanced level (3000 series) in Career and Technology Studies courses.”
6. Refer to the Off-campus Education Handbook for additional information.
7. Refer to the Alberta Education website for additional Green Certificate information.
8. Refer to the Off-campus Education Handbook for additional information.
Certificate of High School Achievement Requirements for Francophone Students – English Language Arts

Francophone students who use Français 20-2 or Français 30-4 to meet the language arts requirements for a Certificate of High School Achievement must also complete English Language Arts 20-2 or 30-4. The principal of a Francophone school may exempt Canadian and immigrant unilingual Francophone students enrolled in a Francophone Regional authority from meeting the English Language Arts 20-2 or 30-4 Certificate of High School Achievement requirement provided that

- the student entered the Alberta school system within five years of the anticipated completion year; and
- the principal deems the student does not demonstrate sufficient English language proficiency to successfully complete English Language Arts 20-2 or 30-4

The principal must report the exemption in PASI at the time it is granted. Note that the exempted student must still be enrolled in English as a second language or English language arts courses. The student is still required to achieve the necessary minimum requirement of 80 credits to earn a Certificate of High School Achievement.

For more information, contact Francophone Field Services.
Placement and Promotion

Placement and promotion of a student from one grade or course to another is determined by the school principal, in accordance with policies of the school authority and the provisions in the Guide.

Grade 10 Students

For the purpose of determining a student’s high school completion requirements, the following applies: Upon promotion from Grade 9 and subsequent placement in Grade 10, the student’s Grade 10 year is the school year in which the student receives the first mark (between 0% and 100%) in a senior high school course, as reported to Alberta Education. Also see Mature Students in the Diploma and Certificate Requirements section for information regarding those who entered senior high school before the 1994–1995 school year.

Senior High School Courses and Credits for Junior High School Students

Secondary education programs recognize and accommodate the wide range of developmental needs and abilities that exist among students.

The opportunity to take senior high school courses for diploma credits during a junior high school’s regular instructional day may be offered individually on a case-by-case basis, as deemed appropriate, to an eligible student, as identified by the principal of a junior high school.

An eligible student is one who, in the opinion of the junior high school principal, has successfully completed each core junior high school course by acceptably achieving the learning outcomes (general and specific), has acceptably achieved all of the learning outcomes (general and specific) in all enrolled optional courses, and shows special interest and signs of high potential in subject areas that are part of a high school completion program.

A decision to extend this opportunity to a student is based on the best interests of the student and follows appropriate consultation with and approval of a parent or guardian and the senior high school principal.

A student may be offered an opportunity to take one or more senior high school courses at the junior high school or by attending a senior high school part time.

The following senior high school courses cannot be taken for credit by students enrolled in a junior high school:

- Career and Life Management (CALM)
- Career Internship 10
- English as a Second Language courses
- Green Certificate Program courses
- high school K&E occupational courses, including Workplace Readiness 10-4, Workplace Practicum 20-4 and Workplace Practicum 30-4
- intermediate-level (2000 series) and advanced-level (3000 series) CTS courses
- locally developed courses, with the exception of locally developed language courses
- Registered Apprenticeship Program 15–25–35
• Special Projects 10, 20 and 30
• Work Experience 15, 25 and 35

Note: Only a Francophone school in Alberta can offer credit for Français courses.

Where senior high school courses are offered at the junior high school level, the planning for such courses should be based on collaboration between junior high schools and senior high schools. Junior high school teachers challenging students with senior high school courses should consult with senior high school teachers to establish procedures that ensure consistency in implementing course outcomes and assessment standards.

Schools offering senior high school courses to junior high school students must ensure that the approved programs of study for the senior high school courses are followed.

A junior high school student receives credits and marks for successfully completed senior high school courses. The junior high school principal submits the marks into PASI. Once submitted, the marks will appear on the student’s transcript.

School authorities whose students take courses for senior high school credits while in junior high school, including heritage language credit courses, will not receive credit enrolment unit funding for those courses completed. For more information, see the Funding Manual for School Authorities.

Senior High School Credits for Post-secondary Courses

Post-secondary courses taken at an institution either inside or outside Alberta are not typically equated to credits for the Alberta High School Diploma but may be evaluated for and applied toward the High School Equivalency Diploma. However, recognizing the importance of supporting transitions from high school to post-secondary and/or the workplace, dual credit programming creates opportunities for high school students to earn both high school and post-secondary credits for the same coursework. As outlined in the Alberta Dual Credit Framework and Dual Credit Implementation Guide, completion of authorized dual credit courses may be considered for credit toward the Alberta High School Diploma or the Certificate of High School Achievement.

Evaluation of Out-of-province/Out-of-country Educational Documents

Students entering an Alberta-accredited senior high school program from outside Alberta should submit transcripts, or other official statements of previous standing in senior secondary coursework, to the school they plan to attend. The principal is to evaluate these documents in relation to approved senior high school courses. For courses the student has been evaluated as passing, credits may be awarded or, if no equivalent Alberta approved senior high school course is available, unassigned credits may be awarded.

This assessment of documents should take into consideration the best interests of the student. The assessment establishes the specific requirements needed to obtain a senior high school diploma, as outlined in the Diploma and Certificate Requirements section. Students who are assessed as passing a 30-level course are not required to take the Alberta diploma examination to receive credit for that course.

Evaluations of coursework completed outside of an Alberta-accredited school are to be reported with a mark of “P” for pass. Only evaluations resulting in a “P” for pass are to be reported. All marks are submitted into PASI. The Alberta Transcript of High School Achievement will report the course code and credits awarded for the evaluation. If the student wishes to have a percentage mark reported on the Alberta Transcript of High School Achievement, they must complete the course within an Alberta-accredited school. This can be done either by enrolling in and successfully completing the course, or by completing a course challenge. For diploma examination courses the student must also complete the diploma examination.
Former students of a Francophone education program from outside Alberta entering an Alberta non-Francophone high school may be granted credits for either French as a second language or French language arts but not for Français. Only a Francophone school can offer credit for Français.

Schools must not use the following when evaluating out-of-province documents:

- Agriculture Safety (AGR3000)
- Career Internship 10
- courses in the post-secondary institution (PSI) occupational area
- English as a second language courses
- Green Certificate Program courses
- high school K&E occupational courses, including Workplace Readiness 10-4, Workplace Practicum 20-4 and Workplace Practicum 30-4
- locally developed courses, with the exception of locally developed language courses
- Special Projects 10, 20, 30
- Work Experience 15, 25, 35
- Workplace Safety Systems (HCS3000)

For the evaluation of out-of-country documents, including information on the comparison of grade levels based on the achievement of specific secondary level credentials, principals may wish to consider the following sources:

- The Canadian Information Centre for International Credentials (CICIC) has online country education profiles and comparison tools as well as guiding principles for the recognition of foreign credentials.
- The International Qualifications Assessment Service has also developed International Education Guides as resources for educational institutions, employers and professional licensing bodies. The International Education Guides provide current and comprehensive profiles of the educational systems (secondary and post-secondary) in other countries and how credentials from these countries compare to educational standards in Canada.

An Alberta High School Diploma is not to be issued solely on the basis of the evaluation of out-of-province credentials. A student in this category who wishes to obtain an Alberta High School Diploma is required to complete a minimum of 5 approved credits as prescribed by a school principal.

The required credits are to be completed in one or more of the subject areas specified under the diploma requirements, exclusive of physical education, and at a level equal to that of the highest Alberta course equivalent granted through credential evaluation.

In the case of a dispute over the number of senior high school credits to be awarded that cannot be resolved at the level of the school authority, the student has the right to appeal to the Special Cases and Accommodations Team. If the matter cannot be resolved by the Special Cases and Accommodations Team, the student may appeal to the Special Cases Committee. This committee deals with matters requiring the interpretation and application of policy relative to individual students. The final procedural level in the appeal process is the Minister of Education.
The Special Cases and Accommodations Team may be contacted by email at Special.Cases@gov.ab.ca. The Special Cases Committee may be contacted by writing to the Executive Secretary, Special Cases Committee, at Provincial Assessment Sector, Alberta Education 6th Floor 44 Capital Boulevard, 10044 – 108 Street Edmonton, Alberta T5J 5E6

Students planning to enter directly into a post-secondary institution in Alberta should submit their out-of-province documents to the post-secondary institution of their choice. There are no appeals to Alberta Education in these instances.

**Visiting or Exchange Students**

**Registration**

Visiting or exchange students from another province or country who wish to complete a course for credit must register with the appropriate school authority.

**Statement of Achievement**

Any formal statement of academic achievement required by the school of origin would be issued by Alberta Education in the form of the Alberta Transcript of High School Achievement and would reflect only the courses the student actually completed in an Alberta school.

**Diploma Examinations**

Visiting or exchange students seeking Alberta high school credits in a diploma examination course must write a diploma examination on the same terms as any Alberta student.

Visiting or exchange students may not write diploma examinations in any language other than English or French. The English Language Arts 30-1 and English Language Arts 30-2 diploma examinations must be written in English. The Français 30-1 and French Language Arts 30-1 diploma examinations must be written in French. The diploma examinations in Social Studies 30-1, Social Studies 30-2, Mathematics 30-1, Mathematics 30-2, Biology 30, Chemistry 30, Physics 30 and Science 30 may be written in either English or French.

For more information about the writing of diploma examinations, see the General Information Bulletin: Diploma Examinations Program.

For information regarding fees, see Eligibility to Write in the Student Assessment in Senior High School section.

**International Education and Study Permits**

Contact International Education Services for information about international education initiatives, student exchanges and right of access to education for students from another country.

For information on study permits and the application process, contact Immigration, Refugees and Citizenship Canada.
**Introduction**

*School Act*, Section 39(3)(c)
*Student Evaluation Regulation, AR 177/2003*

The *Student Evaluation Regulation* governing the evaluation of students has been developed under section 39(3)(c) of the *School Act*.

Further to the *Student Evaluation Policy* in the Policies section of the *Guide*, this section provides additional information on student assessment in senior high school.

**Reporting Student Achievement in Senior High School Courses**

Alberta Education maintains an individual student record for each Alberta student. The record for a senior high school student is used to provide a complete and accurate reflection of the student’s senior high school achievement, inclusive of courses reported as pass or fail.

Achievement in all senior high school credit courses is to be reported, with the appropriate designation, in PASI. When funding is requested, all funding conditions must be met and all supporting documentation maintained regardless of the completion status reported. For more information, see the *Funding Manual for School Authorities*.

School-awarded marks in diploma examination courses shall be reported in PASI by the dates specified in the Schedules and Significant Dates section of the *General Information Bulletin: Diploma Examinations Program*.

School-awarded marks in all non-diploma examination courses shall be reported in PASI in accordance with Student Records’ Schedule of Activities, available through the PASI Community Site.

**Reporting CTS Courses**

Students must be individually assessed and graded on each CTS course taken.

Schools are to report all successfully completed CTS courses in PASI, along with an awarded mark of not less than 50% for each course. Schools also report CTS courses in which the student has an incomplete or withdrawal status.

Challenged CTS courses and waived prerequisite CTS courses are also to be reported. See *Course Challenge* and *Waiver of Prerequisites and Credits for Waived Prerequisite Courses* in the Awarding Course Credits section.

Further information about CTS course completion, reporting processes and funding eligibility is provided in the *Funding Manual for School Authorities* and on the PASI Community Site.

**Grade 12 Exemptions for Transfer-in Students**

Out-of-province Grade 12 students who transfer into Alberta schools at the beginning of, or any time during, the school year should be exempted from Career and Life Management and Physical Education 10. These students are still required to achieve the necessary minimum requirement of 100 credits to earn an Alberta High School Diploma.

For the purpose of this exemption, a Grade 12 student is defined as one who is expected to graduate in the school year the student transfers into an Alberta school.

Notice of a student’s exemption is to be reported by the principal, in PASI, at the time of granting the exemption.
Diploma Examinations Program

The Diploma Examinations Program consists of course-specific examinations based on the senior high school programs of study. Students enrolled in the following courses are required to write diploma examinations:

- Biology 30
- Chemistry 30
- English Language Arts 30-1
- English Language Arts 30-2
- Français 30-1
- French Language Arts 30-1
- Mathematics 30-1
- Mathematics 30-2
- Physics 30
- Science 30
- Social Studies 30-1
- Social Studies 30-2

The final mark for diploma examination courses is determined by blending the diploma examination mark (30%) with the school-awarded mark (70%). To obtain credit in a diploma examination course, students are to write the appropriate diploma examination and obtain a final mark in the course of 50% or higher. All diploma examinations are available in the French language, except for English Language Arts 30-1 and English Language Arts 30-2. Students may elect to write either the French or English language version of the respective examination.

For more information on diploma examinations, see the following documents available on the Alberta Education website:

- General Information Bulletin: Diploma Examinations Program
- information for students and parents
- information bulletins for each course in which a diploma examination is administered—these bulletins can be found on the subject-area web pages

Registering for Diploma Examinations

All students currently enrolled in diploma examination courses writing the diploma examination for the first time must be registered by their senior high school principal. All first-time diploma examination writing registrations are to be submitted by the school into PASI.

Students who have written a diploma examination within the current year, or the past two years, and wish to rewrite it, must register directly with Alberta Education and pay the required non-refundable rewrite registration fee either in myPass or by submitting a rewrite form. Schools cannot register a student to rewrite a diploma examination.

Mature students and students not currently enrolled in a diploma examination course who wish to write a diploma examination must register directly with Alberta Education in myPass.

All diploma examination registrations must be submitted by the appropriate due date as published in the General Information Bulletin: Diploma Examinations Program.
All schools or writing centres offering diploma examinations must submit their Diploma Examination Sittings into PASI.

Special Writing Centres outside Alberta may be authorized upon application to and approval by the Special Cases and Accommodations Team.

**Diploma Examinations Schedules**

For information on diploma examinations schedules, consult the current *General Information Bulletin: Diploma Examinations Program*.

**Eligibility to Write**

Students who are registered in Alberta senior high schools to receive instruction in a diploma examination course are permitted to write the diploma examination in that course at their school of registration.

Students currently enrolled in a diploma examination course are required to write the diploma examination in that course before credits are awarded.

Students who have been awarded credit previously for a course may register to write a diploma examination for that course. Students who have written a diploma examination within the current year, or the past two years, and wish to rewrite it, must register directly with Alberta Education and pay the required non-refundable rewrite registration fee either in myPass or by submitting a rewrite form.

Mature Students, as defined in the Diploma and Certificate Requirements section, may register to write the diploma examination without taking instruction.

Students who are not funded by Alberta Education or who are not on a reciprocal exchange are required to pay a non-refundable registration fee to write a diploma examination. For more information, see the *General Information Bulletin: Diploma Examinations Program*.

Students who are in a home education program are eligible to write diploma examinations. See the *Home Education Regulation*.

**Rewrite Fees**

Students who intend to rewrite one or more diploma examinations are required to register directly with Alberta Education and pay a non-refundable rewrite registration fee for each examination. This can be done in myPass or by submitting a rewrite form. This applies whether or not students are receiving instruction in the course through day classes, evening classes, summer school, online learning or print-based distance education programs.

Students are charged a non-refundable rewrite registration fee for a diploma examination if they have written examinations in this course within the current school year or the two school years prior to the current school year.

**Accommodations for Students with Special Diploma Examination Writing Needs**

*Student Evaluation Regulation, AR 177/2003*

Students with special diploma examination writing needs may require accommodations to write a diploma examination.

A list of accommodations and the processes related to requesting them are found in the Accommodations, Provisions and Special Cases section of the *General Information Bulletin: Diploma Examinations Program*.

For assistance and inquiries regarding the use of accommodations for diploma examinations, contact the Special Cases and Accommodations Team.
Exemption from Writing Diploma Examinations

Under specific circumstances, a partial or full exemption from the diploma examination may be granted upon application to and approval by the Special Cases and Accommodations Team. For more information, see the General Information Bulletin: Diploma Examinations Program.

Diploma Examination Results Statement

Following each diploma examination period, each student who has written one or more diploma examinations can retrieve their Diploma Examination Results Statement from the student self-service website called myPass. The statement shows the diploma examination mark received for the writing session specified, the school-awarded mark for the writing session specified, and the most recent official mark for the diploma examination course.

For students who may have two or more school-awarded marks, or two or more diploma examination marks in the same course, the official mark, for transcript purposes, is a blend of the highest school-awarded mark and the highest diploma examination mark achieved in the course.

Reporting Results of the Provincial Assessments

The school principal must report annually to the parents of students in the school and to the school community the school’s results on provincial assessments, including information on the local context and the limitations of assessments. The school principal must report on the percentage of students who achieve the acceptable standard and the percentage of students who achieve the standard of excellence on diploma examinations, as well as student participation in diploma examination courses. Student results based on school marks and final marks can also be reported.

Provincial results for diploma examination courses are released/web-posted annually by the Minister in the fall. Prior to this release/web-posting, a multiyear summary report containing examination results, school-awarded results and final combined results for all diploma examination administrations is provided to schools and school authorities via a secure website. Following the ministerial release, the multiyear summary reports are provided on Alberta Education’s website. For more information, schools can refer to School Authority Planning and Reporting on the Alberta Education website.

Appeal Procedures

School-awarded Course Marks

School principals should inform students of appeal procedures. A student who is dissatisfied with a school-awarded mark may

- appeal under the policies set by the school authority, or
- take the course again

Formal notifications of school-awarded mark changes in diploma examination courses shall be submitted into PASI before the official release dates of Results Statements. These dates are published in the annual General Information Bulletin: Diploma Examinations Program.

Requests to change school-awarded marks in diploma examination courses after the published dates shall be submitted for approval into PASI.
Diploma Examination Marks

A student who believes that their diploma examination mark does not appropriately reflect their achievement may

- submit a written request for a rescore to the Provincial Assessment Sector, in accordance with the terms and date specified on the appropriate results statement, or

- rewrite the examination at a later administration date. Some diploma examinations may not be available for rewrite during certain examination administration periods. For more information, see the General Information Bulletin: Diploma Examinations Program.

Rescoring a Diploma Examination

A student who wishes to have a diploma examination rescored is required to submit an application form and pay a rescore fee, per examination, directly to Alberta Education through myPass. This fee is refunded if the examination mark increases by 5% or more as a result of rescoring.

The mark resulting from rescoring becomes the final diploma examination mark, whether it is lowered, raised or remains the same.

High School Diplomas, Certificates and Transcripts

Student Records issues the Alberta High School Diploma, the High School Equivalency Diploma, the Certificate of High School Achievement or the Certificate of School Completion to students who meet the requirements. The Detailed Academic Report is an unofficial document that contains a student’s entire senior high school record and can be accessed and printed directly by the student on myPass.

For a fee, students may request that an Alberta Transcript of High School Achievement be sent to themselves, an employer or a post-secondary institution. The request and payment can be submitted on myPass. The transcript is produced from the student’s Alberta Education student record. Courses deemed incomplete for any reason are not reported.

It is the responsibility of the student to request a new transcript when their information has been updated. Students can view unofficial copies of transcripts using myPass.

Language Versions

Diplomas and certificates are generally issued in English. Principals of schools with alternative French language programs (including French immersion) are expected to advise their students that they can request a French version of their diploma or certificate. Principals should submit a letter to Student Records naming those students wanting French diplomas or certificates. For students registered in a Francophone school, diplomas and certificates are automatically issued in French.

Using myPass, students may request their credential be reprinted in English or French. Transcripts in English or French may also be requested by the student using myPass. The Detailed Academic Report is available in English only.
Provisions for Mature Students

Mature students may earn senior high school credits without holding credits for the prerequisite courses. For more information, see [Mature Students](#) in the Diploma and Certificate Requirements section.

Credits for Private School Instruction

When a registered private school is approved as an accredited private school, students enrolled in the school prior to the change in classification may be awarded senior high school credits for courses successfully completed prior to the change of classification, at the discretion of the principal of the accredited private school.

When a student transfers to a school authority from a registered Alberta private school or other non-accredited school, the student may be awarded credits for previous instruction at the discretion of the principal of the receiving school. In these instances, the student is responsible for providing the principal with a record of the final mark awarded and an outline of each course.

When credits for previous instruction are submitted into PASI, the principal may only submit a “P” for pass, not a grade or percentage score.
PROGRAM ADMINISTRATION AND DELIVERY – AWARDING COURSE CREDITS

Introduction

After each semester or school year, students shall be awarded credits by Alberta Education on the recommendation of the principal, subject to the following ministry requirements:

- Instruction is the responsibility of qualified teachers holding valid Alberta teaching certificates.
- Students in all schools, those participating in High School Redesign and those not participating in High School Redesign, have access to a minimum of 1000 hours of instruction per school year, as outlined in the Program Planning – Senior High School section.
- The instructional time allocated to each course, for students in schools that are not participating in High School Redesign, meets the minimum times specified in the Program Planning – Senior High School section.
- The content of each course follows that outlined in the senior high school programs of study.
- The senior high school is operating in accordance with the Guide to Education: ECS to Grade 12.
- Student evaluation is carried out in accordance with school authority policy and is consistent with the Student Evaluation Policy.
- School-awarded marks in diploma examination courses and final marks in all other senior high school courses are endorsed by the principal in accordance with school authority requirements. School-awarded marks are subsequently submitted to Alberta Education for recording at a time and in a manner determined by the Minister.

Rules Governing Awarding of Credits

To earn the credits attached to all senior high school courses, a student shall achieve at least 50% in each course.

Credits will not be granted for courses that a student has previously passed and for which credits have been awarded. In the case of a student repeating a course, the higher mark will appear on the Alberta Transcript of High School Achievement.

Awarding and Reporting Dual Credits

Recognizing the importance of supporting transitions from high school to post-secondary and/or the workplace, dual credit programming creates opportunities for high school students to earn both high school and post-secondary credits for the same coursework and allows for these opportunities to be reported on the Alberta Transcript of High School Achievement.

Dual credit programming falls within the Career and Technology Studies (CTS) program. Awarding and reporting of dual credit courses will follow the same processes as for other CTS high school courses. See Reporting CTS Courses in the Student Assessment in Senior High School section.

Additionally, where there is a formal dual credit partnership between a school authority and an eligible post-secondary institution, schools may designate in PASI, through the use of the dual enrolment flag (DEF), that a dual credit course is aligned with a post-secondary course. Principals will be able to flag courses taken through a dual enrolment and will be asked to select the post-secondary institution through which the courses were taken.
Further information about dual credit course completion, reporting processes and funding eligibility is provided in the Alberta Dual Credit Framework, the Dual Credit Implementation Guide and the Funding Manual for School Authorities.

For more details on authorized dual credit programming and associated course codes, contact the High School Social Studies and Career Pathways Branch via email at edc.dct@gov.ab.ca.

**Awarding and Reporting External Credentials**

Recognizing the importance of supporting transitions from high school to post-secondary and/or the workplace, the Career and Technology Studies (CTS) program creates opportunities for high school students to earn external credentials that can be reported on the Alberta Transcript of High School Achievement.

For external credentials associated with CTS Credentialed Pathways, the associated courses and the credential can be added to the student’s record in PASI. The Alberta Transcript of High School Achievement will report the external credential as well as the CTS courses completed and credits awarded. See the CTS Credentialed Pathways document on the Alberta Education website for a list of pathways that are associated with external credentials that can be identified on a student’s transcript.

**Course Sequence Transfer**

For details on awarding course credits to students who transfer course sequences, see Course Sequence Transfer in the Courses and Programs section.

**Prerequisite Standing**

*School Act*, Section 39

In accordance with the Minister’s authority under section 39 of the School Act, a student who has achieved a mark of 50% or higher in a given course shall be eligible to take the next or higher ranking high school course in that sequence. For more information, see Provincially Authorized Senior High School Courses and Course Codes on the Alberta Education website.

**Course Challenge**

Course challenges are intended to

- meet the diverse needs of students
- encourage students’ ownership of their learning
- acknowledge the learning that students acquire in a variety of settings, not necessarily limited to schools

The course challenge provision allows any student registered in senior high school to challenge the outcomes of a course by participating in a formal assessment process, rather than taking the course. This provision allows senior high school students who believe that they have acquired the knowledge, skills and attitudes as defined by the program of studies for a given course (and are ready to demonstrate that achievement) to participate in a summative assessment/evaluation process.

The course challenge process must assess a student’s achievement of the depth and breadth of the outcomes of the course. Assessment procedures for course challenges must include a variety of formats and strategies.
Definitions

Assessment refers to the process of a student performing a number of tasks and showing samples of work that demonstrate the degree to which the student has achieved the expected standards for the outcomes of the course. The student’s performance and the quality of the student’s work are evaluated by a certificated teacher who has expertise in the subject/course in question.

Course refers to a course at any level in a course sequence.

Course sequence refers to a sequence of courses that together constitute a complete set of prerequisites (e.g., French Language Arts 10-1, 20-1, 30-1).

Summative evaluation refers to the final evaluation of learning outcomes.

Diploma Examination Courses

The course challenge provision applies to non-diploma examination courses and only to the school-awarded mark component of diploma examination courses. Students challenging a non-diploma course will be given a final course mark, and, if successful, credits in that course.

Credit in diploma examination courses can be achieved only through a combination of the school-awarded mark (70%) and the diploma examination mark (30%). Course challenge in diploma examination courses applies only to the school-awarded mark component of the course and, therefore, will not result in a final course mark or in credits until after the student successfully completes the diploma examination for that course.

Course Challenge for Languages

In the assessment process for a language course challenge, students need to perform a number of oral, written, listening and reading comprehension tasks as well as show samples of their work that demonstrate the expected knowledge, skills and attitudes for the course being challenged. Student performance and quality of work are to be evaluated by an Alberta certificated teacher who has expertise in the language course being challenged. In Alberta, only Francophone schools can offer course challenge and credit for any Français course.

Students who successfully challenge a language course will receive waived prerequisite credits for lower grade level courses in that sequence if they have not already received credits for lower grade level courses in that language. For more details, see the Waiver of Prerequisites and Credits for Waived Prerequisite Courses section.

Français 10, 20 and 30 Level

Senior high school students whose parents have rights under section 23 of the Canadian Charter of Rights and Freedoms, and who are currently attending a school other than one administered by a Francophone Regional authority, may challenge Français 10-1, 10-2, 20-1, 20-2, 30-1 or 30-2 by first registering with the nearest Francophone Regional authority for the course. All other procedures as detailed in this section apply.
Exceptions

The course challenge provision applies only to students who believe they have the knowledge, skills and attitudes as defined by the program of studies for a given course.

Students are not permitted to challenge the following courses:

- Agriculture Safety (AGR3000)
- Career Internship 10
- courses in the post-secondary institution (PSI) occupational area
- English as a second language courses
- Green Certificate Program courses
- high school K&E occupational courses, including Workplace Readiness 10-4, Workplace Practicum 20-4 and Workplace Practicum 30-4
- locally developed courses, with the exception of locally developed language courses
- Registered Apprenticeship Program (RAP) courses
- Special Projects 10, 20 and 30
- Work Experience 15, 25 and 35
- Workplace Safety Systems (HCS3000)

Students

Any senior high school student in Alberta who believes that they possess the knowledge, skills and attitudes for a senior high school course as specified in the program of studies, and is ready to demonstrate that achievement through a formal, summative assessment process, may initiate a request for course challenge to their high school principal. For diploma examination courses, this applies only to the school-awarded mark component.

The student who initiates the course challenge process shall take responsibility for providing evidence of readiness to challenge a course (e.g., a portfolio, other collection, documentation of work and/or experience, a recommendation from a junior high school teacher).

A student may not initiate a course challenge for a course in a lower-level sequence if the student has been awarded credits in a course in a higher-level sequence. For example, a student who has earned credits for Science 30 may not challenge Science 24. High school mathematics course sequences are an exception, as they are designed based on content rather than level of difficulty. A student may challenge Mathematics 20-3 or Mathematics 20-2 after being awarded credits in Mathematics 20-1, as Mathematics 20-1 is not considered part of a higher-level course sequence in this instance. The same exception applies to 30-level mathematics courses.

A student who has been waived into a higher-level course in a sequence may challenge the lower-level course(s) in that sequence. For example, a student who is waived into Science 30 may challenge Science 20.

A student who challenges a course, either successfully or unsuccessfully, may subsequently choose to take the course.
**High School Principal**

Course challenges shall be administered by a senior high school according to its policy (in addition to school authority policy) only after the student is enrolled in senior high school.

A student’s readiness for course challenge shall be determined through consultation that includes the senior high school principal, the student, the parent(s) and the teacher of the course. The consultation shall include discussion of the student’s chance of successfully meeting the acceptable standard for the course and the student’s apparent capacity to successfully handle the course at the next level. For more information, see the Marks, Credits and Reporting section below.

The senior high school principal shall make the final decision about the student’s readiness for the course challenge. The principal shall base this decision on the consultation with the student, the parent(s) and the teacher of the course.

The senior high school principal shall assign the administration and evaluation of assessment for a course challenge to an Alberta certificated teacher who has expertise in the subject/course. Only a principal of a Francophone school in Alberta can award credit for Français courses.

The senior high school principal shall ensure that assessment for course challenges includes strategies that will assess the breadth and scope of the learning outcomes for the course, as outlined in the program of studies, in a timely and practical manner.

**Marks, Credits and Reporting**

The senior high school principal shall report a student’s achievement in a course challenge according to the requirements in Reporting Student Achievement in Senior High School Courses in the Student Assessment in Senior High School section.

A student who successfully demonstrates through the course challenge process that they possess the outcomes for the course to at least the acceptable standard, shall be awarded a final course mark and credits for the course challenged, except in diploma examination courses, which require the school-awarded mark to be blended with the diploma examination mark before a final course mark or credit is possible.

The percentage mark for the course challenge is to be reported in PASI.

The principal must ensure that the student challenging a course is aware that, upon the student’s successful completion of a course challenge, waived prerequisite credits and either a percentage mark or a “P” for pass are granted by the principal for courses lower in the course sequence. If a student wishes to receive a percentage mark on their Alberta Transcript of High School Achievement for prerequisite courses, the student must successfully challenge each individual course. In this situation, it is recommended that the student challenge the course sequence in sequential order (i.e., 10-level, then 20- and 30-levels respectively). Otherwise, upon a student’s successful completion of a course challenge, waived prerequisite credits and a “P” will be granted by the principal for courses lower in the course sequence.

For example, if a student wishes to challenge Spanish Language and Culture 30-3Y and also earn percentage marks for Spanish Language and Culture 10-3Y and Spanish Language and Culture 20-3Y, then the student should challenge the course sequence in sequential order. Otherwise, the student who only challenges Spanish Language and Culture 30-3Y will receive a “P” for Spanish Language and Culture 10-3Y and 20-3Y. For more information, see Waiver of Prerequisites and Credits for Waived Prerequisite Courses.

---

1 Heritage language schools should contact the High School Languages, Arts and Wellness Branch for guidelines in the administration of the course challenge provision.
If a student chooses to take the course in the same semester in which they attempt a course challenge, either successfully or unsuccessfully, the school shall submit both marks and the higher mark will appear on the student’s Alberta Transcript of High School Achievement.

A student shall attempt a particular course challenge only once. If the student is unsuccessful, but wants credit in the course or wishes to raise their mark, the student is required to take the course.

**School Authorities**

Each school authority shall have a policy that governs the administration of course challenges in the senior high schools under the jurisdiction of that authority.

Each school authority shall establish procedures to communicate to parents and students the availability of and procedures for course challenges.

A school authority shall make arrangements to provide appropriate course challenge assessments for the full range of senior high school courses offered by the school authority, except for those courses in the Exceptions section above.

A school authority may choose to accommodate requests to challenge courses not offered by the school authority by arranging with other school authorities for such challenges. A student who undertakes such a course challenge shall assume all expenses, other than those normally assumed by a school for assessment (e.g., personal transportation). A student wishing to challenge Français courses should be referred to a Francophone Regional authority.

**Funding**

Consult the [Funding Manual for School Authorities](#) for funding information related to the course challenge provision.

---

### Waiver of Prerequisites and Credits for Waived Prerequisite Courses

Prerequisites shown in [Provincially Authorized Senior High School Courses and Course Codes](#) on the Alberta Education website may be waived by the principal.

If the principal waives a prerequisite, the following conditions must be met:

- The student possesses the knowledge, skills and attitudes identified in the waived course or program of studies.
- Judgements are made on an individual basis, not for an entire class of students.
- It is in the student’s best interest.

Note that only a principal of a Francophone school in Alberta can award a waiver of prerequisites and/or credits for waived prerequisite Français courses.

In the case of CTS, the student must present documentation that indicates that they have met the learning outcomes and safety requirements of the prerequisite course. This documentation could be

- an external industry certificate
- records from a junior high class
- a letter from a previous teacher or principal
- a credible portfolio
- an existing project that demonstrates their skills
The principal must also take into consideration that the prerequisite course may be one in a series of courses required for admission into a post-secondary institution or to qualify for an external industry certificate and, therefore, requires an actual grade.

Examples:

- A student who is waived into English Language Arts 30-1 and successfully completes the course receives 5 earned course credits for English Language Arts 30-1 plus waived credits for English Language Arts 10-1 and English Language Arts 20-1, for a total of 15 credits.

- A student successfully completing English Language Arts 10-2, 20-2, 30-2 and English Language Arts 30-1 receives 20 credits; however, waived credits are not granted for English Language Arts 10-1 and English Language Arts 20-1 because the student transferred from a lower-level course to a higher-level course sequence. The student was not waived into English Language Arts 30-1.

- A student who successfully completes English Language Arts 10-1 then earns credits for English Language Arts 30-2 should receive waived credits for English Language Arts 20-2.

Upon the student’s successful completion of the next or higher-level course in a given sequence, the principal shall report any waived prerequisite course or courses in PASI. Only a “P” is accepted for the mark. Credits are then granted for the waived prerequisite course or courses. The Alberta Transcript of High School Achievement will report the course code and credits awarded. The credits awarded for each prerequisite course are the same as the number of credits achieved for the course completed, unless otherwise specified by the principal.

Students may only earn waived prerequisite credits at the lower grade level for subjects the student has not already completed. For example, a student who has passed Social Studies 20-1 and successfully challenges Social Studies 30-2 does not receive waived prerequisite credits in Social Studies 20-2, or a student who has completed French Language Arts 30-1 and successfully challenges French 30-9Y would only receive challenge credits for French 30-9Y and would not receive other waived prerequisite credits in French language courses.

Exceptions

The waiver provision outlined above does not apply to the following courses:

- Agriculture Safety (AGR3000)
- Career and Technology Studies (CTS) 1-credit courses
- Career Internship 10
- courses in the post-secondary institution (PSI) occupational area
- English as a second language courses
- Green Certificate Program courses
- high school K&E occupational courses, including Workplace Readiness 10-4, Workplace Practicum 20-4 and Workplace Practicum 30-4
- locally developed courses, with the exception of locally developed language courses
- Physical Education 10
- Registered Apprenticeship Program (RAP) courses
- Special Projects 10, 20 and 30
• Work Experience 15, 25 and 35
• Workplace Safety Systems (HCS3000)

Retroactive Credits

This section applies to all students except mature students. See the criteria for mature students under Mature Students in the Diploma and Certificate Requirements section.

Students not achieving at least 50% in a course may repeat the course or, subject to the approval of the school principal, take a course in an alternative sequence. Students who successfully complete the next higher-level course in an alternative sequence shall be granted credit for the prerequisite course in that alternative sequence.

The following chart presents the only courses toward which retroactive credits may be applied:

1 The references to Semester/School Year “A” and Semester/School Year “B” are to emphasize that sequential registration and instruction are required.
2 Note that only a Francophone school in Alberta can award retroactive credits for Français.
Courses for which retroactive credits have been granted will have the course code and credits reported on the Alberta Transcript of High School Achievement.

A student shall be awarded retroactive credits automatically by Alberta Education when all of the following criteria are met:

- The student is registered by the principal in an approved course and receives instruction in the course in Semester “A”/School Year “A.”

- At the end of Semester “A”/School Year “A,” the principal reports that the student has failed in the registered course. A mark of less than 50% must be reported and recorded on the student’s file for the student to be eligible for retroactive credits in the following years.

- Pursuant to a specific school authority promotion policy, the student is registered by the principal in the next higher-level course in an alternative sequence in the following Semester “B”/School Year “B.”

- The principal subsequently submits into PASI, in the appropriate reporting period for Semester “B”/School Year “B,” a pass mark in the higher-level alternative course completed.
Frame of Reference of the Committee

*Student Evaluation Regulation, AR 177/2003*

The Minister, under section 12 of the *Student Evaluation Regulation*, may appoint members of the Special Cases Committee.

Membership of the Committee

The Committee is chaired by the Director, Examination Administration, and is composed of five other directors or executive directors of Alberta Education, or their designates, as approved by the chair.

Responsibilities of the Committee

The Committee is responsible for hearing appeals resulting from decisions on matters, including the following:

- rulings related to disputed out-of-province high school credit decisions
- rulings on disputed evaluations, results of evaluations or diploma requirements
- rulings on student evaluation or diploma requirements where no Alberta Education policy or precedent exists
- determining the mature student status of individuals
- reviewing disputed retroactive credits
- determining permitted practice variations for students writing diploma examinations
- reviewing any other decision that the Special Cases Committee considers appropriate under the circumstances

The Committee will only consider matters that have been previously considered by the school, board and Special Cases and Accommodations Team where the matter remains unresolved. On receipt of a decision of the Special Cases Committee, the person who made the request(s) may request in writing that the Minister of Education review the decision.

Directions for Contacting the Committee

Individuals who have explored all other avenues of appeal at their school authority level and with the Special Cases and Accommodations Team may apply, in writing, for their case to be reviewed by the Special Cases Committee. The written submission must provide reasons for the appeal, along with any other supporting information and documentation, if necessary. The Special Cases Committee may be contacted by writing to the Executive Secretary, Special Cases Committee, at

Provincial Assessment Sector, Alberta Education
6th Floor
44 Capital Boulevard, 10044 – 108 Street
Edmonton, Alberta  T5J 5E6
Individuals making an appeal to the Special Cases Committee must advise the principal of the school and the superintendent, if applicable, of the school authority where the individual received instruction.

Upon receiving notice of an appeal to the Special Cases Committee, the principal of the school must submit a written report to the Special Cases Committee outlining recommendations related to the appeal.

Students shall be informed of their right of appeal to the Special Cases Committee.

For more information on the Special Cases Committee, contact the Executive Secretary, Special Cases Committee, Provincial Assessment Sector.
Introduction

School Act, Section 39(1)

Pursuant to section 39(1) of the School Act, the Minister may authorize instructional materials for use in schools.

Learning and teaching resources are those print, non-print and digital resources used by students and/or teachers to facilitate learning and teaching. Many learning and teaching resources—developed by publishers, Alberta Education or Alberta teachers—are available for use in implementing school programs.

Authorization indicates that the resources meet Alberta Education’s evaluation criteria (e.g., curriculum congruency; instructional and technical design; Guidelines for Recognizing Diversity and Promoting Respect; preference for Canadian content; and Guiding Voices: A Curriculum Development Tool for Inclusion of First Nation, Métis and Inuit Perspectives Throughout Curriculum); however, the use of authorized resources is not mandatory for program delivery.

Under section 60(2)(b) of the School Act, a school board may develop or acquire instructional materials for use in programs or in schools, subject to section 39. In developing/acquiring instructional materials, the school board should take into account such criteria as curriculum congruency; instructional and technical design; Guidelines for Recognizing Diversity and Promoting Respect; preference for Canadian content; and Guiding Voices: A Curriculum Development Tool for Inclusion of First Nation, Métis and Inuit Perspectives Throughout Curriculum.

Alberta Education does not prescribe any one method of teaching over another. Teachers are expected to use their professional judgement and knowledge to select the most appropriate methods of teaching that best meet the needs of their students. However, the practice of teachers is described in the Teaching Quality Standard Applicable to the Provision of Basic Education in Alberta (#016/97). The ministry authorizes student and teacher resources to assist teachers in identifying instructional materials to support student learning. The use of authorized resources is not mandatory. Student and teacher resources may include print and digital formats used in a variety of settings and delivery modes to facilitate the implementation of provincial courses and programs of study, and educational initiatives.

For more information on authorized English and French learning and teaching resources, contact the Implementation and Resources Branch.

Distributed Learning Resources

Distributed learning resources are available for students and teachers in Alberta from LearnAlberta.ca. These resources are designed in a modular format, with each module consisting of student-centred learning resources that motivate and guide students as they work through a variety of learning experiences, assessment opportunities and integrated multimedia. Distributed learning resources meet the evaluation criteria and address the general and specific outcomes of a course as outlined in the provincial programs of study.

Services for Children/Students with Visual Impairments

Services for Students with Visual Impairments (SSVI) manages the braille transcription of authorized student basic textbooks within the four core subject areas (English language arts, social studies, science and mathematics) and an assistive technologies equipment loan program (e.g., braille note takers, embossers) for ECS to Grade 12 students.

For more information on accessing the services, visit Supports for Visual Impairments on the Alberta Education website.
Digital Textbook Repository for Students with Disabilities

The digital repository on LearnAlberta.ca houses grades 4 to 12 student basic textbooks in the four core subject areas. School staff can access digital, PDF textbook files by agreeing to follow a specified terms of use agreement. By agreeing to the terms of use, teachers can access these resources for their eligible students with learning, cognitive, physical and vision-loss-type disabilities. For more information on the repository, visit Supports for Visual Impairments on the Alberta Education website.

LearnAlberta.ca

LearnAlberta.ca offers engaging digital learning and teaching resources for Alberta’s ECS to Grade 12 community. These multimedia resources can be accessed from any computer with a high-speed Internet connection. Visitors must sign in to access the full complement of resources. Jurisdiction usernames and passwords are distributed to school authorities and school principals.
Alberta Education Contacts

Alberta Education can be contacted in a number of ways. To be connected by telephone toll-free from anywhere in Alberta, dial 310-0000 and when prompted dial the desired number.

---

Students in Francophone programs may present Français 30 as the Category A diploma requirement. For these students, the Category C requirement is English 10–20–30. French immersion students may apply French Language Arts 10–20–30 toward the Category C requirement.
The Certificate of Achievement can be obtained by students who were enrolled in Grade 10 to Grade 12 in the Integrated Occupational Program (IOP) as of January 2006.

Knowledge and Employability courses may be used in lieu of the corresponding IOP courses to meet the requirements of the Certificate of Achievement. For the Certificate of High School Achievement requirements after 2006, refer to the Certificate of High School Achievement Requirements.

To qualify for a Certificate of Achievement, Integrated Occupational Program students must earn a minimum of 80 credits.

APPENDIX 3

Integrated Occupational Program (IOP)
Certificate of Achievement Requirements Prior to 2006

1. Credits are indicated in parentheses.
2. To be considered for a Certificate of Achievement, a student must successfully complete the English language arts requirements.
3. Francophone students in IOP must take Français 10-4 (5), Français 20-4 (5) and Français 30-4 (5), in addition to the English language arts courses indicated above.
4. See information on exemption from the CALM requirement.
5. Minimum credits may vary depending upon the Eligible Courses and Credits options chosen.
6. One 36-level course (10 credits) from any occupational cluster or one 35-level locally developed IOP course (10 credits) is acceptable for students transferring from the Integrated Occupational Program to the Alberta High School Diploma program to meet the 10-credit requirements.
7. Students may meet the 40-credit occupational course requirement by completing
   - IOP occupational courses from among the clusters listed above, AND/OR
   - 40 credits in CTS courses including 10 credits in advanced-level (3000 series) courses, AND/OR
   - 40 credits in RAP including two 35-level RAP courses, AND/OR
   - 40 credits in any combination of any level IOP occupational courses, RAP courses and two 30-level Green Certificate courses in any specialization, AND/OR
   - any 40-credit combination of IOP occupational courses, CTS courses, RAP courses or Green Certificate courses that include a minimum of 10 credits in 35-level RAP courses or 36-level occupational courses or ten advanced-level (3000 series) CTS courses
NOTICE FORM UNDER SECTION 50.1 OF THE SCHOOL ACT

Date: ______________________

Dear Parent/Guardian:

Your child is currently enrolled in a course of study or educational program that [circle one]

a) includes subject matter that deals primarily and explicitly with ________________________________ [specify religion or human sexuality]; or

b) uses an instructional material or exercise that includes subject matter that deals primarily and explicitly with ________________________________ [specify religion or human sexuality]

The subject matter is contained in the following areas:

________________________________________________________________________

[identify the theme/outcome of the course of study, educational program, or instructional material, or exercise that contains the subject matter]

The purpose for the inclusion of this subject matter in the course of study, educational program or instructional material, or exercise is

________________________________________________________________________

[identify the learning outcome associated with the identified subject matter]

Instruction involving the subject matter will be provided on ________________________________

[specify date and time].

Pursuant to section 50.1(2) of the School Act, you as a parent/guardian may request that your child be excluded from the above-identified instruction, without academic penalty, by having your child either

a) leave the classroom or place where the instruction is taking place or where the instructional material is being used for the duration of that part of the instruction; or

b) remain in the classroom or place where the instruction is taking place without taking part in the instruction or use of instructional material

In order to exercise this option, you must sign and return the attached exemption form to ______________________ [specify individual] on or before the date of the instruction indicated above. If this form is not returned before that date, your child will be included in the instruction above.

If you would like additional information about the content of this notification, please contact

________________________________________ [specify individual]

________________________________________ [identify Principal/Teacher and school board]
STUDENT EXEMPTION UNDER SECTION 50.1 OF THE SCHOOL ACT

TO: Principal/Teacher of ___________________________ [identify school], of ___________________________ [identify school board].

In response to the notice provided to me by the Board of Trustees of ___________________________ [name of school board] dated ___________________________ [date of notice] indicating that a course of study or educational program in which my child is enrolled, or an instructional material or exercise used in a course of study or educational program in which my child is enrolled, includes subject matter that deals primarily and explicitly with ___________________________ [specify religion or human sexuality], I, ___________________________ [name of parent/legal guardian], in accordance with section 50.1(2) of the School Act, hereby request that my child, ___________________________ [name of child], be excluded from the instruction, exercise or the use of instructional material identified in the notice.

I request that my child (check relevant box)

☐ A) Leave the classroom or place where the instruction is taking place or where the instructional material is being used for the duration of that part of the instruction.

OR

☐ B) Remain in the classroom or place where the instruction is taking place without taking part in the instruction or use of instructional material.

I confirm that I am the parent/legal guardian of ___________________________ [name of child] and have chosen to exercise my option to have my child excluded from the instruction described in the notice from ___________________________ School [name of school] on the dates indicated in the notice. I also confirm that it is my obligation to ensure that this form is returned to the school principal/teacher on or before the date of the instruction indicated in the notice.

The child to whom this exemption notice applies is: ___________________________ [name of child]

Grade: ___________________________
